This agreement made in duplicate the 30th day of December, A.D. 1922.

Between:

CANADIAN PACIFIC RAILWAY COMPANY, hereinafter
called the "Company,"

of the First Part;

—and—

THE CORPORATION OF THE TOWNSHIP OF SCHREIBER,
hereinafter called the "Corporation,"

of the Second Part.

Whereas the Company has a dam across the southern part of Cook's Lake in the Township of Schreiber in the District of Thunder Bay, Province of Ontario, and by means of a water pipe connected therewith conveys water from the said lake to its water tank, shops and dwellings in the Village of Schreiber for the purpose of its railway.

And whereas the Company has heretofore permitted the inhabitants of the said Village to draw water for domestic and fire protection purposes from water taps and hydrants attached by the Company to the said water pipe and extensions thereof.

And whereas the Company is about to reconstruct the said dam across the said lake.

And whereas for the purpose of ensuring a satisfactory supply of unpolluted water from the said lake it is to the mutual advantage of the parties hereto that the Company acquire control of the lands adjacent to the said lake and that the interests of the parties as between themselves in the said supply of water be agreed upon.

Now, therefore, in consideration of the premises the parties hereto for themselves, their successors and assigns, covenant and agree each with the other as follows, that is to say:

The Company will continue to permit the inhabitants of the Village of Schreiber to draw water as heretofore for domestic and fire protection purposes from the water taps and fire hydrants respectively of the company save from those water taps and fire hydrants located on the lands of the company and the Company will endeavour at all times to have available at the said water taps and fire hydrants a supply of water sufficient for the purpose aforesaid.

The Company will in its reconstruction of the said dam leave therein a water gate ten inches in diameter and will consent at any time hereafter upon the request of the Corporation to the laying by it of a water pipe to the said lake and its connection with the said water gate (said connection to be made on reasonable notice under the supervision of the General Superintendent of the Algoma District of the Company or such officer of the Company as he may appoint at the costs and expenses of the Corporation), and will, if the Corporation so desires at any time hereafter consent to the raising of the crest of the dam in manner satisfactory to the Company at the expense of the Corporation, to a height of not more than five feet above the level to which it is now being constructed, in order that the Corporation may obtain its own supply of water from the said lake.

The Corporation grants to the Company forever the right to retain in their present locations the pipes, water taps and fire hydrants now laid or located on the highways, streets or lanes of the Corporation, to extend or alter the locations of its said pipes and to establish or locate further taps or fire hydrants along or on such highways, streets or lanes of the Corporation as it shall deem advisable and to enter by its contractors and its or other agents, servants and employees upon the said highways, streets and lanes to excavate for the extension, laying, altering or repairing of, or doing any other work in connection with the said pipes, water taps or fire hydrants, provided, however, that the Company, its contractors

and its and their agents, servants and employees in doing such excavating, extending, laying, altering, repairing or other work shall do no unnecessary damage to the said highways, streets or lands or properties adjacent thereto.

The Corporation will not permit its officers, agents, servants or employees to interfere directly or indirectly with the water pipes, taps or hydrants of the Company, save as may be necessary by the means provided by the Company to draw water from the said water taps and hydrants for the purposes aforesaid and the said water pipes, taps and hydrants shall at all times be and remain the property of the Company.

It is understood and agreed that nothing herein contained shall be deemed a covenant or undertaking by the company to furnish an uninterrupted or any supply of water to the said taps or hydrants and that if at any time hereafter the supply of water shall for any cause whatsoever become insufficient for the needs both of the Company and the Corporation the Company shall have the right, if it deem it advisable, to restrict or discontinue the supply of water to the Corporation, but it shall endeavour with all reasonable speed to restore the same.

The Corporation hereby consents to the granting by the Crown to the Company of such patents, licenses of occupation and licenses to use the water at Cook's Lake as are not inconsistent with the terms of this agreement.

The Corporation covenants and agrees that, if it lays a pipe line to obtain its own water supply from the said lake as hereinbefore mentioned and as long as the Company maintains its own water supply system, the Corporation will relieve the Company of all liability for contribution towards the cost of the said pipe line or any part thereof and of all works connected therewith and will exempt the Company from all water taxes that might otherwise be charged against it or levied upon its property, the intention being that the Company shall be at no expense whatever arising directly or indirectly out of the establishment by the Corporation of the means of obtaining its own water supply; provided, however, and it is hereby agreed that upon the Corporation having laid its said pipe to the said lake and connected it to the said water gate the Company may if it so desires take up and remove from the highways, streets and lanes of the Corporation, its water pipes, taps and hydrants or any of them and discontinue the said supply of water at them or any of them, in which event the Corporation shall have the right to acquire the dam above referred to at such price as may be agreed upon, or in default of agreement fixed by arbitration under the provisions of *The Arbitration Act*, and the Corporation will through its system furnish the Company with a supply of water adequate for all its requirements free of charge until the price of the said dam shall have been paid to the Company, and thereafter at such rates as shall in default of agreement between the parties hereto be fixed by the Ontario Railway and Municipal Board.

The parties hereto agree that they will join with each other in securing any legislation that may be necessary to ratify and confirm this agreement.

An Act to authorize the Law Society of Upper Canada to admit Donald John Livingston as a student-at-law.

WHEREAS Donald John Livingston, of the Town of ^{Preamble.} Forest, in the County of Lambton, has, by his petition, set forth that he was duly articulated as a student-at-law to a practicing solicitor in Ontario on the twenty-sixth day of September, A.D. 1921, and that he has served under such articles up till the date of his petition, and during the period mentioned has performed all the duties required of a law student whose articles had been properly filed as from said date and that on the twenty-sixth day of September, A.D. 1921, he had obtained the necessary certificate of qualification to enable him to enter upon the profession of law, but by error, instead of the articles having been then forwarded to be filed with the said society, such articles, together with a cheque for his entrance fee and the certificate of his having passed the necessary examinations in order to be admitted as a student-at-law, were placed in the safe and the error was not discovered until shortly before the first day of September, A.D. 1923, whereupon he then filed his articles and made a special application to the Benchers of the said society and was allowed to attend the lectures in connection with the Law School at Osgoode Hall during the present fall and winter months, but on account of the rules of the said society, it was found that the articles could not be filed as of the date they were entered into; and whereas the said Donald John Livingston has prayed that an Act may be passed to enable the Law Society of Upper Canada to admit him as a five-year student as of the date of the twenty-sixth day of September, A.D. 1921, and to attend the law lectures in connection with the Law School and write upon the examinations in connection with his intended profession as if his articles had been filed on that date; and whereas it is expedient to grant the prayer of the said petition;

Therefore, His Majesty by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. It shall and may be lawful for the Law Society of ^{Admission as student-} Upper Canada at any time hereafter to admit the said Donald ^{at-law.}

John Livingston as a five-year student-at-law as of the twenty-sixth day of September, A.D. 1921, and to permit the said Donald John Livingston to attend the Law School lectures and take the examinations at Osgoode Hall as if his articles had been filed on the twenty-sixth day of September, A.D. 1921.

And it is hereby further declared that in case there shall be at any time fewer than three Trustees, the presiding officer or clerk of the Presbytery within whose bounds and under whose jurisdiction the said congregation shall be, shall, with the remaining Trustee or Trustees, be the Trustees under these presents until the full Board is duly appointed, and at any time thereafter the Presbytery may cause notice to be given from the pulpit on two consecutive Sundays requiring the said congregation to proceed with the appointment of new Trustees. BILL

An Act respecting the Union of certain Churches therein named.

WHEREAS a petition has been presented to the Legislative Assembly of this Province as follows: Preamble.

To The Honourable the Legislative Assembly of the Province of Ontario in Parliament assembled:

The petition of the undersigned, The Presbyterian Church in Canada, The Methodist Church and The Congregational Union of Canada humbly sheweth:—

1. That The Presbyterian Church in Canada, The Methodist Church and The Congregational Churches of Canada, hereinafter called “the negotiating churches,” have agreed to unite to form one body or denomination of Christians under the name of “The United Church of Canada” and have adopted a Basis of Union.

2. That it is agreed in the said Basis of Union and provision should be made that all general property of the negotiating churches should be vested in The United Church of Canada and that all property of congregations of the negotiating churches should be held, used and administered for the same congregations as part of The United Church of Canada upon the terms of a Trust Deed to be set out in a schedule to the Act hereinafter mentioned, except property of congregations in which the denominations to which such congregations now belong have no right or interest, in which event such last mentioned property shall be held for such congregations solely for their own benefit.

3. That provision should be made for the retention of their congregational property by such congregations as vote not to concur in the said union and for the exercise within the Province of Ontario of all powers, rights and privileges conferred or intended to be conferred by the Parliament of Canada on any Commission to be established by the said Parliament to determine the equities of such

congregations in the general property of the negotiating churches and in respect of the colleges thereof and for the enforcement within the Province of Ontario of any orders of such commission.

4. That provision should be made in respect of the liabilities of the negotiating churches, their respective boards and committees, and of all congregations thereof entering the union.

5. That provision should be made for the relation to be sustained to The United Church of Canada by the colleges connected with the negotiating churches and as to the religious teaching therein.

6. That provision should be made as to the continuance with respect to The United Church of Canada of trusts in connection with the negotiating churches.

7. That The United Church of Canada should have power to establish boards and committees, or other bodies, as bodies corporate or otherwise, for its purposes; to acquire, sell and dispose of property; to issue debentures and to exercise within the Province of Ontario the powers to be conferred upon The United Church of Canada and its boards, committees or other bodies by any Act of the Parliament of Canada.

8. That provision should be made:—

- (a) for the cancellation of certificates of title standing in the names of individuals in trust for any congregation and the issue of new certificates of title in the names of the trustees of such congregations to be held for the benefit of such congregations as a part of The United Church of Canada, upon the terms of a Trust Deed to be set out in a schedule to the Act hereinafter mentioned;
- (b) for validating all deeds and other assurances purporting to be signed by trustees of congregations;
- (c) for dispensing with the entering and registration in full of the trusts set out in the said Trust Deed;
- (d) that no statute of mortmain in force in the Province of Ontario should limit or affect the powers of The United Church of Canada to acquire real or personal property by gift, devise or bequest.

9. That provision should be made for validating within the Province of Ontario all acts of the General Council of The United Church of Canada at its first meeting, or any adjournment thereof, and as to the proceedings of the said General Council and proof thereof.

10. That provision should be made for interim exercise of the functions and powers of all courts, corporations, boards, committees and other bodies of the negotiating churches.

11. That the Basis of Union should be ratified and confirmed and that all things should be done to carry into effect the provisions thereof and that all legislation not consistent therewith and with the Act hereinafter mentioned should be repealed.

12. That provision should be made that the provisions of any Act of the Parliament of Canada relating to The United Church of Canada shall have full force and effect with respect to any property or civil right within the Province of Ontario.

13. That provision should be made as to when the Act hereinafter mentioned shall become operative.

Wherefore your petitioners humbly pray that your Honourable House may be pleased to pass an Act for the purposes above mentioned.

And as in duty bound your petitioners will ever pray.

PROVINCE OF ONTARIO

MEMORANDUM

BILL No. 19.

THE UNITED CHURCH OF CANADA ACT, 1924.

On the 9th of April, 1924, the Chairman of the Private Bills Committee laid upon the table, for the consideration of the Committee, copies of this Bill reprinted as amended by the law clerk pursuant to resolution of the Committee dated 1st April, 1924.

The Chairman at the same time referred to a suggested alternative proposal which would accomplish the general purpose of uniting the Methodist and Congregational Churches on the principles set out in the original Bill and leave to the Presbyterian Church the right of the individual congregations to decide within six months whether to enter the Union, failing such a decision to remain constituted as at present.

The alternative proposals are as follows:

Substitute for clauses *cc* and *ccc* of section 2 of the reprinted Bill the following:

- (*cc*) "Concurring Congregation" where it is a congregation of the Presbyterian Church in Canada means a congregation which decides in the manner and within the six months provided for by section 8 to concur in the Union and become part of The United Church, and where it is a congregation of either of the other negotiating churches means a congregation which does not in the manner and within the six months provided for by section 8 decide not to concur in the Union or become part of The United Church.

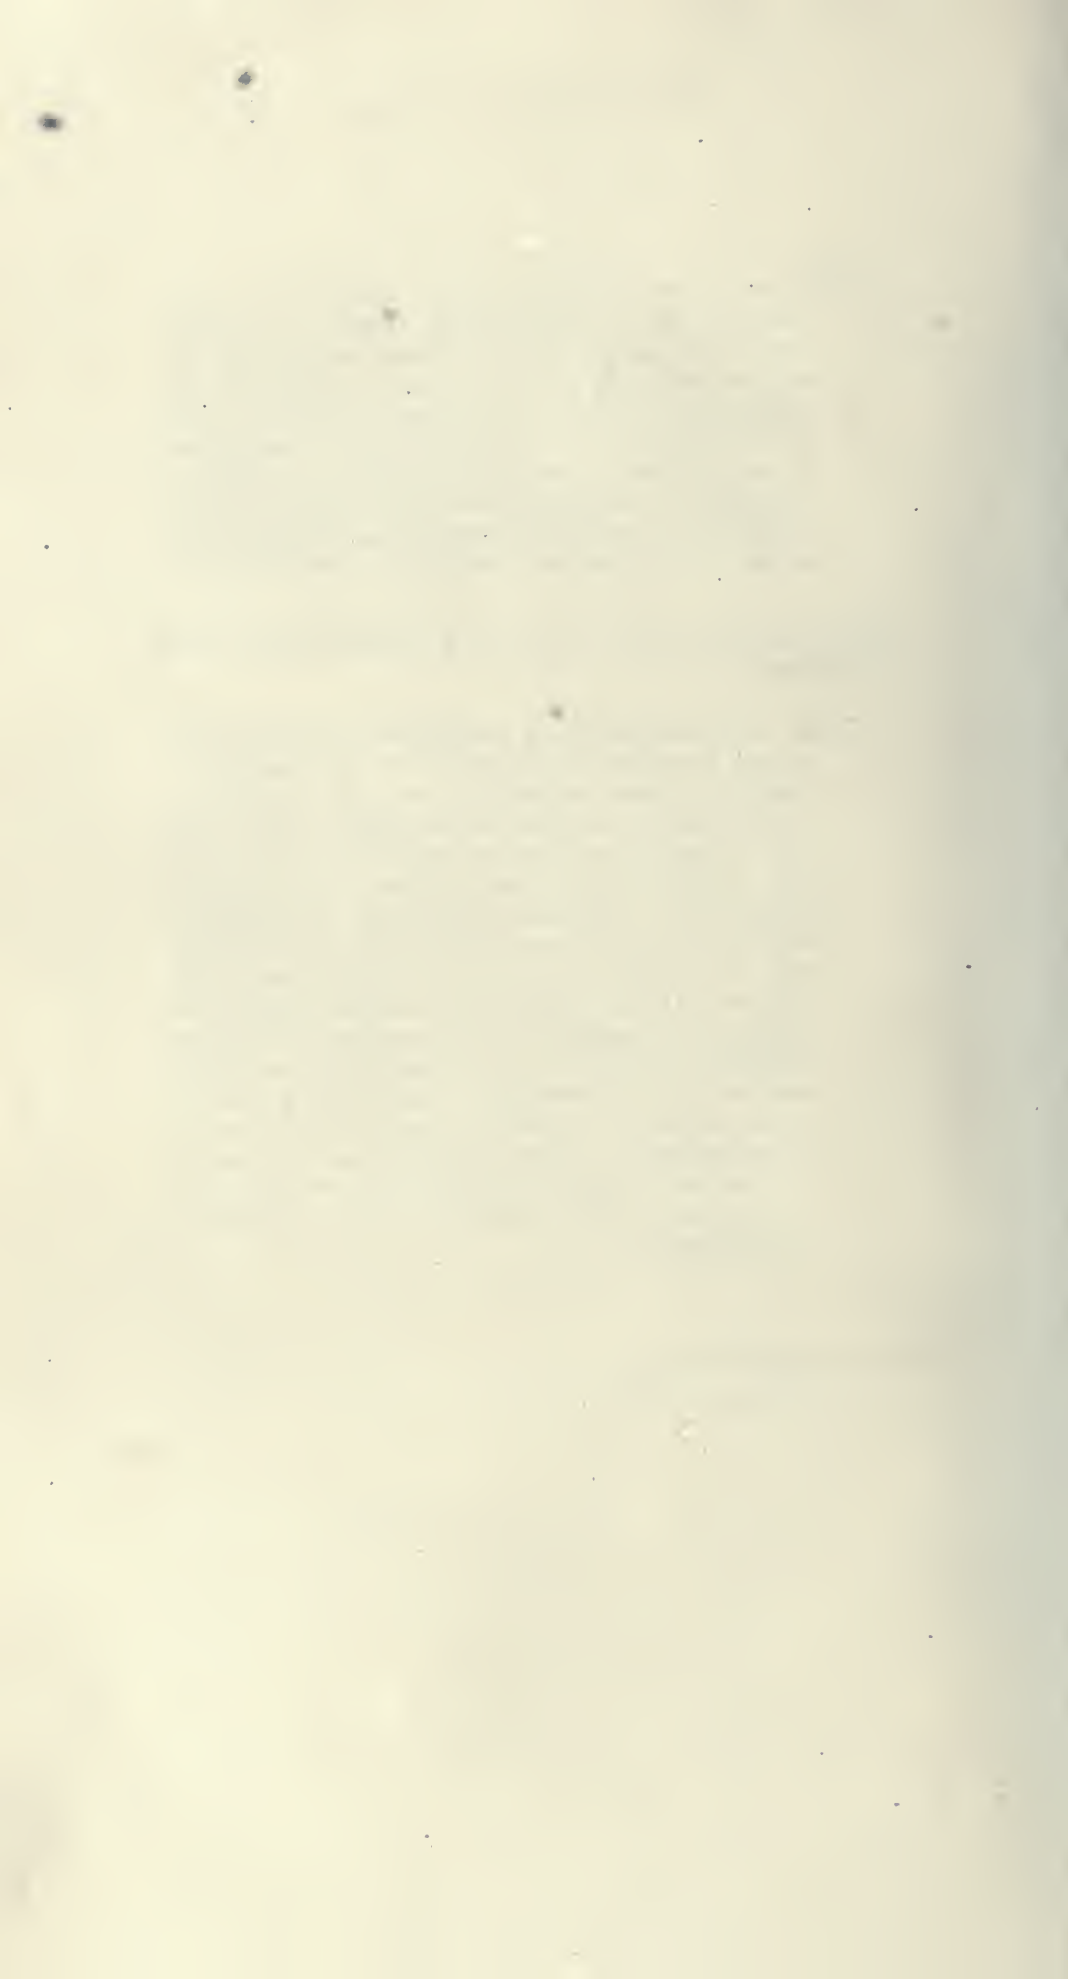

(ccc) "Non-concurring Congregation" where it is a congregation of the Presbyterian Church in Canada means a congregation which does not decide in the manner and within the six months provided for by section 8 to concur in the Union and become part of The United Church and where it is a congregation of either of the other negotiating churches means a congregation which decides in the manner and within the six months provided for by section 8 not to concur in the Union or become part of The United Church.

Substitute for clause *a* of section 8 of the reprinted Bill the following:

8.—(a) The non-concurring congregations of the negotiating churches shall respectively be deemed to continue to exist as and to constitute the Presbyterian Church in Canada, the Methodist Church, and the Congregational Churches of Canada, as the case may be, for all purposes to which the legislative jurisdiction of this Province extends, including the same rights and powers with respect to property real and personal, as were heretofore had and enjoyed in Ontario by the said churches respectively, and every congregation of the negotiating churches shall have the right, at a meeting of the congregation held within six months after the coming into force of this section, to decide by a majority of votes of the persons present at such meeting and entitled to vote thereat whether it shall concur in the Union and become a part of The United Church or remain as theretofore.

Be it therefore enacted by the Council of the Corporation of the City of Kingston as follows:

1. It shall be lawful for the Mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to lend the same on the credit of the Corporation by the issue of the debentures hereinafter mentioned, the sum of \$12,000, and to cause the same to be paid into the hands of the Treasurer for the purpose of this by-law, and therewith to purchase the said lands.

2. It shall be lawful for the said Mayor to cause any number of debentures to be made for such sums of money as may be required, not less than \$100 each and not exceeding the whole sum of \$12,000, and the said debentures shall be sealed with the seal of the said Corporation and signed by the Mayor and countersigned by the said Treasurer thereof, and shall be used to raise the sum of \$12,000 by the way of loan as aforesaid for the purpose aforesaid.

3. The said debentures shall be dated first of January, 1924, and shall be payable on the first day of January, 1944, at the office of the Treasurer of the said City of Kingston, in the said city.

4. The said debentures shall bear interest at the rate of five per cent. per annum, payable half-yearly on the first days of the months of January and July in each year at the office of the said Treasurer, in the said City of Kingston, and the said debentures shall have interest coupons attached to them, which coupons shall be signed by the said Treasurer.

5. There shall be raised annually during the currency of the said debentures the sum of \$600 for the payment of the interest thereon, and the sum of \$403 to form a sinking fund for the payment of the said debt, the said sum making together the annual amount of \$1,003 to be raised, levied and collected in each year during the period of twenty years by an annual special rate sufficient therefor.

This by-law shall come in force and take effect on its passing, subject to its being assented to by the electors.

G. L. SMILING,
Secretary-Treasurer, The Ottawa Electric Railway Co.

Agreement dated the 25th day of January, A.D. 1924.

Between:

THE CORPORATION OF THE CITY OF OTTAWA, hereinafter called the "City,"

Of the First Part,

And:

THE OTTAWA ELECTRIC RAILWAY COMPANY, hereinafter called the "Company,"

Of the Second Part.

Witnesseth that the parties hereto have agreed as follows:—

1. In this Agreement, unless the context shall otherwise require, the words:

(a) "Board" or "Board of Railway Commissioners" shall mean and include the Board of Railway Commissioners for Canada, and any other body subject to Federal jurisdiction that may at any time hereafter have either in whole or in part the powers of such board.

(b) "Five year period" shall mean each successive period of five years reckoned from and after August 13th, 1923.

(c) "School child" shall mean a child certified in writing to the Company to be under the age of fourteen years by a teacher in a public, or a separate school, or in a collegiate institute, or in such private schools as may be recognized by the Company and to be in attendance at such school.

(d) "Transportation system" shall mean any system for the operation of electric cars, either on metal tracks or without tracks, or for the opera-

tion of motor busses by gasoline, electricity or other power, except the force of animals, and any system for the operation of vehicles for the carriage of passengers, but shall not include vehicles chartered for special trips, such as cabs and taxi-cabs.

(e) "Track" shall have the meaning defined by clause 52 of the Agreement dated June 28th, 1893.

2. All written agreements, by-laws and statutes governing the relations between the parties hereto, and the powers of the Company, in so far as they are in force and effect on January 1st, 1924, shall remain in full force and effect, except in so far as they are, or may become, inconsistent with or altered by, or under, the terms of this agreement.

3. (a) The Company shall build all those certain track extensions and new lines of street railway (referred to on pages 28 to 33 inclusive of the printed report of R. M. Feustel, dated September, 1922, annexed hereto as Schedule "B") described in Schedule "A" hereto, in accordance with the terms of said Schedule "A".

(b) The Company will also carry out in the years specified in such report the recommendations contained therein as to matters other than track extensions and additions, which recommendations are contained in Schedule "B" hereto.

(c) Whenever and so often as the City shall, during any five year period, propose that the Company shall extend the lines of its transportation system, the City shall notify the Company not later than eighteen (18) months before the expiration of the current five year period of such desire, and upon failure of the parties to agree within two (2) months after such notice, the question whether such work shall be done shall be forthwith submitted to a Board of three (3) arbitrators for arbitration, under The Arbitration Act (Ontario) as it now stands. The award of any such Board of Arbitration shall be null and void, unless it is made at least one year before the expiration of the said current five year period, notwithstanding the provisions of any Act to the contrary.

(d) The Company shall not be obliged to make any extensions, or to add to its equipment, after receiving notice from the City of its intention to purchase under the agreement dated June 28th, 1893, now in force between the parties.

(e) In the event of the Company being prevented by the act of God, strikes, the King's enemies or other like cause beyond its control, from completing any of the works which under this agreement the Company undertakes to construct, or which it may hereafter agree or be directed to construct within such respective periods of time as are now or may hereafter be fixed for such purpose, the Company will provide during such delay, other suitable means of transportation for the district to be served by such proposed additional or extended lines.

4. (a) Five cents for adults and for children over 51 inches in height; three cents for children under 51 inches in height; and twenty trips for fifty cents for school children (which last mentioned tickets shall be good only between the hours of 7 a.m. and 5 p.m.), shall be the fares for the transportation of passengers from one point to another on the Company's transportation system, within the areas hereinafter in this clause described, except between the hours of twelve o'clock midnight and six a.m. during which time not more than ten cents shall be the fare for all passengers.

(b) Notwithstanding any provision of the Railway Act (Canada) 1919, or of any subsequent Act amending the same, or of any order-in-council made thereunder, the above fares shall not be altered until the 13th day of August, 1928, and then only if such alteration is permitted in accordance with clause 9 hereof and only while such alteration remains in force.

(c) The fares specified in sub-clause (a) of this clause shall be in force (1) on the Company's transportation system now or hereafter constructed

or operated within the present limits of the City and (2) on that part of the Company's existing lines outside the limits of the City that runs to Cloverdale Avenue in Rockcliffe Park, and (3) upon such lines as are now or as may hereafter be constructed into the Central Experimental Farm, and (4) on the present lines of the Company in the Province of Quebec and as far as, but not including, Main Street in the City of Hull.

5. During the term of this agreement and of the said agreement of June 28th, 1893, and of any extensions or renewals thereof, the City shall grant the Company exemption from taxation and all other municipal rates on its franchises, tracks, rolling stock and other personal property used in and about the working of the transportation system, also on the income of the Company from the working of the said transportation system. But this shall not apply to the real estate of the Company. This exemption shall apply to the tax known as Business Tax, it being the intention of the parties hereto that the Company shall under this supplementary agreement have the same exemption from taxation as it had during the first thirty years of the agreement of June 28th, 1893.

6. Regulation 11 of the schedule attached to the agreement dated June 28th, 1893, is hereby cancelled and declared to be no longer binding upon the Company. The Company may own and operate within the territory and on the lines referred to in sub-clause (c) of clause 4 hereof, such number of cars operated by one employee, as shall not exceed forty per cent. of the number of cars in operation on such part of the Company's transportation system from time to time. The introduction or the use of such cars upon the said system shall not cause any employee of the Company to lose his position or seniority with the Company. Employees operating such cars shall be paid at the rate of five cents per hour in excess of the wage rate current for motormen and conductors of like seniority from time to time.

7. The Company may operate its transportation system on Sundays within the limits of the City, as such limits may be from time to time, and the fares payable on Sundays shall be the same as those from time to time payable on week-days.

8. (a) The Company shall have and may exercise, during the term of this agreement, and of the said agreement of June 28th, 1893, and of any extension or renewal thereof, an exclusive franchise to construct, complete, maintain and operate within the limits of the City, as such limits may be from time to time, a transportation system, on the Company's present lines and any extensions or additions thereto, it being the intention of the parties hereto that the Company shall not be subject to competition in its business of transporting passengers whether such competition be in the nature of motor busses or otherwise.

(b) The City will not oppose applications by the Company for privileges to be exercised beyond the limits of the City as such limits may be from time to time.

(c) The Company will not object to the operation, within the limits of the City, as such limits may be from time to time, of motor busses running between any point within one-quarter mile of the City Hall and towns and villages whether incorporated or unincorporated outside the said limits, but no such motor buss shall convey passengers from one point within the said City limits to another point therein.

(d) The City shall pass such by-laws as the Company may request and as it lawfully may, to enable the Company to enforce the provisions of sub-clauses (a) and (c) of this clause, but the City shall not be obliged to enforce such provisions.

(e) Notwithstanding anything contained in this clause, during any and all times that the Company is prevented from regularly operating its lines for more than one day, the City may authorize the operation during such time of motor busses or other vehicles as public carriers.

(f) Nothing herein shall affect the right which any railway or other company may have, on January 1st, 1924, to operate a steam or an electric

railway wholly or in part within the City limits and to carry passengers or freight, but, except in the case of a steam railway, the City shall not renew or extend any such right upon its expiration.

(g) The franchise or right given by sub-clause (a) of this clause shall include the right to construct, maintain and operate such equipment and other things as are, or may become, usual or necessary in connection with a transportation system; subject, however, to the provisions of any by-law of the City now or hereafter passed respecting the zoning or the location of buildings.

9. (a) Should the Company consider that the revenue to be derived from the operation of the part of its transportation system within the City limits, as they may be from time to time, and from the other lines mentioned in sub-clause (c) of clause 4 hereof (hereinafter in this clause called "the said part") will be insufficient to provide during the five year period next succeeding the five year period then current, for the following items, viz., the cost of operating the said part and such portion of the cost of operating works in connection with the Company's transportation system as is properly chargeable to the said part, and of maintaining and keeping up the same in an efficient condition and of making proper provision for their depreciation, renewal and replacement, and for a just and reasonable return to the Company on the capital investment in the said part and on such portion of the capital investment in the said works as is properly chargeable to the said part, as such capital investments may be from time to time, the Company may notify the City in writing not later than one year before the end of any five year period, that it cannot profitably continue, after such period, the tariff of fares then in effect on the said part, and shall submit therewith a tariff of fares, and the tariff of fares to be effective during the next five year period shall thereupon be open for discussion between the parties hereto.

(b) Should no satisfactory adjustment be effected within one month after such notification, the Company may, at any time thereafter, apply to the Board of Railway Commissioners for authority to charge such an increased tariff of fares on the said part of the said system, during the next five year period as will produce a sum sufficient to provide in such period for the said items.

(c) Should the revenue to be derived from the operation of the said part appear likely to be more than sufficient, in the opinion of the City expressed by resolution, to provide during the five year period next succeeding the five year period then current, for the said items, then the City may notify the Company in writing, one year before the end of any five year period, that it considers the fares excessive, and if no satisfactory adjustment of the matter is made within one month after such notification, the City may apply to the Board for such a decrease in fares upon the said part during the next five year period as will allow a revenue not more than sufficient to provide for the said items.

(d) Whenever notice has been served by the Company or by the Corporation under clause 9 of this agreement, any accountant or engineer instructed by the Corporation by resolution shall have full right of access to the books, records, documents, vouchers and balance sheets of the Company, and shall have full right to examine the same, and to take extracts therefrom.

(e) The parties hereto shall accept the judgment or order of the Board made on any application under this clause, as final and binding, and shall not appeal therefrom.

(f) In the event of the Company making an application under this clause, and the City thereafter serving notice upon the Company of its intention to purchase the Company's property, as provided by clause 4 (b) of the agreement dated June 28th, 1893, it shall be a sufficient compliance with the last mentioned clause if the City shall give the Company six months' notice of such intention.

10. Clause 49 of the said agreement dated June 28th, 1893, is hereby cancelled and declared to be no longer binding on the Company.

11. In the event of it becoming necessary to build or rebuild, strengthen or extend any bridge, viaduct or subway, in order that any of the lines of railway, which the Company by this agreement undertakes, or may be required, to construct and operate, shall be constructed and operated under or over the same, if the parties hereto cannot agree as to the proportions in which the cost of building, rebuilding or extending such bridge, viaduct or subway shall be borne between the City and the Company, or as between the City and the Company and any other Company liable to contribute thereto, either party may apply to the Board for an order fixing and apportioning such cost, and the Company will pay such proportion of such cost as may be determined by such Board. The part of such works which the Company is ordered to pay for or to maintain shall be deemed to be a work in connection with the Company's system.

12. If the Corporation shall lay down or relay any pavement upon any street or part of street within such period of time as shall elapse, in any case, between the time when the City shall have first proposed or agreed to an extension of the tracks of the Company upon such street or part of a street, and the expiration of the period of time within which the Company has agreed to lay down the same, and if the laying or relaying of such pavement shall have the effect of increasing the cost which the Company would otherwise be put to in laying down its tracks and works thereon, such increase in the cost thereof shall be borne by the Corporation.

13. The parties hereto agree to join in applying to the Parliament of the Dominion of Canada and to the Legislature of the Province of Ontario for legislation confirming and ratifying this agreement, and declaring the same to be valid, legal and binding upon the parties hereto (the expense of such legislation to be borne by the Company).

14. If any permission, approval, confirmation or other thing necessary in order to make effective and valid the powers granted to the Company by this agreement shall not be obtained by the City, then this Agreement shall not be binding, and the parties shall be restored to their rights and legal positions as they existed immediately prior to the execution of this agreement, without having any claim for damages arising out of the failure to obtain such thing.

15. The Company may at the request of the City, to be expressed by by-law, substitute other streets or parts thereof for the purpose of reaching the objective points of the extensions referred to in Schedule "A".

16. Any Board of Arbitration appointed under clause 4 of the said agreement dated June 28th, 1893, shall consist of three arbitrators, and the constitution and procedure of such Board of Arbitrators shall be governed by The Arbitration Act (Ontario) as it now stands.

17. This agreement and all the terms and conditions of the said agreement of June 28th, 1893, not inconsistent herewith, or altered hereby, shall be binding upon the City and upon the Company, its successors and assigns, and upon any Company which may be now or shall hereafter operate the transportation system or any part or parts of the said system, authorized by either of the said agreements.

In witness whereof the parties hereto have hereunto affixed their seals attested to by their respective proper officers in that behalf.

SCHEDULE "B".

To an agreement made between the Corporation of the City of Ottawa and the Ottawa Electric Railway Company, and dated the 25th day of January, 1924.

OTTAWA ELECTRIC RAILWAY COMPANY.

PROPOSED TRACK AND SERVICE EXTENSIONS.

At the close of the year 1893, the Ottawa Electric Railway system consisted of slightly more than 26 miles; this mileage may therefore be considered as the length of the original electric railway. From 1894 to 1913 inclusive, a period of twenty years, the net additions and extensions to the system amounted to a little more than 30 miles, averaging one and one-half miles per year. Owing to the world war, and since that time to the imminent expiration of the franchise, the total extensions since 1913 have amounted to only one mile.

Had normal conditions existed and extensions progressed at the rate of one and one-half miles per year, the system in 1922 would have amounted to 70 miles instead of approximately 58 miles as of to-day. In other words, the system is 12 miles behind its past programme of growth.

While the growth of the system has been retarded the population of the city has continued to increase, resulting in an increase in revenue passengers per year per mile of track from 423,300 in 1913 to 656,700 in 1921. The effect of this increase is an unusual congestion of cars in the centre of the city, especially on Sparks and Bank Streets, during the rush hours. This congestion so delays the service on all lines as to materially affect the travel of nearly all patrons of the system.

Steps should be taken so that the system may gradually catch up on its normal programme of growth, building additions and extensions, over say a five-year period, at a rate which will bring the system mileage to approximately what it would have been under normal and uninterrupted growth.

A study has been made of the city and its suburbs to determine the needs for extensions. This study indicates that there should be built, during the next five years, approximately 18 miles of new lines and that about one mile of the present system should be abandoned and removed, making a net addition of 17 miles. The system total would thus become, say in 1927, 75 miles, or approximately 3 miles less than it would be if the average growth shown for 20 years prior to 1914 had continued to and including 1927.

In order to keep from overburdening the electric railway company in the matter of these extensions, they have been divided into five groups; one group to be built each year. The problem of determining what extension shall be built first is more or less simplified if the needs of the greatest number of patrons is given greatest weight.

EXTENSIONS DURING FIRST YEAR.

The first extension to be built should be a double track on Laurier Avenue from Nicholas Street to Elgin Street, and the connection of the westbound track on Queen Street with the northbound track on Elgin Street. This construction will permit more nearly equal division of east and west traffic between Sparks and Queen Streets and thus very materially reduce congestion in the centre of the town.

In order to build a double track on Laurier Avenue as mentioned, it will be necessary for the city to consider Laurier Avenue between Elgin Street and the approach of the bridge over the canal, making the street the same width from curb to curb, as at present on the bridge. This can best be done on the north side of the avenue, thus keeping the curbs in line with those on the bridge. This work will not necessitate the purchase of any property.

Under conditions existing in 1922, it is possible to operate cars on Queen Street, between Bank and Elgin Streets, eastbound only, so that Queen Street carries only about 22 per cent. of the normal service and 23 per cent. of the rush-hour service while Sparks Street must handle all westbound cars and is therefore very badly congested. The construction of the Laurier Avenue extension and connection of westbound track on Queen Street will permit Queen Street to carry 44 per cent. of both normal rush-hour service, effecting a very material relief to Sparks Street.

The second extension should be double track on Elgin Street from Argyle Avenue south, then east over the canal to Main Street and south to Clegg Street with a single-track loop on Clegg Street, Glenora Avenue and Herridge Street. This extension will care for some 3,000 people living in what is known as Ottawa East.

The third should be double track on Bronson Avenue from Gladstone Avenue south to Findlay Street and a single-track loop on Findlay, Muriel and Centre Streets. To build this loop it will be necessary for the city to open Muriel Street through from Centre Street to Findlay Street. It is recommended that the present grade crossing on Bronson Avenue with the railroad tracks be used until such time as the city decides to build a viaduct.

The present tracks on Gladstone and Bell Streets from Bronson Avenue to the end of the line at Powell Avenue should be removed. The wooden bridge over the railroad tracks will soon need rebuilding for, as it exists to-day, it is inadequate for the purpose and of an expensive type of bridge to maintain. The present patrons of the Bell Street line may be well served by the Bronson Avenue line and especially so if the city cuts through Flora Street from Bronson Avenue to Bell Street and Dolly Varden from Bell to Bronson Avenue. The opening of these streets is quite necessary for the proper expansion of the city, regardless of street car service.

To complete the construction for the first year of the proposed programme, a single track should be built on Cobourg Street from the carhouse north to connect with the present track on Cobourg Street at Murray Street. This short connection will materially increase the flexibility of the operation of the north-eastern portion of the system.

The construction recommended for the first year is about 4.5 miles or a net addition of about 4 miles of track at an estimated cost of \$174,380.

The company has been operating 113 cars in the evening rush period during the summer months of 1922. To continue operating the same number of cars during the winter of 1922-1923, will allow only eight cars as reserve equipment—a condition which will practically demand a curtailment of the present service. In order to give proper service at the peak of travel, both now and after the construction proposed for the first year, the company needs 15 additional cars, which will cost approximately \$270,000.

The company is already handicapped by lack of carhouse space and facilities. To properly care for the cars to be purchased under this programme of extensions it will be necessary to build either a new house or a large addition to one of the present carhouses, costing about \$100,000.

The total cost of new track, cars and carhouse will be \$544,380.

Relief of congestion in the central district by the construction of Laurier Avenue extension will entail a slight rerouting of cars. The same will be true, to a minor degree, in each of the following years of this programme; more particularly with regard to extension of suburban lines. The inevitable confusion due to rerouting in a small city where patrons are accustomed to a programme of service unchanged for many years, may be materially lessened by use of illuminated signs on the front and sides of all cars. New cars should be purchased equipped with these signs and steps taken to equip all old cars, particularly those to be used on lines which are being in any way changed as to route.

EXTENSIONS DURING SECOND YEAR.

At the present time Bank Street, between Albert and Queen Streets, has the greatest amount of street car traffic of any street in the city. The proposed programme aims to relieve this in the second year of construction, by building double track on Queen Street between Bank and Lyon Streets and on Lyon Street from Queen Street to Gladstone Avenue, and operating all Bronson Avenue-Elgin Street cars on these new tracks. Special work should be installed on this extension at the intersection of Lyon and Somerset Streets so that some of the rush-hour service from Somerset Street may be diverted north on Lyon Street, thus making further relief to Bank Street during the rush-hour period.

This extension, and that on Laurier Avenue, will effect a marked improvement in the service through the central district of the city.

The sections known as Lindenlea and Eastview should be the next to receive car service. Extensions into these districts will also serve both Beechwood and Notre Dame cemeteries, and while travel to cemeteries is more or less confined to Sundays and holidays—and that during summer months—and would show little or no profit, it must be considered as a service which in some degree is due certain of those patrons who use other lines six days of the week. It is not intended that these two extensions should be built to the gates of the cemeteries, but by serving the population in these districts the lines will pass to within very short walking distances of the cemeteries.

The line into Eastview is of course outside the city limits and outside the franchise power of the City of Ottawa, but Eastview is practically a suburb of Ottawa and has a population of nearly 6,000. It is believed that a double-track extension from the corner of Charlotte and Rideau Streets over Cummings' Bridge and east on Montreal Road to a point near the junction of Main Street and Montreal Road, will be a profitable investment for the railway company. In fact it seems so evident that the company will desire to build this extension, that it has been included for the purpose of this study, in the second year of construction.

The line to Lindenlea is recommended as double track from the junction of Beechwood Avenue and Crichton Street northeast on Beechwood Avenue to Springfield Road. From this point, owing to the narrowness of the streets, it is recommended that single tracks be built on Beechwood Avenue, Butternut Terrace, Maple Lane and Springfield Road, back to join the double track on Beechwood Avenue. With this construction a very satisfactory service may be rendered by operating in one direction around this Lindenlea loop; the direction to be that indicated by the order in which the streets are named above, in other words, north on Butternut Terrace and south on Springfield Road.

The construction just outlined for the second year amounts to approximately 6 miles and would cost about \$217,710. In addition to the track construction there will be needed about ten additional passenger cars, one large double-truck snow sweeper and a snow plow. This rolling stock will cost about \$132,000. The increase in service—car miles operated—will also demand additional substation equipment, costing approximately \$20,000. The total capital expenditures for this second year will be \$369,710.

EXTENSIONS DURING THE THIRD YEAR.

The first two years of this construction programme will relieve the congestion in the centre of the city and place extensions into three districts having no service at the present time; districts already well populated yet having room for large growth, will be greatly enhanced by the new lines.

A large municipal hospital is now under construction just north of Carling Avenue and about 1,000 feet west of Fairmont Avenue. Undoubtedly the City of Ottawa will build a continuation of Ruskin Street from Holland Avenue to Fairmont Avenue as this new street would be about the same distance from the hospital as is Carling Avenue. This continuation of Ruskin Street will not only give another easy means of reaching the new hospital but will open new and desirable territory for the construction of new dwellings.

Fairmont Avenue between Wellington Street and Bethany Road is now well built up, but south of Bethany Road there are comparatively few houses. However, many new ones are under construction and the section is rapidly building up.

It is recommended, as part of the third year construction, to build a double-track line from Wellington Street south on Fairmont Avenue to and across Carling Avenue into the property of the Experimental Farm; thence west on the property of the farm and connect with the present line where it turns south towards the farm buildings. The extension of Ruskin Street should be double tracked from Holland Avenue to Fairmont Avenue, with proper special work at the junction with Fairmont Avenue to permit cars from the Experimental Farm to "we" at this point. At present Fairmont Avenue passes under the tracks of the Grand Trunk Railway; this railway being carried over the avenue on a timber trestle. To make this subway usable for the street cars—in fact, properly serviceable for vehicular traffic—the Grand Trunk Railway tracks should be carried across the avenue on a steel beam bridge.

The present tracks on Holland Avenue from Ruskin Street south and across Carling Avenue and east on the Experimental Farm property to the point where the lines turn south should be removed.

There is still much doubt as to the possibility of removal or elevation of the railroad tracks crossing Wellington Street between Champagne and Breeze Hill avenues, but it is thought possible that this question may be decided before the commencement of the third year of construction on this programme. Assuming this question to have been decided, it is recommended that double track be built on Wellington Street from Preston to Somerset Street.

Service on the extensions to be built during the third year will necessitate the purchase of seven new double-track passenger cars and one double-track snow sweeper. The cost of these cars and the track construction—a little less than four miles of track and a net addition of 3.3 miles—would be approximately \$300,160.

EXTENSIONS DURING THE FOURTH YEAR.

The district south of that commonly known as "Sandy Hill" is the next requiring additional service. A study of this section plainly indicates that there will be little growth south of Templeton Street under present car service. Also there is ample room for development north of Templeton Street. It is believed there will be some material growth before the fourth year of construction is commenced and that there will be a demand for increased service to this section; also, that such service would be profitable and would hasten the development of the section. Therefore, it is recommended, during the fourth year of construction, that a double-track line be built south on Nicolas Street from Laurier Avenue to a point near the south corner of what is known as the "Varsity Oval." This extreme southern corner of the playground is not used and should be purchased for the continuance of Templeton Street, at a slight angle to its present line, from King Edward Avenue to Nicolas Street. Double-track construction should be continued from Nicolas Street upon Templeton Street, thence continued to Marlborough Avenue, at which point cars should be turned on a small loop.

Attention should be called to the grades in the Sandy Hill section. It was only after careful study that the route just outlined was determined upon as containing not only the easiest grades but also the only ones safe for operation, and still provide a route which would properly serve this district.

It is a well-known fact that street railway lines induce the building up of districts which they serve. Bearing this in mind it is believed that during the fourth year of this programme it will be found expedient to extend the line in Ottawa East. While a half mile south on Main Street might reach the limit of the new settlement at this future date, it is recommended that during this construction period a double-track extension be built south on Main Street from Clegg Street to a point near the

Rideau River, then bearing slightly west, continue until it reaches the edge of the present settlement and there building a small single-track loop.

The 2.75 miles of extensions recommended and ten new cars would make the fourth year construction cost approximately \$209,440.

EXTENSIONS DURING FIFTH YEAR.

There is now, and has been for some time past, more or less agitation for removal and relocation of railroad tracks in and about the City of Ottawa. Among these plans is one for a line which would have a passenger station, known as Ottawa South, on the south side of the Rideau River near the Bank Street bridge. Such a station would certainly demand street car service to the centre of the town. Whether this change will be made by the beginning of the fifth year of this programme is considered immaterial for it is believed that the increase in population and business along the southern end of Bank Street and immediately across the river, will warrant a double-track extension on Bank Street from Grove Street, south and across the bridge over the Rideau River. This extension of about one mile and five new cars would cost about \$94,000.

The total cost of new construction, new cars, equipment and carhouse, on this five years' programme, is estimated at \$1,517,690.

Track extensions are shown for each year of this programme upon a map which also shows the distribution of population of the city of Ottawa and municipality of Eastview.

DENSITY OF CAR TRAFFIC.

Car-flow diagrams have been prepared showing graphically the cars per hour in each direction on all streets in the central district of the city during present normal service and present rush-hour service. There are also car-flow diagrams showing both normal and rush-hour service after completion of the proposed programme of construction. A comparison of these diagrams will clearly show that, even with a 17 per cent. increase in service through the central district after completion of the proposed construction, there is much less congestion than under the present method of operation.

OPERATING EXPENSES AND TAXES.

The estimates of operating expenses for each year of this proposed programme of construction were based upon the actual experience of the company—the greatest consideration being given to the total operating expenses and expenses per car mile for the year 1921. However, the employees of the company accepted a reduction of 12 per cent. in wage rates, effective July 1, 1922, which reduction will decrease the operating expenses per car mile since that date.

Fluctuations in labour rates and costs of materials during the next five years will probably be slight, so the costs per mile for 1921, adjusted by the reduction in labour rates, have been used to estimate the operating expenses for each year of this programme.

Taxes have been estimated upon the 1922 basis of taxation—mileage basis for track, valuation for real and personal property, and net income for income tax.

OPERATING REVENUE.

The past history of the company shows a steady increase in the riding habit of the patrons of the company, until in 1921 it reached the point of 336 rides per capita per annum. Past history would, of course, indicate a further steady increase but it is believed that the peak has been reached. Based upon the assumption of 330 rides per capita per annum and the indicated normal growth of the city, the passenger revenue has been

estimated for each year of this programme, allowing for the continuance of the "Limited" and "Sunday" reduced rate ticket.

The increase in population and distribution of density of population is well indicated by the four maps showing graphically the density of population for the years 1890, 1900, 1910, and 1920.

About ten per cent. of the revenue passengers used "Limited" or "Sunday" tickets, the abolition of which tickets would effect an increase in revenue varying from \$70,000 in the first year to \$80,000 in the fifth year.

G. L. SNELLING,
Secretary-Treasurer, The Ottawa Electric Railway Co.

Agreement dated the 25th day of January, A.D. 1924.

Between:

THE CORPORATION OF THE CITY OF OTTAWA, hereinafter called the "City,"

Of the First Part,

And:

THE OTTAWA ELECTRIC RAILWAY COMPANY, hereinafter called the "Company,"

Of the Second Part.

Witnesseth that the parties hereto have agreed as follows:—

1. In this Agreement, unless the context shall otherwise require, the words:

(a) "Board" or "Board of Railway Commissioners" shall mean and include the Board of Railway Commissioners for Canada, and any other body subject to Federal jurisdiction that may at any time hereafter have either in whole or in part the powers of such board.

(b) "Five year period" shall mean each successive period of five years reckoned from and after August 13th, 1923.

(c) "School child" shall mean a child certified in writing to the Company to be under the age of fourteen years by a teacher in a public, or a separate school, or in a collegiate institute, or in such private schools as may be recognized by the Company and to be in attendance at such school.

(d) "Transportation system" shall mean any system for the operation of electric cars, either on metal tracks or without tracks, or for the opera-

tion of motor busses by gasoline, electricity or other power, except the force of animals, and any system for the operation of vehicles for the carriage of passengers, but shall not include vehicles chartered for special trips, such as cabs and taxi-cabs.

(e) "Track" shall have the meaning defined by clause 52 of the Agreement dated June 28th, 1893.

2. All written agreements, by-laws and statutes governing the relations between the parties hereto, and the powers of the Company, in so far as they are in force and effect on January 1st, 1924, shall remain in full force and effect, except in so far as they are, or may become, inconsistent with or altered by, or under, the terms of this agreement.

3. (a) The Company shall build all those certain track extensions and new lines of street railway (referred to on pages 28 to 33 inclusive of the printed report of R. M. Feustel, dated September, 1922, annexed hereto as Schedule "B") described in Schedule "A" hereto, in accordance with the terms of said Schedule "A".

(b) The Company will also carry out in the years specified in such report the recommendations contained therein as to matters other than track extensions and additions, which recommendations are contained in Schedule "B" hereto.

(c) Whenever and so often as the City shall, during any five year period, propose that the Company shall extend the lines of its transportation system, the City shall notify the Company not later than eighteen (18) months before the expiration of the current five year period of such desire, and upon failure of the parties to agree within two (2) months after such notice, the question whether such work shall be done shall be forthwith submitted to a Board of three (3) arbitrators for arbitration, under The Arbitration Act (Ontario) as it now stands. The award of any such Board of Arbitration shall be null and void, unless it is made at least one year before the expiration of the said current five year period, notwithstanding the provisions of any Act to the contrary.

(d) The Company shall not be obliged to make any extensions, or to add to its equipment, after receiving notice from the City of its intention to purchase under the agreement dated June 28th, 1893, now in force between the parties.

(e) In the event of the Company being prevented by the act of God, strikes, the King's enemies or other like cause beyond its control, from completing any of the works which under this agreement the Company undertakes to construct, or which it may hereafter agree or be directed to construct within such respective periods of time as are now or may hereafter be fixed for such purpose, the Company will provide during such delay, other suitable means of transportation for the district to be served by such proposed additional or extended lines.

4. (a) Five cents for adults and for children over 51 inches in height; three cents for children under 51 inches in height; and twenty trips for fifty cents for school children (which last mentioned tickets shall be good only between the hours of 7 a.m. and 5 p.m.), shall be the fares for the transportation of passengers from one point to another on the Company's transportation system, within the areas hereinafter in this clause described, except between the hours of twelve o'clock midnight and six a.m. during which time not more than ten cents shall be the fare for all passengers.

(b) Notwithstanding any provision of the Railway Act (Canada) 1919, or of any subsequent Act amending the same, or of any order-in-council made thereunder, the above fares shall not be altered until the 13th day of August, 1928, and then only if such alteration is permitted in accordance with clause 9 hereof and only while such alteration remains in force.

(c) The fares specified in sub-clause (a) of this clause shall be in force (1) on the Company's transportation system now or hereafter constructed

or operated within the present limits of the City and (2) on that part of the Company's existing lines outside the limits of the City that runs to Cloverdale Avenue in Rockcliffe Park, and (3) upon such lines as are now or as may hereafter be constructed into the Central Experimental Farm, and (4) on the present lines of the Company in the Province of Quebec and as far as, but not including, Main Street in the City of Hull.

5. During the term of this agreement and of the said agreement of June 28th, 1893, and of any extensions or renewals thereof, the City shall grant the Company exemption from taxation and all other municipal rates on its franchises, tracks, rolling stock and other personal property used in and about the working of the transportation system, also on the income of the Company from the working of the said transportation system. But this shall not apply to the real estate of the Company. This exemption shall apply to the tax known as Business Tax, it being the intention of the parties hereto that the Company shall under this supplementary agreement have the same exemption from taxation as it had during the first thirty years of the agreement of June 28th, 1893.

6. Regulation 11 of the schedule attached to the agreement dated June 28th, 1893, is hereby cancelled and declared to be no longer binding upon the Company. The Company may own and operate within the territory and on the lines referred to in sub-clause (c) of clause 4 hereof, such number of cars operated by one employee, as shall not exceed forty per cent. of the number of cars in operation on such part of the Company's transportation system from time to time. The introduction or the use of such cars upon the said system shall not cause any employee of the Company to lose his position or seniority with the Company. Employees operating such cars shall be paid at the rate of five cents per hour in excess of the wage rate current for motormen and conductors of like seniority from time to time.

7. The Company may operate its transportation system on Sundays within the limits of the City, as such limits may be from time to time, and the fares payable on Sundays shall be the same as those from time to time payable on week-days.

8. (a) The Company shall have and may exercise, during the term of this agreement, and of the said agreement of June 28th, 1893, and of any extension or renewal thereof, an exclusive franchise to construct, complete, maintain and operate within the limits of the City, as such limits may be from time to time, a transportation system, on the Company's present lines and any extensions or additions thereto, it being the intention of the parties hereto that the Company shall not be subject to competition in its business of transporting passengers whether such competition be in the nature of motor busses or otherwise.

(b) The City will not oppose applications by the Company for privileges to be exercised beyond the limits of the City as such limits may be from time to time.

(c) The Company will not object to the operation, within the limits of the City, as such limits may be from time to time, of motor busses running between any point within one-quarter mile of the City Hall and towns and villages whether incorporated or unincorporated outside the said limits, but no such motor buss shall convey passengers from one point within the said City limits to another point therein.

(d) The City shall pass such by-laws as the Company may request and as it lawfully may, to enable the Company to enforce the provisions of sub-clauses (a) and (c) of this clause, but the City shall not be obliged to enforce such provisions.

(e) Notwithstanding anything contained in this clause, during any and all times that the Company is prevented from regularly operating its lines for more than one day, the City may authorize the operation during such time of motor busses or other vehicles as public carriers.

(f) Nothing herein shall affect the right which any railway or other company may have, on January 1st, 1924, to operate a steam or an electric

railway wholly or in part within the City limits and to carry passengers or freight, but, except in the case of a steam railway, the City shall not renew or extend any such right upon its expiration.

(g) The franchise or right given by sub-clause (a) of this clause shall include the right to construct, maintain and operate such equipment and other things as are, or may become, usual or necessary in connection with a transportation system; subject, however, to the provisions of any by-law of the City now or hereafter passed respecting the zoning or the location of buildings.

9. (a) Should the Company consider that the revenue to be derived from the operation of the part of its transportation system within the City limits, as they may be from time to time, and from the other lines mentioned in sub-clause (c) of clause 4 hereof (hereinafter in this clause called "the said part") will be insufficient to provide during the five year period next succeeding the five year period then current, for the following items, viz., the cost of operating the said part and such portion of the cost of operating works in connection with the Company's transportation system as is properly chargeable to the said part, and of maintaining and keeping up the same in an efficient condition and of making proper provision for their depreciation, renewal and replacement, and for a just and reasonable return to the Company on the capital investment in the said part and on such portion of the capital investment in the said works as is properly chargeable to the said part, as such capital investments may be from time to time, the Company may notify the City in writing not later than one year before the end of any five year period, that it cannot profitably continue, after such period, the tariff of fares then in effect on the said part, and shall submit therewith a tariff of fares, and the tariff of fares to be effective during the next five year period shall thereupon be open for discussion between the parties hereto.

(b) Should no satisfactory adjustment be effected within one month after such notification, the Company may, at any time thereafter, apply to the Board of Railway Commissioners for authority to charge such an increased tariff of fares on the said part of the said system, during the next five year period as will produce a sum sufficient to provide in such period for the said items.

(c) Should the revenue to be derived from the operation of the said part appear likely to be more than sufficient, in the opinion of the City expressed by resolution, to provide during the five year period next succeeding the five year period then current, for the said items, then the City may notify the Company in writing, one year before the end of any five year period, that it considers the fares excessive, and if no satisfactory adjustment of the matter is made within one month after such notification, the City may apply to the Board for such a decrease in fares upon the said part during the next five year period as will allow a revenue not more than sufficient to provide for the said items.

(d) Whenever notice has been served by the Company or by the Corporation under clause 9 of this agreement, any accountant or engineer instructed by the Corporation by resolution shall have full right of access to the books, records, documents, vouchers and balance sheets of the Company, and shall have full right to examine the same, and to take extracts therefrom.

(e) The parties hereto shall accept the judgment or order of the Board made on any application under this clause, as final and binding, and shall not appeal therefrom.

(f) In the event of the Company making an application under this clause, and the City thereafter serving notice upon the Company of its intention to purchase the Company's property, as provided by clause 4 (b) of the agreement dated June 28th, 1893, it shall be a sufficient compliance with the last mentioned clause if the City shall give the Company six months' notice of such intention.

10. Clause 49 of the said agreement dated June 28th, 1893, is hereby cancelled and declared to be no longer binding on the Company.

11. In the event of it becoming necessary to build or rebuild, strengthen or extend any bridge, viaduct or subway, in order that any of the lines of railway, which the Company by this agreement undertakes, or may be required, to construct and operate, shall be constructed and operated under or over the same, if the parties hereto cannot agree as to the proportions in which the cost of building, rebuilding or extending such bridge, viaduct or subway shall be borne between the City and the Company, or as between the City and the Company and any other Company liable to contribute thereto, either party may apply to the Board for an order fixing and apportioning such cost, and the Company will pay such proportion of such cost as may be determined by such Board. The part of such works which the Company is ordered to pay for or to maintain shall be deemed to be a work in connection with the Company's system.

12. If the Corporation shall lay down or relay any pavement upon any street or part of street within such period of time as shall elapse, in any case, between the time when the City shall have first proposed or agreed to an extension of the tracks of the Company upon such street or part of a street, and the expiration of the period of time within which the Company has agreed to lay down the same, and if the laying or relaying of such pavement shall have the effect of increasing the cost which the Company would otherwise be put to in laying down its tracks and works thereon, such increase in the cost thereof shall be borne by the Corporation.

13. The parties hereto agree to join in applying to the Parliament of the Dominion of Canada and to the Legislature of the Province of Ontario for legislation confirming and ratifying this agreement, and declaring the same to be valid, legal and binding upon the parties hereto (the expense of such legislation to be borne by the Company).

14. If any permission, approval, confirmation or other thing necessary in order to make effective and valid the powers granted to the Company by this agreement shall not be obtained by the City, then this Agreement shall not be binding, and the parties shall be restored to their rights and legal positions as they existed immediately prior to the execution of this agreement, without having any claim for damages arising out of the failure to obtain such thing.

15. The Company may at the request of the City, to be expressed by by-law, substitute other streets or parts thereof for the purpose of reaching the objective points of the extensions referred to in Schedule "A".

16. Any Board of Arbitration appointed under clause 4 of the said agreement dated June 28th, 1893, shall consist of three arbitrators, and the constitution and procedure of such Board of Arbitrators shall be governed by The Arbitration Act (Ontario) as it now stands.

17. This agreement and all the terms and conditions of the said agreement of June 28th, 1893, not inconsistent herewith, or altered hereby, shall be binding upon the City and upon the Company, its successors and assigns, and upon any Company which may be now or shall hereafter operate the transportation system or any part or parts of the said system, authorized by either of the said agreements.

In witness whereof the parties hereto have hereunto affixed their seals attested to by their respective proper officers in that behalf.

OTTAWA ELECTRIC RAILWAY COMPANY.

PROPOSED TRACK AND SERVICE EXTENSIONS.

At the close of the year 1893, the Ottawa Electric Railway system consisted of slightly more than 26 miles; this mileage may therefore be considered as the length of the original electric railway. From 1894 to 1913 inclusive, a period of twenty years, the net additions and extensions to the system amounted to a little more than 30 miles, averaging one and one-half miles per year. Owing to the world war, and since that time to the imminent expiration of the franchise, the total extensions since 1913 have amounted to only one mile.

Had normal conditions existed and extensions progressed at the rate of one and one-half miles per year, the system in 1922 would have amounted to 70 miles instead of approximately 58 miles as of to-day. In other words, the system is 12 miles behind its past programme of growth.

While the growth of the system has been retarded the population of the city has continued to increase, resulting in an increase in revenue passengers per year per mile of track from 423,300 in 1913 to 656,700 in 1921. The effect of this increase is an unusual congestion of cars in the centre of the city, especially on Sparks and Bank Streets, during the rush hours. This congestion so delays the service on all lines as to materially affect the travel of nearly all patrons of the system.

Steps should be taken so that the system may gradually catch up on its normal programme of growth, building additions and extensions, over say a five-year period, at a rate which will bring the system mileage to approximately what it would have been under normal and uninterrupted growth.

A study has been made of the city and its suburbs to determine the needs for extensions. This study indicates that there should be built, during the next five years, approximately 18 miles of new lines and that about one mile of the present system should be abandoned and removed, making a net addition of 17 miles. The system total would thus become, say in 1927, 75 miles, or approximately 3 miles less than it would be if the average growth shown for 20 years prior to 1914 had continued to and including 1927.

In order to keep from overburdening the electric railway company in the matter of these extensions, they have been divided into five groups; one group to be built each year. The problem of determining what extension shall be built first is more or less simplified if the needs of the greatest number of patrons is given greatest weight.

EXTENSIONS DURING FIRST YEAR.

The first extension to be built should be a double track on Laurier Avenue from Nicholas Street to Elgin Street, and the connection of the westbound track on Queen Street with the northbound track on Elgin Street. This construction will permit more nearly equal division of east and west traffic between Sparks and Queen Streets and thus very materially reduce congestion in the centre of the town.

In order to build a double track on Laurier Avenue as mentioned, it will be necessary for the city to consider Laurier Avenue between Elgin Street and the approach of the bridge over the canal, making the street the same width from curb to curb, as at present on the bridge. This can best be done on the north side of the avenue, thus keeping the curbs in line with those on the bridge. This work will not necessitate the purchase of any property.

Under conditions existing in 1922, it is possible to operate cars on Queen Street, between Bank and Elgin Streets, eastbound only, so that Queen Street carries only about 22 per cent. of the normal service and 23 per cent. of the rush-hour service while Sparks Street must handle all westbound cars and is therefore very badly congested. The construction of the Laurier Avenue extension and connection of westbound track on Queen Street will permit Queen Street to carry 44 per cent. of both normal rush-hour service, effecting a very material relief to Sparks Street.

The second extension should be double track on Elgin Street from Argyle Avenue south, then east over the canal to Main Street and south to Clegg Street with a single-track loop on Clegg Street, Glenora Avenue and Herridge Street. This extension will care for some 3,000 people living in what is known as Ottawa East.

The third should be double track on Bronson Avenue from Gladstone Avenue south to Findlay Street and a single-track loop on Findlay, Muriel and Centre Streets. To build this loop it will be necessary for the city to open Muriel Street through from Centre Street to Findlay Street. It is recommended that the present grade crossing on Bronson Avenue with the railroad tracks be used until such time as the city decides to build a viaduct.

The present tracks on Gladstone and Bell Streets from Bronson Avenue to the end of the line at Powell Avenue should be removed. The wooden bridge over the railroad tracks will soon need rebuilding for, as it exists to-day, it is inadequate for the purpose and of an expensive type of bridge to maintain. The present patrons of the Bell Street line may be well served by the Bronson Avenue line and especially so if the city cuts through Flora Street from Bronson Avenue to Bell Street and Dolly Varden from Bell to Bronson Avenue. The opening of these streets is quite necessary for the proper expansion of the city, regardless of street car service.

To complete the construction for the first year of the proposed programme, a single track should be built on Cobourg Street from the carhouse north to connect with the present track on Cobourg Street at Murray Street. This short connection will materially increase the flexibility of the operation of the north-eastern portion of the system.

The construction recommended for the first year is about 4.5 miles or a net addition of about 4 miles of track at an estimated cost of \$174,380.

The company has been operating 113 cars in the evening rush period during the summer months of 1922. To continue operating the same number of cars during the winter of 1922-1923, will allow only eight cars as reserve equipment—a condition which will practically demand a curtailment of the present service. In order to give proper service at the peak of travel, both now and after the construction proposed for the first year, the company needs 15 additional cars, which will cost approximately \$270,000.

The company is already handicapped by lack of carhouse space and facilities. To properly care for the cars to be purchased under this programme of extensions it will be necessary to build either a new house or a large addition to one of the present carhouses, costing about \$100,000.

The total cost of new track, cars and carhouse will be \$544,380.

Relief of congestion in the central district by the construction of Laurier Avenue extension will entail a slight rerouting of cars. The same will be true, to a minor degree, in each of the following years of this programme; more particularly with regard to extension of suburban lines. The inevitable confusion due to rerouting in a small city where patrons are accustomed to a programme of service unchanged for many years, may be materially lessened by use of illuminated signs on the front and sides of all cars. New cars should be purchased equipped with these signs and steps taken to equip all old cars, particularly those to be used on lines which are being in any way changed as to route.

EXTENSIONS DURING SECOND YEAR.

At the present time Bank Street, between Albert and Queen Streets, has the greatest amount of street car traffic of any street in the city. The proposed programme aims to relieve this in the second year of construction, by building double track on Queen Street between Bank and Lyon Streets and on Lyon Street from Queen Street to Gladstone Avenue, and operating all Bronson Avenue-Elgin Street cars on these new tracks. Special work should be installed on this extension at the intersection of Lyon and Somerset Streets so that some of the rush-hour service from Somerset Street may be diverted north on Lyon Street, thus making further relief to Bank Street during the rush-hour period.

This extension, and that on Laurier Avenue, will effect a marked improvement in the service through the central district of the city.

The sections known as Lindenlea and Eastview should be the next to receive car service. Extensions into these districts will also serve both Beechwood and Notre Dame cemeteries, and while travel to cemeteries is more or less confined to Sundays and holidays—and that during summer months—and would show little or no profit, it must be considered as a service which in some degree is due certain of those patrons who use other lines six days of the week. It is not intended that these two extensions should be built to the gates of the cemeteries, but by serving the population in these districts the lines will pass to within very short walking distances of the cemeteries.

The line into Eastview is of course outside the city limits and outside the franchise power of the City of Ottawa, but Eastview is practically a suburb of Ottawa and has a population of nearly 6,000. It is believed that a double-track extension from the corner of Charlotte and Rideau Streets over Cummings' Bridge and east on Montreal Road to a point near the junction of Main Street and Montreal Road, will be a profitable investment for the railway company. In fact it seems so evident that the company will desire to build this extension, that it has been included for the purpose of this study, in the second year of construction.

The line to Lindenlea is recommended as double track from the junction of Beechwood Avenue and Crichton Street northeast on Beechwood Avenue to Springfield Road. From this point, owing to the narrowness of the streets, it is recommended that single tracks be built on Beechwood Avenue, Butternut Terrace, Maple Lane and Springfield Road, back to join the double track on Beechwood Avenue. With this construction a very satisfactory service may be rendered by operating in one direction around this Lindenlea loop; the direction to be that indicated by the order in which the streets are named above, in other words, north on Butternut Terrace and south on Springfield Road.

The construction just outlined for the second year amounts to approximately 6 miles and would cost about \$217,710. In addition to the track construction there will be needed about ten additional passenger cars, one large double-truck snow sweeper and a snow plow. This rolling stock will cost about \$132,000. The increase in service—car miles operated—will also demand additional substation equipment, costing approximately \$20,000. The total capital expenditures for this second year will be \$369,710.

EXTENSIONS DURING THE THIRD YEAR.

The first two years of this construction programme will relieve the congestion in the centre of the city and place extensions into three districts having no service at the present time; districts already well populated yet having room for large growth, will be greatly enhanced by the new lines.

A large municipal hospital is now under construction just north of Carling Avenue and about 1,000 feet west of Fairmont Avenue. Undoubtedly the City of Ottawa will build a continuation of Ruskin Street from Holland Avenue to Fairmont Avenue as this new street would be about the same distance from the hospital as is Carling Avenue. This continuation of Ruskin Street will not only give another easy means of reaching the new hospital but will open new and desirable territory for the construction of new dwellings.

Fairmont Avenue between Wellington Street and Bethany Road is now well built up, but south of Bethany Road there are comparatively few houses. However, many new ones are under construction and the section is rapidly building up.

It is recommended, as part of the third year construction, to build a double-track line from Wellington Street south on Fairmont Avenue to and across Carling Avenue into the property of the Experimental Farm; thence west on the property of the farm and connect with the present line where it turns south towards the farm buildings. The extension of Ruskin Street should be double tracked from Holland Avenue to Fairmont Avenue, with proper special work at the junction with Fairmont Avenue to permit cars from the Experimental Farm to "weye" at this point. At present Fairmont Avenue passes under the tracks of the Grand Trunk Railway; this railway being carried over the avenue on a timber trestle. To make this subway usable for the street cars—in fact, properly serviceable for vehicular traffic—the Grand Trunk Railway tracks should be carried across the avenue on a steel beam bridge.

The present tracks on Holland Avenue from Ruskin Street south and across Carling Avenue and east on the Experimental Farm property to the point where the lines turn south should be removed.

There is still much doubt as to the possibility of removal or elevation of the railroad tracks crossing Wellington Street between Champagne and Breeze Hill avenues, but it is thought possible that this question may be decided before the commencement of the third year of construction on this programme. Assuming this question to have been decided, it is recommended that double track be built on Wellington Street from Preston to Somerset Street.

Service on the extensions to be built during the third year will necessitate the purchase of seven new double-track passenger cars and one double-track snow sweeper. The cost of these cars and the track construction—a little less than four miles of track and a net addition of 3.3 miles—would be approximately \$300,160.

EXTENSIONS DURING THE FOURTH YEAR.

The district south of that commonly known as "Sandy Hill" is the next requiring additional service. A study of this section plainly indicates that there will be little growth south of Templeton Street under present car service. Also there is ample room for development north of Templeton Street. It is believed there will be some material growth before the fourth year of construction is commenced and that there will be a demand for increased service to this section; also, that such service would be profitable and would hasten the development of the section. Therefore, it is recommended, during the fourth year of construction, that a double-track line be built south on Nicolas Street from Laurier Avenue to a point near the south corner of what is known as the "Varsity Oval." This extreme southern corner of the playground is not used and should be purchased for the continuance of Templeton Street, at a slight angle to its present line, from King Edward Avenue to Nicolas Street. Double-track construction should be continued from Nicolas Street upon Templeton Street, thence continued to Marlborough Avenue, at which point cars should be turned on a small loop.

Attention should be called to the grades in the Sandy Hill section. It was only after careful study that the route just outlined was determined upon as containing not only the easiest grades but also the only ones safe for operation, and still provide a route which would properly serve this district.

It is a well-known fact that street railway lines induce the building up of districts which they serve. Bearing this in mind it is believed that during the fourth year of this programme it will be found expedient to extend the line in Ottawa East. While a half mile south on Main Street might reach the limit of the new settlement at this future date, it is recommended that during this construction period a double-track extension be built south on Main Street from Clegg Street to a point near the

Rideau River, then bearing slightly west, continue until it reaches the edge of the present settlement and there building a small single-track loop.

The 2.75 miles of extensions recommended and ten new cars would make the fourth year construction cost approximately \$209,440.

EXTENSIONS DURING FIFTH YEAR.

There is now, and has been for some time past, more or less agitation for removal and relocation of railroad tracks in and about the City of Ottawa. Among these plans is one for a line which would have a passenger station, known as Ottawa South, on the south side of the Rideau River near the Bank Street bridge. Such a station would certainly demand street car service to the centre of the town. Whether this change will be made by the beginning of the fifth year of this programme is considered immaterial for it is believed that the increase in population and business along the southern end of Bank Street and immediately across the river, will warrant a double-track extension on Bank Street from Grove Street, south and across the bridge over the Rideau River. This extension of about one mile and five new cars would cost about \$94,000.

The total cost of new construction, new cars, equipment and carhouse, on this five years' programme, is estimated at \$1,517,690.

Track extensions are shown for each year of this programme upon a map which also shows the distribution of population of the city of Ottawa and municipality of Eastview.

DENSITY OF CAR TRAFFIC

Car-flow diagrams have been prepared showing graphically the cars per hour in each direction on all streets in the central district of the city during present normal service and present rush-hour service. There are also car-flow diagrams showing both normal and rush-hour service after completion of the proposed programme of construction. A comparison of these diagrams will clearly show that, even with a 17 per cent. increase in service through the central district after completion of the proposed construction, there is much less congestion than under the present method of operation.

OPERATING EXPENSES AND TAXES.

The estimates of operating expenses for each year of this proposed programme of construction were based upon the actual experience of the company—the greatest consideration being given to the total operating expenses and expenses per car mile for the year 1921. However, the employees of the company accepted a reduction of 12 per cent. in wage rates, effective July 1, 1922, which reduction will decrease the operating expenses per car mile since that date.

Fluctuations in labour rates and costs of materials during the next five years will probably be slight, so the costs per mile for 1921, adjusted by the reduction in labour rates, have been used to estimate the operating expenses for each year of this programme.

Taxes have been estimated upon the 1922 basis of taxation—mileage basis for track, valuation for real and personal property, and net income for income tax.

OPERATING REVENUE.

The past history of the company shows a steady increase in the riding habit of the patrons of the company, until in 1921 it reached the point of 336 rides per capita per annum. Past history would, of course, indicate a further steady increase but it is believed that the peak has been reached. Based upon the assumption of 330 rides per capita per annum and the indicated normal growth of the city, the passenger revenue has been

estimated for each year of this programme, allowing for the continuance of the "Limited" and "Sunday" reduced rate ticket.

The increase in population and distribution of density of population is well indicated by the four maps showing graphically the density of population for the years 1890, 1900, 1910, and 1920.

About ten per cent. of the revenue passengers used "Limited" or "Sunday" tickets, the abolition of which tickets would effect an increase in revenue varying from \$70,000 in the first year to \$80,000 in the fifth year.

An Act respecting the Town of Dundas.

WHEREAS, the municipal council of the corporation Preamble.
of the Town of Dundas, hereinafter called the corporation, has, by petition, represented that it is desirable that a certain by-law set forth in schedule "A" hereto, and the debentures issued or to be issued thereunder, and the rates levied or to be levied for the payment of the said debentures, should be validated and confirmed; and whereas, the said corporation has prayed that an Act may be passed for the above purpose; and whereas, no opposition has been offered to the said petition; and whereas, it is expedient to grant the prayer of the said petition;

Therefore, His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. This Act may be cited as *The Town of Dundas Act, 1924*, Short title.

Debentures confirmed.

SCHEDULE "A".

BY-LAW No. 951.

For granting aid by way of loan and otherwise to Kaustine Company, Limited, to assist in the construction of a factory for the manufacture of water supply and sewage disposal systems, and to authorize the borrowing upon the credit of the debentures of the Municipal Corporation of the Town of Dundas of the sum of \$15,000.00 for that purpose.

Whereas Kaustine Company, Limited, of the Town of Dundas, in the County of Wentworth, proposes to erect and carry on in the Town of Dundas a factory for the manufacture and sale of water supply and sewage disposal systems and the corporation has agreed to lend the Company the sum of \$15,000.00 in aid of the construction and erection of said factory, the repayment of same to be secured in the manner provided by an agreement entered into by the Company with the Corporation, a copy of which is appended hereto and marked as Schedule "A" to this by-law;

And whereas it is contemplated that an average of twelve hands shall be employed in the said industry and it is expedient to develop the said industry in the said Town of Dundas and to aid the same pursuant to the said agreement;

And whereas in order thereto it will be necessary to issue debentures of the Town of Dundas for the sum of Fifteen Thousand dollars (which is the amount of the debt intended to be created by this by-law) the proceeds of the said debentures to be applied to the said purpose and to no other;

And whereas it is desirable to issue the said debentures at one time and to make the principal of the said debt repayable by yearly sums during the period of fifteen years, being the currency of the said debentures, the said yearly sums being of such respective amounts that the aggregate amount payable in each year for principal and interest in respect of the said debt shall be as nearly as possible equal to the amount payable in each of the other years of the said period;

And whereas the total sum required by The Municipal Act (being Chapter 72, Ontario Statutes, 1922) to be raised annually for paying the special instalment of principal and interest accruing due on said proposed debt is the sum of One Thousand, Four Hundred and Ninety-four dollars and Thirty-nine cents (\$1,494.39);

And whereas there is no industry of a similar nature to the said Kaustine Company, Limited, already established in the said town, nor is this by-law proposed to be passed for the purpose of securing the removal of an industry already established elsewhere in the Province of Ontario;

And whereas the granting of the said loan would not for its payment, together with the payment of any similar bonuses granted by the said municipality, require an annual levy for the principal and interest exceeding ten per cent. of the total annual municipal taxation thereof;

Be it therefore enacted by the Municipal Council of the Corporation of the Town of Dundas as follows:—

1. That subject to the condition of said agreement there shall be advanced by the said Municipal Corporation to the said Kaustine Company, Limited, the said sum of \$15,000.00 by way of loan, upon the security

mentioned in said agreement to enable the Company, to erect, equip and carry on the said Kaustine manufacturing factory.

BILL

An Act to authorize Joseph P. Savage to
practise Medicine, Surgery and
Midwifery.

WHEREAS Joseph P. Savage, of the town of Oakville, Preamble.
has by petition represented that he has written on the
Junior Matriculation examination for entrance into the
University of Toronto and passed in all the prescribed subjects
except mathematics and Greek composition; that in or about
the year 1902 he registered at the University of Toronto as a
student in medicine and spent a period of five years in actual
professional studies and clinical work as required by the
curriculum of the College of Physicians and Surgeons of
Ontario; that in 1908 he paid to the College of Physicians and
Surgeons the regular registration fee and was duly registered,
subject only to the condition that he should complete matricula-
tion in the subjects in which he had not attained full standing,
and in the same year he wrote on and passed the Primary
examination prescribed by the Medical Council; that in 1910
he again wrote at the Junior Matriculation examination and
obtained standing in Greek authors; that in the same year he
made application to the Medical Council for leave to write
on the final examination prescribed by the Medical Council,
notwithstanding the fact that he had not completed his full
matriculation, and was granted the right to do so on condition
that he was not to be given the result until he had completed
the Junior Matriculation examination; that accordingly in
1912 he wrote on such final examination and, although he was
not given the result of it still in the belief that he had passed
this examination he entered upon and continued for four
months a course in the subjects of mathematics and Greek
composition at the Meisterschaft School of Languages and
Natural Science and obtained a certificate from that school
that he had covered in a satisfactory manner the work on
those subjects required for Junior Matriculation; that early in
1913 while taking this course and notwithstanding the fact
that he had been already allowed to write on the final Council
examination he was informed by an official of the College of
Physicians and Surgeons that he must complete his Junior
Matriculation before he would be allowed to write on such

final examination and in consequence of this ruling it became impossible for him to take such final examination before 1914; that since that year for financial and other reasons he has not been in a position to continue his studies and again write on such final examination; and whereas the said petitioner has further represented that he has had considerable hospital experience, having served for one year in the Hamilton General Hospital and for six months in St. Michael's Hospital, and has also had an extended experience in the actual practise of medicine as assistant to a number of duly qualified medical practitioners; that in view of the facts above set out it would not be reasonable to call on the petitioner to complete the Junior Matriculation examination or to require him to write upon any further examination in order that he might be qualified to practise in the same way as a duly qualified medical practitioner; and whereas the said petitioner has by his petition prayed that an Act may be passed authorizing him to practise medicine, surgery and midwifery in Ontario without passing any further or other examination; and whereas it is expedient to grant the prayer of the said petition;

Therefore, His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario enacts as follows:—

Authority

medicine,
eto.

1. The said Joseph P. Savage shall be entitled to practise medicine, surgery and midwifery in Ontario and to be registered in the Register kept by the College of Physicians and Surgeons of Ontario without passing any further or other examination.

VILLAGE OF POINT EDWARD.

A by-law to fix the assessment of The Holmes Foundry Co., Limited, at the sum of Six Thousand Five Hundred Dollars (\$6,500.00) for all purposes whatsoever, for a period of ten years.

Whereas The Holmes Foundry Co., Limited, has proposed to the Corporation of the Village of Point Edward to establish and operate a manufactory for the manufacturing of automobile accessories and general foundry business, and to expend on the erection and equipment of such manufactory not less than Twenty-five Thousand Dollars (\$25,000.00), and to employ in such manufactory at least twenty-five (25) employees from the commencement of its operation, and thereafter keep the same continuously employed during labouring days, except as hereinafter specified, for at least ten (10) years from the time of such commencement, upon the said Corporation fixing an assessment of the said Company for all purposes whatsoever for a term of ten (10) years from the First day of January, 1918, as hereinafter provided at the sum of Six Thousand Five Hundred Dollars (\$6,500.00).

And whereas the said The Holmes Foundry Co., Limited, is the owner of the land in the Village of Point Edward known as Park Lot Number One (1), excepting thereout the Grand Trunk Railway right-of-way and the South-Eastern part owned by Mrs. Jennie Godley and Park Lot Number Two (2), excepting thereout the Grand Trunk Railway right-of-way, being subdivision of Lot Number Twenty-three (23), in the Seventh Concession of the Township of Sarnia.

An Act respecting the Town of Mount Forest.

WHEREAS the corporation of the town of Mount Forest Preamble. has, by its petition, represented that The Superior Knitting Mills, Limited (hereinafter called the company), a company which has been and now is established and carrying on, within the said town, the business of manufacturing overalls and knitted goods, did apply, early in the year 1923, to the said corporation for a loan of \$14,000 to aid in the purchase, renovation and repair of the property situate in the said town, known as "The Weir Wardrobe Factory," to be used by the said company in carrying on their said manufacturing business, upon the terms set out in an agreement duly entered into between the said corporation and the said company, a copy of which said agreement is set out in schedule "A"; and whereas the council of the said corporation deemed it expedient and in the best interests of the said corporation that such a loan should be granted, and for this purpose did submit to the electors of the corporation, for their assent, a by-law intituled By-law No. 754, To aid the Superior Knitting Mills, Limited, of the town of Mount Forest by way of loan to the extent of fourteen thousand dollars for the purchase, renovation and repair of the Weir Wardrobe Factory, to limit the assessment of the said factory, to grant them free water; to issue debentures for the said loan and to authorize the raising of an annual sum for the payment of the said debentures and the interest thereon," a copy of which said by-law is set out in schedule "B" hereto; and whereas of the electors who voted on the by-law more than two-thirds voted in favour thereof; and whereas the said by-law was subsequently finally passed by the affirmative vote of three-fourths of all the members of the council of the said corporation; and whereas in the said agreement and by-law it was inadvertently provided that the property of the said company should be subject to a fixed assessment for school purposes, which provision was beyond the powers of the said corporation to enact; and whereas on the twenty-fifth day of September, 1923, a further agreement was entered into by the said company with the said corporation, amending the said agreement and eliminating therefrom the clause providing for said

fixed assessment, a copy of which said amending agreement is set out in schedule "C" hereto; and whereas in pursuance of the powers conferred upon them by *The Consolidated Municipal Act, 1922*, the said By-law No. 754 was amended to conform with the said amended agreement and with the provisions of *The Consolidated Municipal Act, 1922*, in respect to fixed assessment, which amending by-law was finally passed on the first day of October, 1923, and numbered No. 757, a copy of which said amending by-law is set out in schedule "D"; and whereas the mortgage referred to in the said agreement has been duly executed and delivered to the said corporation and has been registered; and whereas the corporation has issued debentures as provided for by the said by-law; and whereas application was made to the Ontario Railway and Municipal Board for a certificate of the said board declaring valid and binding the said two By-laws Nos. 754 and 757, and that the said debentures issued under authority of said by-laws be approved, and the said board duly issued their certificate to that effect; and whereas doubt has arisen as to the validity of the said by-laws and of the said debentures; and whereas the corporation has, by its petition, prayed that an Act may be passed to validate and confirm the said two by-laws and the debentures thereunder and to validate and confirm the said two agreements; and whereas it is expedient to grant the prayer of the said petition;

Therefore, His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

The Company agrees to pay school taxes on said buildings and plant on a fixed assessment of ten thousand dollars for a period of ten years, and, in the event of any part of the said building being let or rented or occupied by any other person or Company, the Corporation is to be entitled to assess and collect taxes on a business assessment on such part or parts of the said building as may be so let or occupied.

Provided also that in case of fire upon the said premises or that for any other reason beyond the control or power of the Company a stoppage of work is caused, the time so lost shall not operate against the said Company, if they take immediate steps to rebuild or repair the same without unreasonable delay and get the factory running again to full capacity. And it is agreed that in case of fire, the insurance money may be used and applied in rebuilding or repairing as far as necessary.

Provided also that, in the event of the full sum of fourteen thousand dollars, or the proceeds of the sale of the said debentures not being required

for the purchase, renovation and repairing of the said building, any balance so remaining over shall be repaid to the said Corporation by the said Company.

The Company further agrees that it will, during the continuance of the said loan, continue to operate the said Overall and Knitting factory in the said building or such part thereof as may be required by it.

Provided that the Corporation is to pay to the said Company the sum of \$10,000.00 on the closing of the said purchase and the remaining sum of \$4,000.00 as the work of renovation and repair proceeds on a basis 75% of the cost of the work done, and the remaining 25% as soon as the work is completed.

Should the said Company sell all or any of the machinery purchased from The Canada Furniture Manufacturers, Limited, with the said building the proceeds of such sale shall be paid to the Corporation in reduction of the said mortgage.

Provided also that the waiver, suspense or non-enforcement by either of the parties hereto of any of the covenants, provisos and conditions of this agreement, either wholly or in part, shall not annul or make void this agreement or any part thereof, any law, usage or custom to the contrary notwithstanding.

In witness whereof the said Corporation has caused this agreement to be signed by the Mayor and Clerk and has affixed the Corporate Seal thereto, and the said Company has affixed its Corporate Seal thereto attested by the hands of its proper officers.

An Act respecting the Town of Oshawa

WHEREAS the municipal corporation of the town of Preamble. Oshawa has by its petition represented that a concrete pavement heretofore constructed on Simcoe Street North in the said town and extending from Alexandra Street to the northerly limits of the town has become worn out and is in a dangerous state of repair; that it has been found necessary to replace the said pavement by a new pavement; that debentures issued under the provisions of *The Local Improvement Act* for the original pavement have still twelve years to run; that it is desirable that the new pavement be constructed as a local improvement and that the balance of the payments on the debentures issued in respect of the old pavement be paid by a general rate on the whole rateable property of the corporation; that by-law No. 1681 of the said corporation has been passed authorizing the construction of the said pavement under the provisions of *The Local Improvement Act*; and whereas the said corporation has prayed that an Act be passed validating and confirming the said by-law and the debentures to be issued in pursuance thereof and empowering the corporation to pay the balance of the instalments of principal and interest on the debentures issued in respect of the first pavement by a general rate on the whole rateable property of the corporation; and whereas it is expedient to grant the prayer of the said petition;

Therefore, His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. This Act may be cited as *The Town of Oshawa Act, 1924*. Short title.

2. By-law No. 1681 of the town of Oshawa passed the 15th day of December, 1923, and set forth in schedule "A" hereto is hereby ratified and confirmed and declared to be legal, valid and binding upon the said corporation and the ratepayers thereof.

Confirma-
tion of
debentures.

3. All debentures to be issued in pursuance of said by-law are hereby declared to be valid and binding upon the said corporation notwithstanding the fact that debentures previously issued for a pavement on the same portion of the same street have still twelve years to run.

Rate to
meet
debentures
for first
pavement.

4. The town of Oshawa is hereby authorized and empowered to levy on the whole rateable property of the corporation each year a rate sufficient to meet the payments of principal and interest still to become due on the debentures issued for the first pavement until the said debentures are fully paid.

Commence-
ment of
Act.

5. This Act shall come into force on the day upon which it receives the Royal Assent.

SCHEDULE "A".

By-law No. 1681 of the corporation of the town of Oshawa to authorize the construction of a pavement on Simcoe Street from Alexandra Street to the northerly limit of the town.

Whereas, in the year 1914, the town of Oshawa laid down, under the provisions of *The Local Improvement Act*, a concrete pavement, sixteen feet wide, on Simcoe Street North, extending 3,300 feet from Alexandra Street to the northerly limit of the town.

And whereas this pavement is worn out, and in such a bad condition that it is impossible to repair the same, and it is dangerous to the public using it, and in consequence it is imperative for the town to lay down a new pavement on said street.

And whereas the Oshawa railway operates its tracks on several of the streets in the town of Oshawa, including a portion of Simcoe Street, and it has been decided by the said railway and the said corporation that it would be a most convenient and expedient time to extend the said railway northerly on Simcoe Street when the old concrete pavement is torn up and when the new pavement is being laid down.

And whereas the town engineer has reported that the best course to adopt in the interest of the property owners abutting on said road, and of the town generally, is to remove the old pavement entirely as it is of no use for the laying of a new surface thereon, and put in an asphalt pavement on said portion of Simcoe Street with a width of thirty-four feet.

And whereas the said concrete pavement was constructed under *The Local Improvement Act*, and debentures were issued for the payment of the cost thereof and payable on the instalment plan, and have still twelve years to run.

And whereas the council of the corporation of the county of Ontario has agreed to contribute the sum of seven thousand nine hundred and sixty-seven 19/100 dollars towards the cost of the construction of a permanent roadway on the said street, which sum would be about sufficient to pay for laying the concrete base on that part of said street formerly covered by the old pavement.

And whereas the council of the corporation of the town of Oshawa is of the opinion that it would be fair and equitable to the owners of property abutting on said portion of Simcoe Street, and to the general ratepayers of the town, that the corporation should pay the remaining instalments to become due for payment of the debentures issued for the cost of the old pavement, and that the new pavement should be paid for as a local improvement by the properties abutting on the same, as the former concrete pavement was laid down at a cost to property owners of only fifty-two cents per square yard, amounting to less than five cents per foot frontage per year.

And whereas the railway company have agreed to pay \$3.55 per lineal foot towards the cost of paving the strip eight feet wide occupied by their tracks.

And whereas a large number of the owners of property abutting on said street have petitioned for the extension of the railway as aforesaid and also for the new pavement on the terms and conditions herein proposed.

5. The treasurer may (subject to the approval of the council) agree with any bank or person for temporary advances of money to meet the cost of the work pending the completion thereof.

6. The special assessment shall be paid by twenty annual instalments.

7. The debentures to be issued for the loan to be effected to pay for the cost of the work when completed shall bear the then current rate of interest, and be made payable within twenty years on the instalment plan.

(2) After any loss or damage to an insured automobile, the insurer shall have right of access to and examination of such automobile by accredited agents of the insurer sufficient to enable such agents to ascertain the amount of the damage sustained.

(3) The insured shall submit to examination under oath, and shall produce for examination, at such reasonable place as is designated by the insurer or its representative, all books of account, bills, invoices and other vouchers, in his possession or control which relate to the matters in question, and shall permit extracts and copies thereof to be made.

(4) The insurer shall not be liable beyond the actual cash value of the automobile at the time any loss or damage occurs, and the loss or damage shall be ascertained or estimated according to such actual cash value with proper deduction for depreciation, however caused, and shall in no event exceed what it would cost to repair or replace the automobile or any part thereof with material of like kind and quality; provided, that in the event of any part of the automobile being obsolete and out of stock the liability of the insurer in respect thereof shall be limited to the value of such part at the time of loss or damage not exceeding the maker's last list price; the ascertainment or estimate of such loss or damage shall be made by the insured and the insurer, or if they disagree, then by appraisers, as hereunder provided.

(5) Except where an appraisal has been had, the insurer, instead of making payment, may within a reasonable time repair, rebuild or replace the property damaged or lost with other of like kind and quality, giving written notice of its intention so to do within seven days after receipt of the proofs

of loss; but there can be no abandonment of the automobile to the insurer without its consent. In the event of the insurer exercising such option, the salvage, if any, shall revert to it.

(6) In the event of disagreement as to the nature and extent of the repairs and replacements required, or as to their adequacy, if effected, or as to the amount payable in respect of any loss or damage, such questions shall be determined by appraisers before recovery can be had hereunder whether the right to recover on the policy is disputed or, not, and independently of all other questions. The insured and the insurer shall each select one appraiser, and the two so chosen shall then select a disinterested umpire. Thereafter the two appraisers together shall estimate or appraise the loss or damage, stating separately sound value and damage, or determine the adequacy of such repairs or replacements, and failing to agree, shall submit their differences to the umpire.

(7) In case either party fails to name an appraiser within seven clear days after being served with written notice so to do, or in case the appraisers fail to agree upon an umpire within fifteen days after their appointment, or in case an appraiser or umpire refuses to act or is incapable of acting, or dies, a judge of a superior, county or district court having jurisdiction in the county or district in which the appraisal is to be made may appoint such appraiser or umpire on the application of the insured or of the insurer.

(8) An award in writing of the two appraisers, or of one appraiser and the umpire, shall determine the nature and extent or adequacy of the repairs and replacements, or the amount of such loss or damage.

(9) Each party shall pay the appraiser selected by him, and shall bear equally the other expenses of the appraisal and of the umpire.

(10) Neither the insurer nor the insured shall be deemed to have waived any provision or condition of this policy by any act relating to the appraisal, or to the delivery and completion of proofs of loss, or to the investigation or adjustment of the claim.

(11) The sum for which the insurer is liable hereunder for loss or damage shall be payable within sixty days after the proof of loss herein required has been received by the insurer, but if appraisal is demanded, then within fifteen days after the award has been made by the appraisers. No suit or action, however, may be brought for the recovery of any

claim unless the insured has complied with the foregoing requirements, nor unless such action is commenced within one year after the happening of the loss.

10. Notice of claim may be given and proofs of claim may be made by the agent of the insured, in case of the absence of the insured or in case of inability of the insured to give the notice or make the proof, such absence or inability being satisfactorily accounted for, or in the like case or if the insured refuses to do so, by a person to whom any part of the insurance money is payable. Who may give notice and proofs of claim.

11. Any fraud or wilfully false statement made under oath or in a declaration in relation to any of the above particulars shall vitiate the claim of the person making the declaration in any matter affected by such fraud or false statement. Fraud.

12. The insurer on paying the loss shall be subrogated to the extent of such payment to all right of recovery against any third party, and on such payment, or on assuming liability therefor may require from the insured a transfer of his rights against such third party, and the insured shall execute all documents properly required by the insurer to secure to it such rights. Subrogation.

13.—(1) This policy may be cancelled at any time at the request of the insured, and the insurer shall, upon surrender of the policy, refund the excess of paid premium above the customary short rate premium for the time the policy has been in force. Cancellation.

(2) This policy may be cancelled at any time by the insurer giving to the insured fifteen days' notice in writing of cancellation by registered mail, or five days' notice of cancellation personally delivered, and refunding the excess of paid premium beyond the *pro rata* premium for the expired time. Repayment of excess premiums may be made by money, post office order, postal note or cheque. Such repayment shall accompany the notice, and in such case, the fifteen days above mentioned shall commence to run from the day following the receipt of the registered letter at the post office to which it is addressed.

14. No condition or provision of this policy either in whole or in part, shall be deemed to have been waived or altered by the insurer unless the waiver is clearly expressed in writing signed by the manager of the insurer or its chief agent for Canada or this Province. Waiver.

15. Any written notice to the insurer may be delivered at or sent by registered post to the chief agency or head office of Notice.

the insurer in this province. Written notice may be given to the insured by letter personally delivered to him or by registered letter addressed to him at his last post office address, notified to the insurer, or, where no address is notified and the address is not known, addressed to him at the post office of the agency, if any, from which the application was received.

Conditions 8 and 9 may be omitted in certain cases.

169.—(1) If the policy does not insure against accident to persons or damage to property of others than the insured, condition number 8 may be omitted from the policy.

(2) If the policy does not insure against loss or damage to the insured automobile, condition number 9 may be omitted from the policy.

(3) If a condition is omitted pursuant to this section there shall be inserted, after the Condition number, the following words, within brackets, "[*This Condition is not applicable to this policy and is omitted pursuant to statute*]."

Variations in conditions.

170.—(1) If an insurer desires to vary, omit or add to the automobile statutory conditions or any of them, except as provided in the preceding section, there shall be printed in conspicuous type, not less in size than ten point, and in red ink, immediately after such conditions, the proposed variations or additions or a reference to the omissions with these introductory words:

"Variations in Conditions."

"This policy is issued on the above statutory conditions with the following variations, omissions and additions, which are, by virtue of The Ontario Insurance Act, 1924, in force so far only as they shall be held to be just and reasonable to be exacted by the insurer."

Variation to be just and reasonable.

(2) No variation, omission or addition shall be binding on the insured unless the foregoing provisions of this section have been complied with; and any variation, omission or addition shall be so binding only in so far as it is held by the court before which a question relating thereto is tried, to be just and reasonable.

Extension of cover not a variation.

(3) Where permission is given in the statutory conditions for extension of the insurance to additional risks or coverage by the use, in the statutory conditions, of the words "unless otherwise specifically stated in the policy," or words to the like effect, such extension expressly made in the policy shall not be deemed to be a variation of the statutory conditions within the meaning of this section.

171. No red ink shall be used on the face of a policy except the name, address and emblem of the insurer, and the policy number and for the purposes mentioned in this Act. Use of red ink.

172. In any case where there has been imperfect compliance with a statutory condition as to the proof of loss to be given by the insured, or as to any matter or thing to be done or omitted by the insured after the maturity of the contract, and a consequent forfeiture or avoidance of the insurance, in whole or in part, and the court deems it inequitable that the insurance should be forfeited or avoided on that ground, the court may relieve against the forfeiture or avoidance on such terms as it may deem just. Relief from forfeiture.

173.—(1) A policy may contain a partial payment of loss clause to the effect that the insurer in the event of loss shall pay only an agreed proportion of any loss which may be sustained or the amount of the loss after deduction of a sum specified in the policy, in either case not exceeding the amount of the insurance, in which case there shall be printed or stamped upon the face of the policy in conspicuous type in red ink, the words: "This policy contains a partial payment of loss clause." Partial payment of loss clause.

(2) Such partial payment of loss clause shall not be deemed an addition to the statutory conditions or be subject to the provisions of section 170. Clause not to be deemed an addition or variation.

174. Any act of omission of the insurer resulting in imperfect compliance with any of the provisions of this Part shall not render the contract invalid as against the insured. Rights of insured.

175. Notwithstanding anything in this Part contained, an automobile may be insured under a fire insurance policy against loss or damage by fire while housed or stored in a building. *New.* Coverage under fire policy.

176. Where by the statutory conditions of an automobile insurance policy the holding of an appraisal is provided for in the event of a dispute as to the amount of the loss or the adequacy of the repairs under the policy, no action shall be brought to recover the amount secured by the policy if the amount of the loss or the adequacy of the repairs is in dispute, until the award of the appraisers has been rendered in accordance therewith, and in any such action the award of the appraisers shall be conclusive as to the amount of the loss, or the adequacy of the repairs. 1922, c. 61, s. 14. Prohibition of action before award of appraisers.

of the insurer shall, as against the insured, have any force or validity, but the contract may provide for the exclusion from the risks insured against of accidents arising from any hazard or class of hazard expressly stated in the policy.

3. If a *bodily injury or any sickness* insured against happens to the insured while engaged temporarily or permanently in an occupation classified as more hazardous than that stated herein to be the occupation of the insured, the liability under this policy shall be limited to such amount as the premium paid would have purchased for the more hazardous occupation according to the limits classification of risks, and premium rates of the insurer last filed with the Superintendent of Insurance; provided that the performance of ordinary duties about his residence or while engaged in recreation shall not be regarded as a change of occupation by the insured.

4. If the insured shall, at any time, change his occupation either temporarily or permanently to an occupation classified by the insurer as less hazardous than that stated in the policy to be the occupation of the insured, the insurer shall, upon written request of the insured and surrender of this policy, issue a policy for the unexpired term at the lower rate of premium applicable to such less hazardous occupation, and the insurer shall return to the insured the amount by which the unearned premium on the original policy exceeds the premium charge at such lower rate for the unexpired term.

4. By-law No. 1218 of the corporation of the town of Sandwich, passed on the 3rd day of December, 1923, set forth in Schedule "A" hereto, and authorizing the issue of debentures in the sum of \$6,452.30, to pay for the cost of the widening of Rosedale Avenue from Peter Street to London Street, in the town of Sandwich, and the debentures issued thereunder are hereby ratified and confirmed and are declared to be legal and valid upon the corporation of the said town and the ratepayers thereof.

SCHEDULE "A".

BY-LAW No. 1218

OF THE TOWN OF SANDWICH.

By-law to provide for borrowing \$6,452.30 upon debentures to pay for the construction of the widening of Rosedale Avenue, from Peter Street to London Street, in the Town of Sandwich.

Whereas pursuant to construction By-law No. 1068, passed on the 3rd day of July, 1922, the said widening has been constructed on Rosedale Avenue from Peter Street to London Street as a local improvement under the provisions of *The Local Improvement Act*.

And whereas the total cost of the work is \$6,452.30, of which \$2,138.99 is the Corporation's portion of the cost, and \$4,313.31 is the owners' portion of the cost, for which a special Assessment Roll has been duly made and certified.

And whereas the estimated lifetime of the work is 25 years.

And whereas it is necessary to borrow the said sum of \$6,452.30 on the credit of the Corporation and to issue debentures therefor bearing interest at the rate of six per cent. per annum, which is the amount of the debt intended to be created by this By-law.

And whereas it is expedient to make the principal of the said debt repayable in yearly sums during the period of 25 years, of such amounts respectively that the aggregate amount payable for principal and interest in any year shall be equal as nearly as may be to the amount so payable for principal and interest in each of the other years.

And whereas it will be necessary to raise annually the sum of \$504.74 during the period of 25 years to pay the said yearly sums of principal and interest as they become due, of which \$167.33 is required to pay the Corporation's portion of the cost and the interest thereon, and \$337.41 is required to pay the owners' portion of the cost and the interest thereon.

And whereas the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, is \$6,538,512.00.

And whereas the amount of the existing debenture debt of the Corporation (exclusive of local improvement debts), secured by special rates of assessment, is \$863,644.67 and no part of the principal or interest is in arrear.

Therefore the Municipal Council of the Corporation of the Town of Sandwich enacts as follows:—

1. That for the purpose aforesaid there shall be borrowed on the credit of the Corporation at large, the sum of \$6,452.30 and the debentures shall be issued therefor in sums of not less than \$50.00 each, bearing interest at the rate of six per cent. per annum, and having coupons attached thereto for the payment of the interest.

2. The debentures shall all bear the same date, and shall be issued within two years after the day on which this By-law is passed, and may bear any date within such two years, and shall be payable in 25 annual instalments during the 25 years next after the time when the same are issued, and the respective amounts of principal and interest payable in each of such years shall be as follows:—

For the payment of the owner's portion of the cost and the interest thereon, the special assessment set forth in the said special Assessment Roll is hereby imposed upon the lands liable therefor as therein set forth; which said special assessments, with a sum sufficient to cover interest thereon at the rate aforesaid, shall be payable in equal annual instalments of each, and for that purpose an equal annual special rate of cents per foot frontage is hereby imposed upon each lot entered in the said special Assessment Roll, according

to the assessed frontage thereof, over and above all other rates and taxes, which said special rate shall be collected annually by the Collector of taxes for the Corporation, at the same time and in the same manner as other rates excepting always the lands of the above-named owners who have commuted.

For the payment of the owner's portion of the cost and the interest thereon, the special assessment set forth in the said special Assessment Roll is hereby imposed upon the lands liable therefor as therein set forth; which said special assessment, with a sum sufficient to cover interest thereon at the rate aforesaid, shall be payable in 25 equal annual instalments of \$337.41 each, and for that purpose the special annual rates per foot frontage set forth in schedule (1) hereto attached, are hereby imposed upon the lots entered in the said special Assessment Roll, according to the assessed frontage thereof, over and above all other rates and taxes, and the said special rates shall be collected annually by the collector of taxes for the Corporation at the same time and in the same manner as other rates, excepting always the lands of the above-named owners who have commuted.

In default of agreement, either party may apply to the Railway Board and the Railway shall, if the order of the Board is upon the application of the Corporation, and may, if the order of the Railway Board is upon the Railway's application, thereafter use such power as the Railway Board orders.

Section VI—Franchise Exclusive

During the term of this Agreement or any extension or renewal thereof, the Corporation shall not give or grant, or permit to be granted, to any other person, partnership, company or corporation, any right, privilege, license or franchise to own, construct, reconstruct, maintain, use or operate either wholly within the City, or within such distance beyond its limits as may be permitted by law, any bus, jitney or other similar vehicle for the purpose of transportation, for gain or profit, which in any way depreciates the rights, privileges and franchises hereby granted or which shall or may come into competition with the Local Lines of the Railway.

In no case shall such buses, jitneys, or other similar vehicles be permitted to take on passengers within the City and discharge such passengers within the City.

The Railway, with the consent of the Corporation, and on such terms as may be agreed upon, may grant running rights for passenger cars, to any other Electric Railway operating without the City, over the Local Lines, and in case such other Electric Railway desires an entrance to the City and the Railway and Corporation cannot agree as to whether such running rights should be granted, or the terms upon which they should be granted, the Railway Board may grant the said running rights and fix the terms upon which the same shall be granted.

Section VII—Erection and Maintenance of Poles

The Railway may erect and maintain such poles as may be useful for its purposes at such places on the streets and public places as may be reasonable, but subject to the consent, as to location, of the City Engineer. Such consent shall not be unreasonably withheld.

Poles to be erected to be of a type approved by the City Engineer.

In case it becomes necessary for the purpose of any civic improvement to re-locate any pole, the Railway shall forthwith, upon notice by the City Engineer, re-locate the same as directed by the notice, and the Corporation shall thereupon pay to the Railway one-half of the cost of such re-location. If the Railway fails to re-locate any pole, within the time mentioned in the notice, which shall be not less than five days, the Corporation may itself re-locate such pole, and the Railway shall thereupon pay to the Corporation one-half of the cost of such re-location.

Section VIII—Use of Poles

For the purpose of preventing duplication of poles as far as practicable, the Corporation shall have the right to use the Railway's poles for carrying the wires of the Corporation's Police and Fire Alarm Systems, provided such poles shall not be so used as to interfere in any way with the use of such poles by the Railway, and provided further that such use by the Corporation shall not entail any additional cost or expense to the Railway, and in that event only upon payment by the Corporation of such additional cost or expense, and so far as practicable, and only so far as the Corporation's authority extends, the Railway shall have the right to use any poles over which the Corporation has control, provided such use by the Railway shall not entail any additional cost or expense to the Corporation and in that event only upon payment by the Railway of such additional cost or expense.

Section IX—Track Allowance and Grade

The Corporation hereby agrees to provide upon the streets referred to herein a proper and suitable Track Allowance, and to permit the Railway to occupy the same as in this Agreement provided, and shall establish a grade upon which to construct the Railway. After establishment by the Corporation of the said grade, no alteration or change thereof shall be made without the consent of the Railway Board, and any and all expenses occasioned to the Railway, by reason of such alteration or change, shall be borne by the Corporation.

Section X—Maintenance and Repair of Streets

The Corporation shall maintain the streets where the Railway has its tracks, in proper repair; provided that, whenever the pavement or surface is taken out by the Railway for the purpose of maintenance, or where the foundation of the Railway works proves defective or insufficient, the Railway shall forthwith repair the street, and restore the same to its former condition at its own expense, and any amount so expended shall be charged to maintenance. Any liability which may be created or any injury or damage which may be occasioned to any person by reason of the non-repair of any street shall be borne by the party in default. Each party hereto hereby agrees to indemnify and save harmless the other from any loss, damage, costs, charges and expenses occasioned by the failure of the party in default to observe the provisions of this Section.

Section XI—Surrender of Existing Franchises

Section XII—Fixed Assessment

The Corporation hereby grants to the Railway, for the period of the franchise hereby granted, a fixed assessment of Twenty Thousand dollars, upon all the real and personal property comprising the Local Lines Works, for all purposes of Municipal Taxation including business tax and school rates, but not including Local Improvement rates.

Section XIII—Commencement of Work

Local Lines Works additional comprised in the Complete Scheme on or before such date as may be agreed upon between the parties hereto; PROVIDED, however, that if it is agreed between the Railway and the Corporation that the public interest will be better served by extending at any time, or from time to time, the period for constructing such Railway Works, or any part thereof, such period may be extended. As expenditures are from time to time made for the construction or reconstruction or rehabilitation of said Local Lines Works, the total amount thereof shall be added to the Property Value.

Section XV—Substitution of Other Streets

The Railway may, with the consent of the Corporation, expressed by Resolution of the Council, substitute any other street or streets or parts of streets for any street or streets or parts of streets herein named.

Section XVI—Further Extensions

If the Corporation or the Railway should consider that any extension, betterment or improvement other than those herein mentioned is desirable, either party may propose such other extension, betterment or improvement and the Railway shall prepare a statement showing in reasonable detail the estimated cost thereof, the probable expected revenue therefrom and the purpose for which such work is required, with plans and specifications showing the contemplated work necessary for the intelligent understanding of the same. Such extension, betterment or improvement shall not be undertaken if the same shall impair or jeopardize the then existing or estimated future ability of the Railway to earn, at the rate of fare provided for in item "C" of the Fare Schedule, the Return upon Property Value. The cost of any such extension, betterment or improvement shall be added to Property Value.

Section XVII—Transport of Material, Etc.

The Railway shall have the right to transport as freight over the Local Lines, free of any charge, all material, tools, machinery and plant intended for use in the construction, reconstruction, maintenance and repair of its Railway works.

Section XVIII—Removal of Material.

In constructing or reconstructing its tracks the Railway, after having made the excavations and placed the rails and other necessary apparatus, shall remove the surplus earth and other materials taken from the excavations and shall reconstruct at its own expense that part of the street where it has so excavated to lay its tracks, in order to place the same in the same condition as it was when the excavation was made, and for that purpose shall use the materials which the Corporation shall consider the most advantageous, provided such materials be of the same quality as those employed for the pavement of the street so excavated at the time such excavation was made. But if the Corporation avails itself of such excavation to substitute another and more expensive kind of pavement in the said street or streets, in whole or in part, the Railway shall then have the right to recover from the Corporation the excess of the cost. The Corporation may itself, however, construct such new kind of pavement but it shall charge to the Railway and the Railway shall pay only the amount which the latter would have been called upon to spend to restore the street to its former condition.

This Section shall apply to streets upon which there are permanent pavements at the time of constructing or reconstructing any of the Railway's tracks.

Section XIX—Foundation for Track Allowance

The Railway shall provide a proper foundation for its Track Allowance, and in the event of the Corporation constructing a pavement on any street occupied by the Railway for Railway Works, the Railway shall, subject to the provisions of Section XX hereof, if so required by the Corporation, provide materials and labour and do all things necessary

to complete the pavement of the Track Allowance at the cost of the Corporation to be paid for by the Corporation immediately upon completion.

(a) The Corporation may with respect to the cost of the pavement of the New Street and of the Track Allowance (including therein only the allowance for one track being seven feet eight and one-half inches in width on any street), issue debentures bearing interest at $5\frac{1}{2}\%$ per annum and having coupons attached thereto for the payment of the interest, such debentures to be payable in equal annual instalments of principal and interest during the period of ten years from the date of issue thereof respectively. The proceeds of the sale of the said debentures shall be applied only for the purpose of paying the said cost.

The Railway agrees that the amount of the principal and interest of any such debentures issued for paving the Track Allowance shall be repaid to the Corporation out of any surplus Gross Receipts, item "C" of the Fares Schedule being in effect, after providing for the payments and applications mentioned in section XXXI hereof.

Section XX—Cost of Paving

If the Corporation requires the Railway to complete the paving within the limits of its Track Allowance on any street, the Corporation shall pay to the Railway the cost which the Corporation would have had to pay for paving, including a six inch (6") concrete foundation for same, within such limits and the basis of computation of such cost shall be the cost of the Corporation of similar paving work based on actual current costs, or failing which, based on a reasonable estimate of such cost to be agreed upon between the Railway's representative and the City Engineer.

The Corporation, shall not, in any case, be liable for any part of the cost of pavement constructed outside the city.

Section XXI—Foundations on Streets Where Open Track Construction When Paved

If and when the Corporation shall decide to construct a permanent pavement upon any street upon which there are tracks of the Railway of open track construction, the Railway, upon receipt of notice that the Corporation intends to construct such permanent pavement, shall within six months thereafter lay at its expense a proper foundation for its Track Allowance on such street.

Section XXII—Verification of Cost of Paving

The Corporation shall permit the Railway to investigate and verify from its records the cost of paving mentioned in Section XX as the basis of computation.

Section XXIII—Electrolysis

The Railway, when operating any portion of its Railway by means of electricity, shall use the most effective means of preventing, as far as possible, damage by electrolysis; and the Corporation agrees to co-operate with the Railway in considering and deciding upon the most effective means to be used and in respect to all future work to be done by the Corporation it also shall use in connection therewith such means as shall then be known and generally adopted to prevent, as far as possible, damage by electrolysis.

Section XXIV—Delay by Strikes or Other Causes

Should the Railway be unable by reason of strikes, or non-delivery of material or other causes, beyond its control, to complete any of the Local Lines Works and operate same as herein provided for within the period of time permitted for such purpose, the Corporation shall in every case upon the application of the Railway grant the Railway a reasonable extension within which to complete the said Local Lines Works.

Section XXV—Insurance

The Railway shall at all times by some reasonable insurance system keep its properties insured to the full amount of their insurable value.

In case of the loss of or damage to property included in "Property Value", or Schedules "A" or "B", if the same is replaced there shall be no alteration thereby in "Property Value" or either of the said Schedules. If the same is not replaced or repaired an amount shall be deducted from "Property Value", or Schedule "A" or "B", equal to the value of the item or items in "Property Value", or Schedules "A" or "B", as the case may be, or to the extent of the damage thereto. If the replacement or repair is not to the full extent of the loss or damage, the difference between the actual amount spent for replacement or repair and the value of the item or items lost or damaged, as the same appear in "Property Value", or Schedules "A" or "B", shall be deducted from "Property Value", or Schedules "A" or "B" as the case may be.

Section XXVI—Right of Way for Cars on Track Allowance

The cars of the Railway shall have the right to use the Track Allowance as against all other traffic whatsoever, and all other traffic on the Track Allowance, whether meeting, proceeding in the same direction or crossing, shall turn out and off the Track Allowance and permit the said cars to pass, and shall in no case and under no pretence whatever obstruct or hinder the passage thereof and the free use of the Track Allowance by the cars of the Railway.

Section XXVII—Removal of Tracks, Etc., for Municipal Works

When and so often as it may be necessary for the Corporation to remove the tracks of the Railway or otherwise to interfere with the Railway's property in order to carry out any municipal work in a street where the Railway has its tracks, such work, including the restoration of the Railway's property to its condition immediately prior to the said interference, shall be done by the Corporation at its cost. If the Corporation so requests, the Railway shall rebuild or restore at the Corporation's expense that portion of the Railway's property so affected.

Section XXVIII—Moving Buildings

The Railway shall on receipt of notice from the City Engineer that he has granted a permit to anyone to move or transport any building, structure or other object on or over any street, part of which is occupied by the Railway for Track Allowance, make such arrangement with respect to the operation of the Railway, including the Interurban cars, as may be necessary during the time of the transportation of such building, structure or other object whether by temporary re-routing of cars, cessation of operation, or otherwise as the occasion may require, and shall adopt all precautions necessary for the protection and safety of passengers and of all railway works against accident, damages or danger and the Corporation shall be under no obligation or expense to the Railway for or by reason of the moving or transportation of such building, structure or object or anything which may happen or flow therefrom, provided that the Railway shall not be required to remove or disturb any portion of its railway works, except at the expense of the person to whom the permit for moving or transportation of such building, structure or object has been granted, and before such removal or disturbance the Railway shall make an estimate of the cost, the amount of which estimate shall be paid or deposited with the Railway before such removal or disturbance is undertaken. If the actual cost is less than the estimate, the amount of the difference shall be immediately refunded by the Railway to the person who paid it or, if the actual cost exceeds the amount of such estimate, the amount of such excess shall be immediately paid by such person to the Railway.

Section XXIX—Right of Fire Chief to Cut Wires, Etc.

If in case of fire the Chief of the Fire Department of the Corporation, or other officer thereof for the time being in charge of such Department,

shall deem it necessary to cut or pull down any part of the overhead equipment of the Railway which in his judgment obstructs the operations of the firemen in fighting a fire, he shall have the right to direct the same to be cut or pulled down and he may also for the same purpose direct that the transmission of electrical power be immediately stopped and that operation of cars shall cease opposite to or near the scene of the fire for such period and to such extent as he may deem necessary and the Corporation shall not incur any responsibility or liability to the Railway for anything so done or for any damage, injury or expense thereby caused.

Section XXX—Removal of Snow

The Railway shall remove the snow from its Track Allowance, but any snow put upon the travelled part of the highway by the Railway shall be evenly spread thereon by the Railway in a manner to be approved by the City Engineer.

If the Corporation removes the snow from any street upon which the Railway has its tracks, the Railway shall pay to the Corporation one quarter of the cost of such removal on streets or portions of streets upon which there is a single track and one third of such cost on streets or portions of streets where there is a double track. Such payment shall be made in thirty days after the account for same is rendered. The Railway shall have the right to inspect and verify all books, pay sheets and vouchers of the Corporation in respect to any account rendered for snow removal.

Section XXXI—Application of Gross Receipts

"Gross Receipts" shall be applied as follows:—The Railway shall at the beginning of each Calendar month apply the Gross Receipts of the Calendar month next preceding for the purposes and in the order following, viz.:—

- (1) To pay operating expenses.
- (2) To apply towards the creation and maintenance of the Repair, Maintenance and Depreciation Reserve an amount equal to ten per cent. (10%) of the Gross Receipts for such month.
- (3) To provide and pay (after meeting the requirements of the foregoing paragraphs (1) and (2) the herein authorized Return upon Property Value at the rate then applicable and to the extent set forth in Sections XXXII and XXXV hereof.
- (4) To add (after meeting the requirements of the foregoing paragraphs (1) to (3) inclusive) the balance of Gross Receipts for such month then remaining to said Repair, Maintenance and Depreciation Reserve until the total additions thereto from all sources for the portion of the then current Calendar year up to the end of such month shall amount to eighteen per cent. (18%) of the total Gross Receipts derived during said portion of such year.
- (5) To add (after meeting the requirements of the foregoing paragraphs (1) to (4) inclusive) from the balance of Gross Receipts of such month then remaining, provided that the contributions to said Repair, Maintenance and Depreciation Reserve from all sources in any Calendar year or years shall have been less for any such year or years than eighteen per cent. (18%) of the total Gross Receipts derived in such year or years, further amounts to said Repair, Maintenance and Depreciation Reserve up to the amount of such deficit.
- (6) To apply (after meeting the requirements of the foregoing paragraphs (1) to (5) inclusive) the balance of the Gross Receipts for such month from all sources to the creation and maintenance of Surplus Reserve. When the amount of the Surplus Reserve is equal to eight per cent. (8%) of the contemporaneous Property Value, and of the sum of the values of the items in Schedule "A," such reserve shall be considered Normal.

- (7) To apply, after Surplus Reserve has reached Normal, the balance of the Gross Receipts for such month to the reduction of the item of Property Value mentioned in Section I, paragraph 15, sub-paragraph (c) hereof, until the same has been reduced to zero, when no further application of Gross Receipts shall be made under this Paragraph.

The obligation of the Railway to make the applications and additions to the Repair, Maintenance and Depreciation Reserve in accordance with the provisions of Paragraphs (4) and (5) of this Section shall be suspended when and so long as the total of such Reserve equals or exceeds Normal.

The Repair, Maintenance and Depreciation Reserve shall be considered Normal when the amount of such Reserve equals ten per cent. (10%) of the contemporaneous Property Value, and of the sum of the values of the items in Schedule "A".

Should the percentages mentioned in this Section prove to be out of proportion, or either inadequate or too great, any percentage may be altered by agreement between the parties hereto.

Section XXXII—Authorized Return

It is agreed that the Return which the Railway shall be authorized to receive shall be at the rate of six per cent. (6%) per annum on Property Value, as same is determined from time to time in accordance herewith, during the period or periods that the fares provided for in items (C), (D) or (E), or items higher in amount, of the Fares Schedule hereinafter set forth are charged, and for every reduction in fares to items lower in amount than item (C) in such Fares Schedule, the rate of return shall be increased by one per cent. (1%) on Property Value for each reduction of one item in said Fares Schedule, and if at any time hereafter the fares charged shall be thus fixed in any item lower in amount than Item (C) and shall be increased to items higher in amount in said Fares Schedule, the then prevailing rate of return shall correspondingly be reduced step by step by one per cent. (1%) on Property Value for each increase of one item in said Fares Schedule so that whenever Item (C), (D) or (E), or an Item higher in amount, of the Fares Schedule is in force the rate of return shall be six per cent. (6%) on Property Value.

Section XXXIII—Repair, Maintenance and Depreciation Reserve

The Railway covenants that it will at all times keep all its property in good and reasonable order and repair and as a whole in a condition to give effective service. To this end and to the end also that replacements and renewals may be made from time to time as necessary to maintain the property including the items in Schedule "A", in such condition and to offset depreciation in the physical condition of the property as a whole, and that new types of equipment may be introduced to supersede those that have become antiquated or obsolete according to commonly accepted commercial standards in the business, the Railway will set up in the manner herein provided a Repair, Maintenance and Depreciation Reserve and will use the same when and to the extent necessary for such purposes and for those purposes only save as herein otherwise provided.

Whenever the Repair, Maintenance and Depreciation Reserve is below Normal, as defined in Section XXXI hereof, the Railway, if it shall desire so to do, may build the same up to Normal by increasing the monthly or other periodic additions or by making transfers to it from the Surplus Reserve; and if the Surplus Reserve is more than ten per cent. (10%) above Normal, as defined in Section XXXI, Paragraph (6) hereof and the Repair, Maintenance and Depreciation Reserve is below Normal, the Railway shall make transfers from the Surplus Reserve so far as the same will thereunto extend, to said Repair, Maintenance and Depreciation Reserve to the extent necessary to build it up to Normal, but this obligation shall not operate to require the Railway to make any transfer from the Surplus Reserve which will reduce it to less than ten per cent. (10%) above Normal.

Section XXXIV—Surplus Reserve

Surplus Reserve whether above or below Normal, as defined in Section XXXI, Paragraph (6) shall be available for and may be used as an equalizing fund to promote the orderly and economical operation and development of the Railway's business, and to provide for any unexpected or unusual contingencies or reverses therein and to this end (but without limitation of the foregoing) the Surplus Reserve shall be available specifically to aid in:

- (a) Carrying temporarily the charges or burdens incident to any unprofitable stages of extensions or additions to the Local Lines Works, but not interest during construction;
- (b) Carrying the burdens incident to the reduction in fares or other important changes injuriously affecting the Revenues of the Railway for the time being;
- (c) Preventing frequent or violent fluctuations in fares;
- (d) Promoting the continuous and consecutive monthly, quarterly or other periodic payment of the Return, including any accumulated deficits and interest thereon with respect thereto as in Sections XXXII and XXXV hereof provided; and
- (e) Providing for other purposes and uses as elsewhere herein authorized to be made from said Reserve.

Section XXXV—Reduction and Increase of Fares

Whenever after paying or providing for the authorized Return, the Repair, Maintenance and Depreciation Reserve is not less than Normal, and the Surplus Reserve exceeds Normal by fifty per cent. (50%), the then fares shall be reduced to the item next lower in amount in the Fares Schedule hereinafter set out, and if after operating six months under such lower item the Gross Receipts have been sufficient to pay and provide the Return and to maintain the said Repair, Maintenance and Depreciation Reserve at Normal and the Surplus Reserve shall then exceed Normal by more than thirty per cent. (30%), the then fares shall again be reduced to the item next lower in amount in the Fares Schedule.

A further reduction shall thereafter be made at intervals of six (6) months by steps each to the item next lower in amount in the Fares Schedule, until said Return being paid and the said Repair, Maintenance and Depreciation Reserve being Normal, said Surplus Reserve shall amount to less than ten per cent. (10%) in excess of Normal provided however that fares shall not be reduced until the Railway's earnings have been sufficient and available to pay the return for the period from the date when the Railway commenced to operate hereunder, together with interest at six per cent. (6%) on any deficiency of Return up to and including the date that any such reduction in fares is to become effective.

Whenever the Surplus Reserve is reduced to one-half of Normal the Railway shall have the right to increase its fares from the item then in force to the item next higher in amount in the Fares Schedule and if at the end of six months after such increase, said Surplus Reserve is less than eighty per cent. (80%) of Normal, the Railway shall have the right again to increase its fares from the item then in force to the item next higher in amount in the Fares Schedule and to continue to increase its fares by steps from the item then in force to the item next higher in amount in the Fares Schedule at intervals of not less than six months, until such Surplus Reserve is at least ninety per cent. (90%) of Normal, and thereafter the Railway shall not have the right to increase its fares until the Surplus Reserve is again reduced to one-half of Normal.

Change of Fares shall go into effect on the first day of the month following the existence of the conditions upon the existence of which the change is to be made.

Section XXXVI—Tickets at Discontinued Rates

On and after the date upon which any alteration in the rate of fares shall go into effect, the Railway shall have the right to refuse to accept in payment of fare tickets previously purchased at the discontinued rates, providing however the Railway shall upon demand redeem all such tickets at the prices or rates at which they were sold; provided further that any tickets for which a higher rate has been paid than the fare then in force shall at the option of the holder be accepted as fare.

Section XXXVII—Investments or Advances from Reserves

The Railway may from time to time, at its discretion, use so much of the Repair, Maintenance and Depreciation Reserve and/or of the Surplus Reserve, as may not immediately be required for its proper purposes, in making advances to the Railway's treasury to provide facilities for serving the public, or invest the same in Dominion or Provincial Government Bonds but in no event shall any such funds so invested or property acquired therewith be included in Property Value. All interest from such investments shall form a part of Gross Receipts.

Section XXXVIII—Statements to Corporation—Uniform System of Accounts

The Railway shall, as soon as possible after the end of each fiscal year, supply to the Corporation a statement showing Property Value, all reserves, receipts and expenditures and Operating Expenses for the preceding Calendar year in respect to Local Lines. The Corporation shall have the right to verify all such statements by audit and for that purpose all books of account, invoices, documents, cost sheets, pay sheets and other vouchers and receipts shall be available and open during ordinary business hours to inspection by a competent Accountant to be appointed by the Corporation for a period of thirty days after such statement shall have been furnished to the Corporation.

In order to facilitate such audit the Railway shall keep its books in accordance with the Uniform System of Accounts for Electric Railways prescribed by the Interstate Commerce Commission except as herein otherwise specifically provided.

Section XXXIX—Part Maintenance of Local and Interurban Lines on Car Mileage Basis

The Railway shall appropriate out of the Revenues of Interurban Lines and Special Lines and apply towards the cost of maintenance of and cost of the power used on such portion of the Local Lines over which the Interurban or Special Line cars operate a proportion of such cost of maintenance and cost of power equal to the proportion which the car mileage of the Interurban Lines and Special Lines respectively over such portion of the Local Lines bears to the total car mileage of all cars over such portion.

The Railway shall also appropriate, out of the Revenues of the Local Lines and apply towards the cost of maintenance of and of power used on such portion of the Interurban Lines of the Railway over which cars other than Interurban cars operate, a portion of such cost of maintenance and of power used equal to the proportion which the car mileage of such cars other than Interurban cars over such portion of the Interurban Lines bears to the total car mileage of all cars over such portion.

In computing such proportion an electric locomotive shall count as one car and a trailer shall count as one car.

Section XL—Fares Schedule

The following Fares Schedule shall apply to the operation of the Local Lines under this Agreement:

Item	Adults		Night Fare 12:30 a.m. to 5:30 a.m.	Children 51 inches in height and under		School Children
	Cash	Tickets	Cash	Cash	Tickets	Tickets
A	5c.	5 for 25c.	10c.	3c.	9 for 25c.	7 for 25c.
B	6c.	9 for 50c.	10c.	3c.	9 for 25c.	7 for 25c.
C	7c.	4 for 25c.	15c.	4c.	7 for 25c.	7 for 25c.
D	8c.	7 for 50c.	15c.	4c.	7 for 25c.	7 for 25c.
E	9c.	6 for 50c.	15c.	5c.	6 for 25c.	6 for 25c.

Nothing herein contained shall prevent the Railway from making special rates for special or chartered cars, or other special or excursion service, which the Railway shall have the right to do.

The rates of fare for children set forth herein shall apply to any child fifty-one inches in height or less. No child other than an infant in arms shall be carried free.

Children under sixteen years of age, being bona fide pupils in regular attendance at some school situate within the "City" or within two miles thereof shall be carried on the Local Lines operated hereunder at the rates of Fare mentioned in the Fares Schedule for "School Children" upon presentation of School Children's tickets to be provided and purchased at the Railway's office by persons exhibiting identification Certificates signed by the Principal or Head Teacher of the School and entitled to such rates.

"School Children's Tickets" shall be accepted for transportation of those entitled between the hours of 8 a.m. and 9.30 a.m., 12 noon and 2.00 p.m., and 3.30 p.m. and 5 p.m.

The Conductor may before accepting a "School Children's Ticket" for transportation require the person presenting the same to produce his or her identification certificate and on failure to produce the same may require such person to pay the fare at the rate then in force for adults.

Each of the foregoing rates of fare, when in force, shall be the rate of fare for a single continuous journey in one direction over any route of the Local Lines.

At all times any passenger demanding a transfer ticket at the time of paying such cash or ticket rate of fare as shall then be in force shall be entitled to transfer without additional charge from any route of the Local Lines on which he shall have paid such fare to any other route of the Local Lines.

Such passenger shall be entitled to such transfer only at the point where the routes meet or intersect, or at any other points fixed by the Railway so as to enable such passenger to go without stop-over from one point direct and by first car passing such transfer point to another point on the Local Lines.

The payment of one fare shall not in any case entitle the passenger to return to the vicinity of his starting point. The intention is that the Railway shall carry the passenger for a continuous journey on its Local Lines so long as such journey is continued in the same general direction.

The transfer issued to the passenger shall designate the point or place of transfer and the transfer must be used at such point only and within the time limited by the transfer.

If the cars of two or more routes are operated regularly along the same street, passengers who are able to reach their destination by one of said routes, without transfer to another of said routes, shall board a car upon the route reaching such destination, and shall not be entitled to transfer thereto from any other route.

Without limitation by the preceding enumeration the Railway may make such reasonable regulations and conditions with respect to transfers and conduct of passengers on cars as may be approved by the Railway Board.

Section XLI—Additions to Fares Schedule

Whenever, Item "A" of the Fares Schedule being in force, the Gross Receipts shall be more than sufficient to provide for the Operating Expenses, the Return and the Reserves and the Surplus Reserve shall exceed Normal by fifty per cent. (50%) and these conditions shall have existed for a period of not less than six months, the Railway and the Corporation by Agreement, or in default of agreement, the Railway Board shall add to the Fares Schedule an item or items of Fares lower in amount than Item "A" and whenever the Gross Receipts, Item "E" of the Fares Schedule being in force, shall be insufficient to provide for Operating Expenses, the Return, the Reserves and the reduction of Property Value mentioned in Sub-paragraph (b) of Definition 15 of Section I hereof, as provided for in Section XXXI, the Railway Board, upon the application of the Railway, may add to the Fares Schedule an Item or Items of Fares higher in amount than said Item "E." Such additional Items of Fare shall forthwith be added to the Fares Schedule and form part of this Agreement and Section XXXV shall apply thereto.

Section XLII—Policemen and Employees Free

Policemen in the employment of the Corporation when on duty and in uniform shall be carried by the Railway on its Local Lines without charge and the Railway may carry without charge its officers and employees and others engaged in any work connected with the Railway and those entitled by Statute to free transportation.

Section XLIII—Franchise for Fifteen Years or Until Purchase

The rights and franchises hereby granted shall as applied to Local Lines continue until such time as the Corporation shall purchase and pay for the Railway's Local Lines Works and such joint Railway Works as are mentioned in Schedule "B."

The Railway grants to the Corporation and the Corporation hereby reserves to itself the right at the expiration of fifteen years from the date hereof and at intervals of five years thereafter, in either case on one Year's previous notice in writing to the Railway, to terminate this franchise, subject however to all the provisions of this Agreement respecting the rights upon and subsequent to such termination.

Upon the termination of this franchise, in manner aforesaid, the Corporation agrees to purchase all and not less than all of the property mentioned in Section XLIV hereof.

In case the Corporation shall so purchase the property mentioned in said Section XLIV hereof, and before the said Corporation shall be entitled to possession of same, it shall pay the Railway the purchase prices of such property plus five per cent. (5%) of such prices; and upon the making of such payment the Railway shall deliver to the Corporation proper conveyances and transfers of all such property free from all encumbrances and make delivery thereof.

The Railway in case of such purchase shall also transfer to the Corporation the several Reserves herein provided for, together with all the then existing property acquired with payments made therefrom or from working capital; and also all working capital, receivables, cash and quick assets other than an amount to be deducted and retained from said Reserves to the extent available, equal to the amount of the then unpaid Return provided for in Sections XXXII and XXXV hereof; provided, however, that any working capital, which shall not have been added to Property Value, shall pass to the Corporation to such extent and to such extent only as the Corporation assumed indebtedness of the Railway not deducted from the purchase price by reason of such assumption.

Section XLIV—Property to be Taken at Termination and Purchase Prices

Upon the termination of this franchise the Corporation shall purchase and shall take over all and not less than all of the property mentioned in this Section and pay for the same the purchase prices hereinafter mentioned.

(1) Local Lines Works, included in "Property Value" at the date fixed for the Corporation to enter into possession, the purchase price to be the then Property Value as appears on the books of the Railway.

(2) Property shown in Schedule "A," referred to herein, which represents property necessary to or used in the operation of "Local Lines" hereunder but which is not included in "Property Value," as defined in Definition 15 hereof.

(3) Property, if any, shown in Schedule "B" hereinafter referred to in Section XLVI; the purchase price to be the fair value thereof as a part of the Railway as a going concern, to be agreed upon between the City Engineer and the Railway's representative, nominated in writing for that purpose or, in default of agreement, fixed by the Railway Board.

There shall be deducted from the above purchase prices the following:

- (a) The total of all payments received by or due to the Railway from the sale of any of its assets or property which shall have been sold or otherwise disposed of by the Railway at any time prior to the time upon which the Corporation shall be entitled to enter into possession of the same and for which no corresponding reduction from Property Value or from Schedules "A" or "B" has been made.
- (b) All amounts added to Property Value which the Railway may have expended for the purpose of making Extensions, Betterments or Improvements out of moneys from the Repair, Maintenance and Depreciation Reserve or out of Surplus Reserve.
- (c) The amounts of all liabilities for operating expenses, which liabilities the Corporation shall assume.

Section XLV—Schedule "A," Preparation and Delivery

Within one year after the time fixed by Section XIV hereof for the construction and completion of the Local Lines Works, or upon notice being given by the Corporation to terminate this franchise, the Railway shall prepare and deliver to the Corporation a list, referred to as Schedule "A," setting forth items of property, with the values thereof, which said items of property are necessary to or used in connection with "Local Lines" but which are not included in "Property Value."

The values shall be the fair value thereof, as a part of the Railway as a going concern, at the time of the coming into effect of this agreement and having regard to the depreciated condition of the several items and their then useful life.

The provisions of this agreement as to repair, maintenance and depreciation and the Repair, Maintenance and Depreciation Reserve shall be applicable to the items of property in Schedule "A."

Section XLVI—Schedule "B," Preparation and Delivery

Within thirty days after notice given by the Corporation to terminate the franchise hereby granted, the Railway shall prepare and deliver to the Corporation a list referred to as Schedule "B," setting forth items of property, if any, with the values thereof, which said items of property come within the definition of Joint Railway Works, and which the Railway claims are proper to be taken over and paid for by the Corporation as necessary or convenient for the operation of the Local Lines and which the Railway does not desire to retain.

In respect to such items of property as the Railway may retain, the Corporation hereby agrees to provide access on an equitable basis for the Railway to such properties for their convenient and proper use by the Railway; and in respect to such items of property from which the Corporation may desire service for the "Local Lines," the Railway hereby agrees to provide such service on an equitable basis to be determined by agreement between the parties hereto or failing which by the Railway Board. It is agreed, however, between the parties hereto that the obligation herein to provide such service shall not require the Railway to provide additional facilities therefor, by capital expenditure.

Section XLVII—Fixing Purchase Prices, Schedules "A" and "B"

The Corporation shall within one month after delivery of said Schedule "A" or Schedule "B" or both, notify the Railway whether it agrees to the items and values set forth in the said Schedules or either or both. If the Corporation agrees to same the parties hereto shall sign and seal the same and each shall then be added to and become part of this Agreement. If, however, the Corporation does not agree thereto, it shall, within one month from the receipt of such Schedule "A" or Schedule "B," notify the Railway accordingly, and thereupon the City Engineer and a representative of the Railway, to be nominated in writing for that purpose, shall immediately meet and if possible agree upon the said items and values. In default of agreement the matter shall be determined by the Railway Board. Upon agreement by the City Engineer and the representative of the Railway aforesaid, or upon the determination of the matter by the Railway Board, Schedule "A" or Schedule "B" or both, as the case may be, shall be signed either by the City Engineer and the said representative of the Railway or by the Chairman or Secretary of the Railway Board and shall thereupon be thereby added to and form part of this agreement.

The items and values fixed as in this Section provided shall form Schedules "A" and "B" respectively and the sum of the values of the items in each shall be the purchase price mentioned in Section XLIV, Subsections (2) and (3) respectively.

Section XLVIII—Indemnity by Corporation on Termination

The Corporation shall, upon the termination of this franchise, indemnify and save the Railway harmless from all claims, demands and/or obligations whatsoever, with respect to Local Lines Works and the operation of Local Lines.

Section XLIX—Maintenance Bridges, New Street

It is agreed between the parties hereto that all cost of maintenance, for which the parties hereto are or may be liable, of the overhead bridges referred to in Section IV hereof, shall during the currency of this Agreement be borne one-half by each of the parties hereto. Thereafter the cost of such maintenance shall be borne in such proportions as may be agreed upon or, failing agreement, in such proportions as may be ordered by the Railway Board.

Section L—Further Assurance by By-law, etc.

The Corporation shall from time to time pass such By-laws and resolutions, take such action and do such things as may be reasonably requested by the Railway for the purpose of fully effectuating the objects and intent

of this Agreement, and more particularly such By-laws as the Railway may request and as the Corporation may lawfully pass to enable the Railway to enforce the provisions of Section II and VI hereof.

Section LI—Parties to Co-operate

The Railway and the Corporation covenant and agree each with the other:

- (a) To carry out the agreements and provisions herein contained.
- (b) To co-operate by all means in the power of each of them at all times to create the most favourable conditions for the carrying out of the objects of the agreement and all or any By-laws pertaining hereto.
- (c) To co-operate in obtaining the ratification of this agreement forthwith by act of the Legislative Assembly of the Province of Ontario.
- (d) To apply to the said Legislature for such powers as will enable the Corporation to do, perform and carry out each and every the agreements and covenants on its part to be done, performed or carried out.

Section LII—Notices

Any notice to be given under any of the provisions hereof may be effectually given to the Corporation by delivery of the same to the Mayor or other Chief Officer or to the City Clerk, or to the Railway by delivering the same to some adult person in the office of the Railway at the City of Niagara Falls. Any such notice may also be effectually given by registered letter prepaid and deposited in one of His Majesty's Post Offices, either in Niagara Falls or Toronto, addressed, if to the Corporation, to "The Mayor of Niagara Falls" at Niagara Falls, Ontario, or if to the Railway, to the "Manager of Canadian National Electric Railways" at Toronto, Ontario. If by registered letter as aforesaid the notice shall be deemed to have been given on the day of the posting thereof.

Section LIII—Initial Fares, Item "C"

Upon the coming into effect of this Agreement, Item "C" of the Fares Schedule shall apply and come into force and shall continue to apply and be in force until the inclusion in Property Value of all expenditures for Local Lines Works included in the Initial Scheme and thereafter until, under the provisions hereof, some other Item of the Fares Schedule comes into force, and in any event until the thirty-first day of December, 1925.

Section LIV—Interpretation by Judge, S.C.O.—Disputes Settled by Railway Board

In case any disagreement or dispute shall arise as to the construction of this Agreement or any part thereof, as to the legal effect thereof, or any part thereof, or as to any point or points of law arising out of or under this Agreement, such disagreement or dispute shall be heard and determined upon originating notice by a Judge of the Supreme Court of Ontario, and the Rules of the Supreme Court of Ontario in regard to originating notices shall be applicable. The decision of the Judge shall, subject to such appeal as may be provided for by the said Rules or the Judicature Act in the case of matters before the Court on originating Notice, be final and conclusive. In case of any disagreement or dispute other than as above mentioned, the same shall be referred to the Railway Board, whose decision thereon shall be final and conclusive. The Railway Board shall also hear and determine any question of construction, of legal effect or of law incidental to any application before it.

Section LV—Interurban Running Rights

The Corporation hereby grants to the Railway and agrees that the Railway shall have for the passenger traffic of its Interurban Lines running

rights, that is the right to operate its cars, or other means of transportation, and the right to the use of all facilities, including power lines and overhead works, on the tracks of the Local Lines or upon the Streets; on Victoria Avenue from Bridge Street to such point on Victoria Avenue, South of McDougall Avenue, as will enable the Railway's cars to reach the Private Right of Way referred to in Section I, Definition 15, Paragraph (c), Sub-paragraph (1) hereof and on such other street or streets as may from time to time be agreed upon by the Corporation and the Railway, or in default of agreement ordered by the Railway Board and upon the tracks of all other Local Lines for excursions or other traffic and for connecting with the Railway of the International Railway Company or other Railway, all upon a car mileage basis both as to maintenance and power as provided by Section XXXIX hereof.

If any dispute shall arise as to the said Running Rights, or the amount to be appropriated or credited to the Local Lines operation upon the said basis, the same shall be heard and determined by the Railway Board.

The Corporation also hereby grants to the Railway the right to maintain its tracks upon and to cross with its cars, or other means of transportation used in its Interurban service, all streets intersected by the Local Lines upon which the Railway has running rights or intersected by the Private Rights of Way of the Railway.

After the termination of this franchise by the purchase of the Corporation of the Local Lines Works or otherwise the Railway may continue thereafter to operate its Interurban Cars or service over the established lines upon the car mileage basis mentioned in Section XXXIX hereof; but at the expiration of any five-year period thereafter either the Railway or the Corporation may apply to the Railway Board for a readjustment of the terms upon which the Interurban cars or service may thereafter be operated and thereafter they shall be operated upon such terms as the Railway Board orders.

Section LVI—Abandonment by Railway

If the Gross Receipts, under the most favourable conditions then existing and provided for in this Agreement, shall be insufficient to provide for Operating Expenses, the Return and the Reserves, for any period in excess of three years, after the 1st day of January, 1925, the Railway shall have the right to abandon this Agreement upon three months' notice to the Corporation. At the expiration of three months after Notice of Abandonment, if the Corporation does not purchase under the provisions hereof in that behalf, this Agreement shall thereupon cease, determine and be utterly void, except that the Railway may at its option continue to use the tracks then in use for Interurban Service upon such terms as the Railway Board may fix and, in case the Corporation does not purchase as aforesaid, may sell or remove any of the Railway works.

The permission of the Corporation to use for Interurban cars any Local Line other than that on Victoria Avenue from Bridge Street to the point south of McDougall Avenue mentioned in Section LV, shall not be construed so as to make such Local Line a line or the tracks thereon tracks "then in use for Interurban service" within the meaning of the above paragraph of this Section.

If not removed within one year after the expiration of the three months after notice of abandonment, all the right, title and interest of the Railway of, in and to the Local Lines Works shall, except as aforesaid, pass to and become the property of the Corporation.

Section LVII—Modern Equipment and Appliances

The Railway shall adopt and use suitable modern equipment and appliances. The adoption and use of any equipment or appliance approved by the Railway Board shall be taken to be a compliance with the provisions of this Section. In any event the Railway shall use for open track construction rails weighing not less than 85 pounds per yard and for tracks in pavement rails weighing not less than 103 pounds per yard. Rails in pavement shall have properly welded joints.

Section LVIII—Rails to Conform to Grade

1. The Rails of the Railway shall conform to the grade of the highway.
2. Where the Rails are laid upon the graded or travelled portion of a highway, or on any part thereof, they shall be laid, as nearly as practicable, flush with the highway and so as to cause the least possible impediment to the ordinary traffic and shall be so kept and maintained by the Railway.

Section LIX—Busses and Trackless Trolleys

It is contemplated by this Agreement that busses or trackless trolleys or some other means of transportation may be adopted and used either in substitution for or in addition to the Local Lines herein specifically mentioned or parts thereof and in that event should any question arise as to whether a bus line should be established and operated or other means of transportation should be adopted the matter shall, in default of agreement between the parties in respect thereto, be referred to the Railway Board for hearing and determination and the decision of the Railway Board thereon shall be final.

It is agreed that the Railway shall not be required to establish or operate any Bus Line or other addition to the Local Lines as herein specifically mentioned, unless and until it is made to appear that the operation thereof will yield sufficient additional Revenue to pay the operating expenses thereof, the Return at the Rates in this Agreement hereinbefore mentioned and a proportionate part of the Reserves hereinbefore provided for and shall not be a burden on the rest of the system.

Section LX—Transportation in Case of Strikes, etc.

Notwithstanding anything herein contained, should the Railway by reason of strikes, riots, act of God, or the public enemies, or from any other cause, fail to operate any portion of its Local Lines, the Corporation may grant or permit to be granted to some person, partnership, company or corporation the right to operate busses, jitneys, or other vehicles for the transportation of passengers over such portion as long as such failure continues.

Section LXI—Rate of Interurban Fare to City Limit and Terminal

The Railway hereby agrees that on its Interurban line it will from time to time establish a rate of fare to and from the City Limit, which shall be less than the rate of fare to and from the new Terminal, which it is contemplated shall be established at or near the Upper Arch Bridge, by the amount of the cash Fare of the item of the Fares Schedule from time to time in force.

Until such time as the Local Line on Stanley Street is in operation to the City Limit at intersection of the Railway's present Interurban right of way with Stanley Street, the City Limit shall be considered to be the corner of Queen Street and Victoria Avenue, and until such time and as a temporary measure, the Interurban cars shall carry local passengers from Stanley Street or Fourth Avenue to the Local Lines and upon payment of fare at the item of the Fares Schedule in force, the passenger shall be entitled to a transfer to any Local Line and there shall be furnished to any passenger paying his fare on a Local Line upon request a transfer which shall entitle such passenger to ride to Stanley Street or Fourth Avenue on the Interurban cars.

In respect of this temporary arrangement the fares and tickets collected on the Interurban cars shall form part of the Gross Receipts of the Interurban Lines and the fares and tickets collected on the Local Lines shall form part of the Gross Receipts of the Local Lines, and the Local Lines shall redeem in cash all Local Line tickets collected on Interurban cars.

Section LXII—Local Lines in Case Stamford Does Not Agree

Should the Railway fail to reach an agreement with the Council of the Municipal Corporation of the Township of Stamford, or should the Muni-

cial Electors of said Township refuse to assent to a by-law of such Township authorizing the execution of such Agreement as may be made for the construction, reconstruction and operation of those parts of the Local Lines within said Township, the Local Lines hereunder shall, until the coming into effect of an agreement between the Railway and the Corporation of said Township, be those Local Lines only situate wholly within the City.

Section LXIII—Subject to Appropriation

This Agreement is made subject to the appropriation by the Parliament of Canada of the moneys required for the capital expenditures herein agreed to be made by the Railway.

IN WITNESS WHEREOF the parties hereto have hereunto affixed their seals, attested by the proper officers in that behalf.

If the Railway fails to re-locate any pole, within the time mentioned in the notice, which shall be not less than five days, the Corporation may itself re-locate such pole, and the Railway shall thereupon pay to the Corporation one-half of the cost of such re-location.

Section VIII—Use of Poles

For the purpose of preventing duplication of poles as far as practicable, the Corporation shall have the right to use the Railway's poles for carrying the wires of the Corporation's Police and Fire Alarm Systems, provided such poles shall not be so used as to interfere in any way with the use of such poles by the Railway, and provided further that such use by the Corporation shall not entail any additional cost or expense to the Railway, and in that event only upon payment by the Corporation of such additional cost or expense, and so far as practicable, and only so far as the Corporation's authority extends, the Railway shall have the right to use any poles over which the Corporation has control, provided such use by the Railway shall not entail any additional cost or expense to the Corporation and in that event only upon payment by the Railway of such additional cost or expense.

Section X—Maintenance and Repair of Streets

The Corporation shall maintain the streets where the Railway has its tracks, in proper repair; provided that, whenever the pavement or surface is taken out by the Railway for the purpose of maintenance, or where the foundation of the Railway works proves defective or insufficient, the Railway shall forthwith repair the street, and restore the same to its former condition at its own expense, and any amount so expended shall be charged to maintenance. Any liability which may be created or any injury or damage which may be occasioned to any person by reason of the non-repair of any street shall be borne by the party in default. Section XII—Fixed Assessment

The Corporation hereby grants to the Railway, for the period of the franchise hereby granted, a fixed assessment of Twenty Thousand dollars, upon all the real and personal property comprising the Local Lines Works, for all purposes of Municipal Taxation including business tax and school rates, but not including Local Improvement rates.

Section XIII—Commencement of Work

The Railway shall commence to construct and re-construct the Local Lines Works within ten days from the date upon which the Act of the Legislature ratifying this Agreement referred to herein shall come into force.

Local Lines Works additional comprised in the Complete Scheme on or before such date as may be agreed upon between the parties hereto; PROVIDED, however, that if it is agreed between the Railway and the Corporation that the public interest will be better served by extending at any time, or from time to time, the period for constructing such Railway Works, or any part thereof, such period may be extended. As expenditures are from time to time made for the construction or reconstruction or rehabilitation of said Local Lines Works, the total amount thereof shall be added to the Property Value.

Section XV—Substitution of Other Streets

The Railway may, with the consent of the Corporation, expressed by Resolution of the Council, substitute any other street or streets or parts of streets for any street or streets or parts of streets herein named.

Section XVI—Further Extensions

If the Corporation or the Railway should consider that any extension, betterment or improvement other than those herein mentioned is desirable, either party may propose such other extension, betterment or improvement and the Railway shall prepare a statement showing in reasonable detail the estimated cost thereof, the probable expected revenue therefrom and the purpose for which such work is required, with plans and specifications showing the contemplated work necessary for the intelligent understanding of the same. Such extension, betterment or improvement shall not be undertaken if the same shall impair or jeopardize the then existing or estimated future ability of the Railway to earn, at the rate of fare provided for in item "C" of the Fare Schedule, the Return upon Property Value. The cost of any such extension, betterment or improvement shall be added to Property Value.

Section XVII—Transport of Material, Etc.

The Railway shall have the right to transport as freight over the Local Lines, free of any charge, all material, tools, machinery and plant intended for use in the construction, reconstruction, maintenance and repair of its Railway works.

Section XVIII—Removal of Material

In constructing or reconstructing its tracks the Railway, after having made the excavations and placed the rails and other necessary apparatus, shall remove the surplus earth and other materials taken from the excavations and shall reconstruct at its own expense that part of the street where it has so excavated to lay its tracks, in order to place the same in the same condition as it was when the excavation was made, and for that purpose shall use the materials which the Corporation shall consider the most advantageous, provided such materials be of the same quality as those employed for the pavement of the street so excavated at the time such excavation was made. But if the Corporation avails itself of such excavation to substitute another and more expensive kind of pavement in the said street or streets, in whole or in part, the Railway shall then have the right to recover from the Corporation the excess of the cost. The Corporation may itself, however, construct such new kind of pavement but it shall charge to the Railway and the Railway shall pay only the amount which the latter would have been called upon to spend to restore the street to its former condition.

This Section shall apply to streets upon which there are permanent pavements at the time of constructing or reconstructing any of the Railway's tracks.

Section XIX—Foundation for Track Allowance

The Railway shall provide a proper foundation for its Track Allowance, and in the event of the Corporation constructing a pavement on any street occupied by the Railway for Railway Works, the Railway shall, subject to the provisions of Section XX hereof, if so required by the Corporation, provide materials and labour and do all things necessary

to complete the pavement of the Track Allowance at the cost of the Corporation to be paid for by the Corporation immediately upon completion.

(a) The Corporation may with respect to the cost of the pavement of the New Street and of the Track Allowance (including therein only the allowance for one track being seven feet eight and one-half inches in width on any street), issue debentures bearing interest at $5\frac{1}{2}\%$ per annum and having coupons attached thereto for the payment of the interest, such debentures to be payable in equal annual instalments of principal and interest during the period of ten years from the date of issue thereof respectively. The proceeds of the sale of the said debentures shall be applied only for the purpose of paying the said cost.

The Railway agrees that the amount of the principal and interest of any such debentures issued for paving the Track Allowance shall be repaid to the Corporation out of any surplus Gross Receipts, item "C" of the Fares Schedule being in effect, after providing for the payments and applications mentioned in section XXXI hereof.

. Section XX—Cost of Paving

If the Corporation requires the Railway to complete the paving within the limits of its Track Allowance on any street, the Corporation shall pay to the Railway the cost which the Corporation would have had to pay for paving, including a six inch (6") concrete foundation for same, within such limits and the basis of computation of such cost shall be the cost to the Corporation of similar paving work based on actual current costs, or failing which, based on a reasonable estimate of such cost to be agreed upon between the Railway's representative and the City Engineer.

The Corporation, shall not, in any case, be liable for any part of the cost of pavement constructed outside the city.

Section XXI—Foundations on Streets Where Open Track Construction When Paved

If and when the Corporation shall decide to construct a permanent pavement upon any street upon which there are tracks of the Railway of open track construction, the Railway, upon receipt of notice that the Corporation intends to construct such permanent pavement, shall within six months thereafter lay at its expense a proper foundation for its Track Allowance on such street.

Section XXII—Verification of Cost of Paving

The Corporation shall permit the Railway to investigate and verify from its records the cost of paving mentioned in Section XX as the basis of computation.

Section XXIII—Electrolysis

The Railway, when operating any portion of its Railway by means of electricity, shall use the most effective means of preventing, as far as possible, damage by electrolysis; and the Corporation agrees to co-operate with the Railway in considering and deciding upon the most effective means to be used and in respect to all future work to be done by the Corporation it also shall use in connection therewith such means as shall then be known and generally adopted to prevent, as far as possible, damage by electrolysis.

Section XXIV—Delay by Strikes or Other Causes

Should the Railway be unable by reason of strikes, or non-delivery of material or other causes, beyond its control, to complete any of the Local Lines Works and operate same as herein provided for within the period of time permitted for such purpose, the Corporation shall in every case upon the application of the Railway grant the Railway a reasonable extension within which to complete the said Local Lines Works.

Section XXV—Insurance

The Railway shall at all times by some reasonable insurance system keep its properties insured to the full amount of their insurable value.

In case of the loss of or damage to property included in "Property Value", or Schedules "A" or "B", if the same is replaced there shall be no alteration thereby in "Property Value" or either of the said Schedules. If the same is not replaced or repaired an amount shall be deducted from "Property Value", or Schedule "A" or "B", equal to the value of the item or items in "Property Value", or Schedules "A" or "B", as the case may be, or to the extent of the damage thereto. If the replacement or repair is not to the full extent of the loss or damage, the difference between the actual amount spent for replacement or repair and the value of the item or items lost or damaged, as the same appear in "Property Value", or Schedules "A" or "B", shall be deducted from "Property Value", or Schedules "A" or "B" as the case may be.

Section XXVI—Right of Way for Cars on Track Allowance

The cars of the Railway shall have the right to use the Track Allowance as against all other traffic whatsoever, and all other traffic on the Track Allowance, whether meeting, proceeding in the same direction or crossing, shall turn out and off the Track Allowance and permit the said cars to pass, and shall in no case and under no pretence whatever obstruct or hinder the passage thereof and the free use of the Track Allowance by the cars of the Railway.

Section XXVII—Removal of Tracks, Etc., for Municipal Works

When and so often as it may be necessary for the Corporation to remove the tracks of the Railway or otherwise to interfere with the Railway's property in order to carry out any municipal work in a street where the Railway has its tracks, such work, including the restoration of the Railway's property to its condition immediately prior to the said interference, shall be done by the Corporation at its cost. If the Corporation so requests, the Railway shall rebuild or restore at the Corporation's expense that portion of the Railway's property so affected.

Section XXVIII—Moving Buildings

The Railway shall on receipt of notice from the City Engineer that he has granted a permit to anyone to move or transport any building, structure or other object on or over any street, part of which is occupied by the Railway for Track Allowance, make such arrangement with respect to the operation of the Railway, including the Interurban cars, as may be necessary during the time of the transportation of such building, structure or other object whether by temporary re-routing of cars, cessation of operation, or otherwise as the occasion may require, and shall adopt all precautions necessary for the protection and safety of passengers and of all railway works against accident, damages or danger and the Corporation shall be under no obligation or expense to the Railway for or by reason of the moving or transportation of such building, structure or object or anything which may happen or flow therefrom, provided that the Railway shall not be required to remove or disturb any portion of its railway works, except at the expense of the person to whom the permit for moving or transportation of such building, structure or object has been granted, and before such removal or disturbance the Railway shall make an estimate of the cost, the amount of which estimate shall be paid or deposited with the Railway before such removal or disturbance is undertaken. If the actual cost is less than the estimate, the amount of the difference shall be immediately refunded by the Railway to the person who paid it or, if the actual cost exceeds the amount of such estimate, the amount of such excess shall be immediately paid by such person to the Railway.

Section XXIX—Right of Fire Chief to Cut Wires, Etc.

If in case of fire the Chief of the Fire Department of the Corporation, or other officer thereof for the time being in charge of such Department,

shall deem it necessary to cut or pull down any part of the overhead equipment of the Railway which in his judgment obstructs the operations of the firemen in fighting a fire, he shall have the right to direct the same to be cut or pulled down and he may also for the same purpose direct that the transmission of electrical power be immediately stopped and that operation of cars shall cease opposite to or near the scene of the fire for such period and to such extent as he may deem necessary and the Corporation shall not incur any responsibility or liability to the Railway for anything so done or for any damage, injury or expense thereby caused.

Section XXX—Removal of Snow

The Railway shall remove the snow from its Track Allowance, but any snow put upon the travelled part of the highway by the Railway shall be evenly spread thereon by the Railway in a manner to be approved by the City Engineer.

If the Corporation removes the snow from any street upon which the Railway has its tracks, the Railway shall pay to the Corporation one quarter of the cost of such removal on streets or portions of streets upon which there is a single track and one third of such cost on streets or portions of streets where there is a double track. Such payment shall be made in thirty days after the account for same is rendered. The Railway shall have the right to inspect and verify all books, pay sheets and vouchers of the Corporation in respect to any account rendered for snow removal.

Section XXXI—Application of Gross Receipts

"Gross Receipts" shall be applied as follows:—The Railway shall at the beginning of each Calendar month apply the Gross Receipts of the Calendar month next preceding for the purposes and in the order following, viz.:—

- (1) To pay operating expenses.
- (2) To apply towards the creation and maintenance of the Repair, Maintenance and Depreciation Reserve an amount equal to ten per cent. (10%) of the Gross Receipts for such month.
- (3) To provide and pay (after meeting the requirements of the foregoing paragraphs (1) and (2) the herein authorized Return upon Property Value at the rate then applicable and to the extent set forth in Sections XXXII and XXXV hereof.
- (4) To add (after meeting the requirements of the foregoing paragraphs (1) to (3) inclusive) the balance of Gross Receipts for such month then remaining to said Repair, Maintenance and Depreciation Reserve until the total additions thereto from all sources for the portion of the then current Calendar year up to the end of such month shall amount to eighteen per cent. (18%) of the total Gross Receipts derived during said portion of such year.
- (5) To add (after meeting the requirements of the foregoing paragraphs (1) to (4) inclusive) from the balance of Gross Receipts of such month then remaining, provided that the contributions to said Repair, Maintenance and Depreciation Reserve from all sources in any Calendar year or years shall have been less for any such year or years than eighteen per cent. (18%) of the total Gross Receipts derived in such year or years, further amounts to said Repair, Maintenance and Depreciation Reserve up to the amount of such deficit.
- (6) To apply (after meeting the requirements of the foregoing paragraphs (1) to (5) inclusive) the balance of the Gross Receipts for such month from all sources to the creation and maintenance of Surplus Reserve. When the amount of the Surplus Reserve is equal to eight per cent. (8%) of the contemporaneous Property Value, and of the sum of the values of the items in Schedule "A," such reserve shall be considered Normal.

- (7) To apply, after Surplus Reserve has reached Normal, the balance of the Gross Receipts for such month to the reduction of the item of Property Value mentioned in Section I, paragraph 15, sub-paragraph (c) hereof, until the same has been reduced to zero, when no further application of Gross Receipts shall be made under this Paragraph.

The obligation of the Railway to make the applications and additions to the Repair, Maintenance and Depreciation Reserve in accordance with the provisions of Paragraphs (4) and (5) of this Section shall be suspended when and so long as the total of such Reserve equals or exceeds Normal.

The Repair, Maintenance and Depreciation Reserve shall be considered Normal when the amount of such Reserve equals ten per cent. (10%) of the contemporaneous Property Value, and of the sum of the values of the items in Schedule "A".

Should the percentages mentioned in this Section prove to be out of proportion, or either inadequate or too great, any percentage may be altered by agreement between the parties hereto.

Section XXXII—Authorized Return

It is agreed that the Return which the Railway shall be authorized to receive shall be at the rate of six per cent. (6%) per annum on Property Value, as same is determined from time to time in accordance herewith, during the period or periods that the fares provided for in items (C), (D) or (E), or items higher in amount, of the Fares Schedule hereinafter set forth are charged, and for every reduction in fares to items lower in amount than item (C) in such Fares Schedule, the rate of return shall be increased by one per cent. (1%) on Property Value for each reduction of one item in said Fares Schedule, and if at any time hereafter the fares charged shall be thus fixed in any item lower in amount than Item (C) and shall be increased to items higher in amount in said Fares Schedule, the then prevailing rate of return shall correspondingly be reduced step by step by one per cent. (1%) on Property Value for each increase of one item in said Fares Schedule so that whenever Item (C), (D) or (E), or an Item higher in amount, of the Fares Schedule is in force the rate of return shall be six per cent. (6%) on Property Value.

Section XXXIII—Repair, Maintenance and Depreciation Reserve

The Railway covenants that it will at all times keep all its property in good and reasonable order and repair and as a whole in a condition to give effective service. To this end and to the end also that replacements and renewals may be made from time to time as necessary to maintain the property including the items in Schedule "A", in such condition and to offset depreciation in the physical condition of the property as a whole, and that new types of equipment may be introduced to supersede those that have become antiquated or obsolete according to commonly accepted commercial standards in the business, the Railway will set up in the manner herein provided a Repair, Maintenance and Depreciation Reserve and will use the same when and to the extent necessary for such purposes and for those purposes only save as herein otherwise provided.

Whenever the Repair, Maintenance and Depreciation Reserve is below Normal, as defined in Section XXXI hereof, the Railway, if it shall desire so to do, may build the same up to Normal by increasing the monthly or other periodic additions or by making transfers to it from the Surplus Reserve; and if the Surplus Reserve is more than ten per cent. (10%) above Normal, as defined in Section XXXI, Paragraph (6) hereof and the Repair, Maintenance and Depreciation Reserve is below Normal, the Railway shall make transfers from the Surplus Reserve so far as the same will thereunto extend, to said Repair, Maintenance and Depreciation Reserve to the extent necessary to build it up to Normal, but this obligation shall not operate to require the Railway to make any transfer from the Surplus Reserve which will reduce it to less than ten per cent. (10%) above Normal.

Section XXXIV—Surplus Reserve

Surplus Reserve whether above or below Normal, as defined in Section XXXI, Paragraph (6) shall be available for and may be used as an equalizing fund to promote the orderly and economical operation and development of the Railway's business, and to provide for any unexpected or unusual contingencies or reverses therein and to this end (but without limitation of the foregoing) the Surplus Reserve shall be available specifically to aid in:

- (a) Carrying temporarily the charges or burdens incident to any unprofitable stages of extensions or additions to the Local Lines Works, but not interest during construction;
- (b) Carrying the burdens incident to the reduction in fares or other important changes injuriously affecting the Revenues of the Railway for the time being;
- (c) Preventing frequent or violent fluctuations in fares;
- (d) Promoting the continuous and consecutive monthly, quarterly or other periodic payment of the Return, including any accumulated deficits and interest thereon with respect thereto as in Sections XXXII and XXXV hereof provided; and
- (e) Providing for other purposes and uses as elsewhere herein authorized to be made from said Reserve.

Section XXXV—Reduction and Increase of Fares

Whenever after paying or providing for the authorized Return, the Repair, Maintenance and Depreciation Reserve is not less than Normal, and the Surplus Reserve exceeds Normal by fifty per cent. (50%), the then fares shall be reduced to the item next lower in amount in the Fares Schedule hereinafter set out, and if after operating six months under such lower item the Gross Receipts have been sufficient to pay and provide the Return and to maintain the said Repair, Maintenance and Depreciation Reserve at Normal and the Surplus Reserve shall then exceed Normal by more than thirty per cent. (30%), the then fares shall again be reduced to the item next lower in amount in the Fares Schedule.

A further reduction shall thereafter be made at intervals of six (6) months by steps each to the item next lower in amount in the Fares Schedule, until said Return being paid and the said Repair, Maintenance and Depreciation Reserve being Normal, said Surplus Reserve shall amount to less than ten per cent. (10%) in excess of Normal provided however that fares shall not be reduced until the Railway's earnings have been sufficient and available to pay the return for the period from the date when the Railway commenced to operate hereunder, together with interest at six per cent. (6%) on any deficiency of Return up to and including the date that any such reduction in fares is to become effective.

Whenever the Surplus Reserve is reduced to one-half of Normal the Railway shall have the right to increase its fares from the item then in force to the item next higher in amount in the Fares Schedule and if at the end of six months after such increase, said Surplus Reserve is less than eighty per cent. (80%) of Normal, the Railway shall have the right again to increase its fares from the item then in force to the item next higher in amount in the Fares Schedule and to continue to increase its fares by steps from the item then in force to the item next higher in amount in the Fares Schedule at intervals of not less than six months, until such Surplus Reserve is at least ninety per cent. (90%) of Normal, and thereafter the Railway shall not have the right to increase its fares until the Surplus Reserve is again reduced to one-half of Normal.

Change of Fares shall go into effect on the first day of the month following the existence of the conditions upon the existence of which the change is to be made.

Section XXXVI—Tickets at Discontinued Rates

On and after the date upon which any alteration in the rate of fares shall go into effect, the Railway shall have the right to refuse to accept in payment of fare tickets previously purchased at the discontinued rates, providing however the Railway shall upon demand redeem all such tickets at the prices or rates at which they were sold; provided further that any tickets for which a higher rate has been paid than the fare then in force shall at the option of the holder be accepted as fare.

Section XXXVII—Investments or Advances from Reserves

The Railway may from time to time, at its discretion, use so much of the Repair, Maintenance and Depreciation Reserve and/or of the Surplus Reserve, as may not immediately be required for its proper purposes, in making advances to the Railway's treasury to provide facilities for serving the public, or invest the same in Dominion or Provincial Government Bonds but in no event shall any such funds so invested or property acquired therewith be included in Property Value. All interest from such investments shall form a part of Gross Receipts.

Section XXXVIII—Statements to Corporation—Uniform System of Accounts

The Railway shall, as soon as possible after the end of each fiscal year, supply to the Corporation a statement showing Property Value, all reserves, receipts and expenditures and Operating Expenses for the preceding Calendar year in respect to Local Lines. The Corporation shall have the right to verify all such statements by audit and for that purpose all books of account, invoices, documents, cost sheets, pay sheets and other vouchers and receipts shall be available and open during ordinary business hours to inspection by a competent Accountant to be appointed by the Corporation for a period of thirty days after such statement shall have been furnished to the Corporation.

In order to facilitate such audit the Railway shall keep its books in accordance with the Uniform System of Accounts for Electric Railways prescribed by the Interstate Commerce Commission except as herein otherwise specifically provided.

Section XXXIX—Part Maintenance of Local and Interurban Lines on Car Mileage Basis

The Railway shall appropriate out of the Revenues of Interurban Lines and Special Lines and apply towards the cost of maintenance of and cost of the power used on such portion of the Local Lines over which the Interurban or Special Line cars operate a proportion of such cost of maintenance and cost of power equal to the proportion which the car mileage of the Interurban Lines and Special Lines respectively over such portion of the Local Lines bears to the total car mileage of all cars over such portion.

The Railway shall also appropriate, out of the Revenues of the Local Lines and apply towards the cost of maintenance of and of power used on such portion of the Interurban Lines of the Railway over which cars other than Interurban cars operate, a portion of such cost of maintenance and of power used equal to the proportion which the car mileage of such cars other than Interurban cars over such portion of the Interurban Lines bears to the total car mileage of all cars over such portion.

In computing such proportion an electric locomotive shall count as one car and a trailer shall count as one car.

Section XL—Fares Schedule

The following Fares Schedule shall apply to the operation of the Local Lines under this Agreement:

	Adults		Night Fare 12:30 a.m. to 5:30 a.m.	Children 51 inches in height and under		School Children
Item	Cash	Tickets	Cash	Cash	Tickets	Tickets
A	5c.	5 for 25c.	10c.	3c.	9 for 25c.	7 for 25c.
B	6c.	9 for 50c.	10c.	3c.	9 for 25c.	7 for 25c.
C	7c.	4 for 25c.	15c.	4c.	7 for 25c.	7 for 25c.
D	8c.	7 for 50c.	15c.	4c.	7 for 25c.	7 for 25c.
E	9c.	6 for 50c.	15c.	5c.	6 for 25c.	6 for 25c.

Nothing herein contained shall prevent the Railway from making special rates for special or chartered cars, or other special or excursion service, which the Railway shall have the right to do.

The rates of fare for children set forth herein shall apply to any child fifty-one inches in height or less. No child other than an infant in arms shall be carried free.

Children under sixteen years of age, being bona fide pupils in regular attendance at some school situate within the "City" or within two miles thereof shall be carried on the Local Lines operated hereunder at the rates of Fare mentioned in the Fares Schedule for "School Children" upon presentation of School Children's tickets to be provided and purchased at the Railway's office by persons exhibiting identification Certificates signed by the Principal or Head Teacher of the School and entitled to such rates.

"School Children's Tickets" shall be accepted for transportation of those entitled between the hours of 8 a.m. and 9.30 a.m., 12 noon and 2.00 p.m., and 3.30 p.m. and 5 p.m.

The Conductor may before accepting a "School Children's Ticket" for transportation require the person presenting the same to produce his or her identification certificate and on failure to produce the same may require such person to pay the fare at the rate then in force for adults.

Each of the foregoing rates of fare, when in force, shall be the rate of fare for a single continuous journey in one direction over any route of the Local Lines.

At all times any passenger demanding a transfer ticket at the time of paying such cash or ticket rate of fare as shall then be in force shall be entitled to transfer without additional charge from any route of the Local Lines on which he shall have paid such fare to any other route of the Local Lines.

Such passenger shall be entitled to such transfer only at the point where the routes meet or intersect, or at any other points fixed by the Railway so as to enable such passenger to go without stop-over from one point direct and by first car passing such transfer point to another point on the Local Lines.

The payment of one fare shall not in any case entitle the passenger to return to the vicinity of his starting point. The intention is that the Railway shall carry the passenger for a continuous journey on its Local Lines so long as such journey is continued in the same general direction.

The transfer issued to the passenger shall designate the point or place of transfer and the transfer must be used at such point only and within the time limited by the transfer.

If the cars of two or more routes are operated regularly along the same street, passengers who are able to reach their destination by one of said routes, without transfer to another of said routes, shall board a car upon the route reaching such destination, and shall not be entitled to transfer thereto from any other route.

Without limitation by the preceding enumeration the Railway may make such reasonable regulations and conditions with respect to transfers and conduct of passengers on cars as may be approved by the Railway Board.

Section XLI—Additions to Fares Schedule

Whenever, Item "A" of the Fares Schedule being in force, the Gross Receipts shall be more than sufficient to provide for the Operating Expenses, the Return and the Reserves and the Surplus Reserve shall exceed Normal by fifty per cent. (50%) and these conditions shall have existed for a period of not less than six months, the Railway and the Corporation by Agreement, or in default of agreement, the Railway Board shall add to the Fares Schedule an item or items of Fares lower in amount than Item "A" and whenever the Gross Receipts, Item "E" of the Fares Schedule being in force, shall be insufficient to provide for Operating Expenses, the Return, the Reserves and the reduction of Property Value mentioned in Sub-paragraph (b) of Definition 15 of Section I hereof, as provided for in Section XXXI, the Railway Board, upon the application of the Railway, may add to the Fares Schedule an Item or Items of Fares higher in amount than said Item "E." Such additional Items of Fare shall forthwith be added to the Fares Schedule and form part of this Agreement and Section XXXV shall apply thereto.

Section XLII—Policemen and Employees Free

Policemen in the employment of the Corporation when on duty and in uniform shall be carried by the Railway on its Local Lines without charge and the Railway may carry without charge its officers and employees and others engaged in any work connected with the Railway and those entitled by Statute to free transportation.

Section XLIII—Franchise for Fifteen Years or Until Purchase

The rights and franchises hereby granted shall as applied to Local Lines continue until such time as the Corporation shall purchase and pay for the Railway's Local Lines Works and such joint Railway Works as are mentioned in Schedule "B."

The Railway grants to the Corporation and the Corporation hereby reserves to itself the right at the expiration of fifteen years from the date hereof and at intervals of five years thereafter, in either case on one Year's previous notice in writing to the Railway, to terminate this franchise, subject however to all the provisions of this Agreement respecting the rights upon and subsequent to such termination.

Upon the termination of this franchise, in manner aforesaid, the Corporation agrees to purchase all and not less than all of the property mentioned in Section XLIV hereof.

In case the Corporation shall so purchase the property mentioned in said Section XLIV hereof, and before the said Corporation shall be entitled to possession of same, it shall pay the Railway the purchase prices of such property plus five per cent. (5%) of such prices; and upon the making of such payment the Railway shall deliver to the Corporation proper conveyances and transfers of all such property free from all encumbrances and make delivery thereof.

The Railway in case of such purchase shall also transfer to the Corporation the several Reserves herein provided for, together with all the then existing property acquired with payments made therefrom or from working capital; and also all working capital, receivables, cash and quick assets other than an amount to be deducted and retained from said Reserves to the extent available, equal to the amount of the then unpaid Return provided for in Sections XXXII and XXXV hereof; provided, however, that any working capital, which shall not have been added to Property Value, shall pass to the Corporation to such extent and to such extent only as the Corporation assumed indebtedness of the Railway not deducted from the purchase price by reason of such assumption.

Section XLIV—Property to be Taken at Termination and Purchase Prices

Upon the termination of this franchise the Corporation shall purchase and shall take over all and not less than all of the property mentioned in this Section and pay for the same the purchase prices hereinafter mentioned.

(1) Local Lines Works, included in "Property Value" at the date fixed for the Corporation to enter into possession, the purchase price to be the then Property Value as appears on the books of the Railway.

(2) Property shown in Schedule "A," referred to herein, which represents property necessary to or used in the operation of "Local Lines" hereunder but which is not included in "Property Value," as defined in Definition 15 hereof.

(3) Property, if any, shown in Schedule "B" hereinafter referred to in Section XLVI; the purchase price to be the fair value thereof as a part of the Railway as a going concern, to be agreed upon between the City Engineer and the Railway's representative, nominated in writing for that purpose or, in default of agreement, fixed by the Railway Board.

There shall be deducted from the above purchase prices the following:

- (a) The total of all payments received by or due to the Railway from the sale of any of its assets or property which shall have been sold or otherwise disposed of by the Railway at any time prior to the time upon which the Corporation shall be entitled to enter into possession of the same and for which no corresponding reduction from Property Value or from Schedules "A" or "B" has been made.
- (b) All amounts added to Property Value which the Railway may have expended for the purpose of making Extensions, Betterments or Improvements out of moneys from the Repair, Maintenance and Depreciation Reserve or out of Surplus Reserve.
- (c) The amounts of all liabilities for operating expenses, which liabilities the Corporation shall assume.

Section XLV—Schedule "A," Preparation and Delivery

Within one year after the time fixed by Section XIV hereof for the construction and completion of the Local Lines Works, or upon notice being given by the Corporation to terminate this franchise, the Railway shall prepare and deliver to the Corporation a list, referred to as Schedule "A," setting forth items of property, with the values thereof, which said items of property are necessary to or used in connection with "Local Lines" but which are not included in "Property Value."

The values shall be the fair value thereof, as a part of the Railway as a going concern, at the time of the coming into effect of this agreement and having regard to the depreciated condition of the several items and their then useful life.

The provisions of this agreement as to repair, maintenance and depreciation and the Repair, Maintenance and Depreciation Reserve shall be applicable to the items of property in Schedule "A."

Section XLVI—Schedule "B," Preparation and Delivery

Within thirty days after notice given by the Corporation to terminate the franchise hereby granted, the Railway shall prepare and deliver to the Corporation a list referred to as Schedule "B," setting forth items of property, if any, with the values thereof, which said items of property come within the definition of Joint Railway Works, and which the Railway claims are proper to be taken over and paid for by the Corporation as necessary or convenient for the operation of the Local Lines and which the Railway does not desire to retain.

In respect to such items of property as the Railway may retain, the Corporation hereby agrees to provide access on an equitable basis for the Railway to such properties for their convenient and proper use by the Railway; and in respect to such items of property from which the Corporation may desire service for the "Local Lines," the Railway hereby agrees to provide such service on an equitable basis to be determined by agreement between the parties hereto or failing which by the Railway Board. It is agreed, however, between the parties hereto that the obligation herein to provide such service shall not require the Railway to provide additional facilities therefor, by capital expenditure.

Section XLVII—Fixing Purchase Prices, Schedules "A" and "B"

The Corporation shall within one month after delivery of said Schedule "A" or Schedule "B" or both, notify the Railway whether it agrees to the items and values set forth in the said Schedules or either or both. If the Corporation agrees to same the parties hereto shall sign and seal the same and each shall then be added to and become part of this Agreement. If, however, the Corporation does not agree thereto, it shall, within one month from the receipt of such Schedule "A" or Schedule "B," notify the Railway accordingly, and thereupon the City Engineer and a representative of the Railway, to be nominated in writing for that purpose, shall immediately meet and if possible agree upon the said items and values. In default of agreement the matter shall be determined by the Railway Board. Upon agreement by the City Engineer and the representative of the Railway aforesaid, or upon the determination of the matter by the Railway Board, Schedule "A" or Schedule "B" or both, as the case may be, shall be signed either by the City Engineer and the said representative of the Railway or by the Chairman or Secretary of the Railway Board and shall thereupon be thereby added to and form part of this agreement.

The items and values fixed as in this Section provided shall form Schedules "A" and "B" respectively and the sum of the values of the items in each shall be the purchase price mentioned in Section XLIV, Subsections (2) and (3) respectively.

Section XLVIII—Indemnity by Corporation on Termination

The Corporation shall, upon the termination of this franchise, indemnify and save the Railway harmless from all claims, demands and/or obligations whatsoever, with respect to Local Lines Works and the operation of Local Lines.

Section XLIX—Maintenance Bridges, New Street

It is agreed between the parties hereto that all cost of maintenance, for which the parties hereto are or may be liable, of the overhead bridges referred to in Section IV hereof, shall during the currency of this Agreement be borne one-half by each of the parties hereto. Thereafter the cost of such maintenance shall be borne in such proportions as may be agreed upon or, failing agreement, in such proportions as may be ordered by the Railway Board.

Section L—Further Assurance by By-law, etc.

The Corporation shall from time to time pass such By-laws and resolutions, take such action and do such things as may be reasonably requested by the Railway for the purpose of fully effectuating the objects and intent

of this Agreement, and more particularly such By-laws as the Railway may request and as the Corporation may lawfully pass to enable the Railway to enforce the provisions of Section II and VI hereof.

Section LI—Parties to Co-operate

The Railway and the Corporation covenant and agree each with the other:

- (a) To carry out the agreements and provisions herein contained.
- (b) To co-operate by all means in the power of each of them at all times to create the most favourable conditions for the carrying out of the objects of the agreement and all or any By-laws pertaining hereto.
- (c) To co-operate in obtaining the ratification of this agreement forthwith by act of the Legislative Assembly of the Province of Ontario.
- (d) To apply to the said Legislature for such powers as will enable the Corporation to do, perform and carry out each and every the agreements and covenants on its part to be done, performed or carried out.

Section LII—Notices

Any notice to be given under any of the provisions hereof may be effectually given to the Corporation by delivery of the same to the Mayor or other Chief Officer or to the City Clerk, or to the Railway by delivering the same to some adult person in the office of the Railway at the City of Niagara Falls. Any such notice may also be effectually given by registered letter prepaid and deposited in one of His Majesty's Post Offices, either in Niagara Falls or Toronto, addressed, if to the Corporation, to "The Mayor of Niagara Falls" at Niagara Falls, Ontario, or if to the Railway, to the "Manager of Canadian National Electric Railways" at Toronto, Ontario. If by registered letter as aforesaid the notice shall be deemed to have been given on the day of the posting thereof.

Section LIII—Initial Fares, Item "C"

Upon the coming into effect of this Agreement, Item "C" of the Fares Schedule shall apply and come into force and shall continue to apply and be in force until the inclusion in Property Value of all expenditures for Local Lines Works included in the Initial Scheme and thereafter until, under the provisions hereof, some other Item of the Fares Schedule comes into force, and in any event until the thirty-first day of December, 1925.

Section LIV—Interpretation by Judge, S.C.O.—Disputes Settled by Railway Board

In case any disagreement or dispute shall arise as to the construction of this Agreement or any part thereof, as to the legal effect thereof, or any part thereof, or as to any point or points of law arising out of or under this Agreement, such disagreement or dispute shall be heard and determined upon originating notice by a Judge of the Supreme Court of Ontario, and the Rules of the Supreme Court of Ontario in regard to originating notices shall be applicable. The decision of the Judge shall, subject to such appeal as may be provided for by the said Rules or the Judicature Act in the case of matters before the Court on originating Notice, be final and conclusive. In case of any disagreement or dispute other than as above mentioned, the same shall be referred to the Railway Board, whose decision thereon shall be final and conclusive. The Railway Board shall also hear and determine any question of construction, of legal effect or of law incidental to any application before it.

Section LV—Interurban Running Rights

The Corporation hereby grants to the Railway and agrees that the Railway shall have for the passenger traffic of its Interurban Lines running

rights, that is the right to operate its cars, or other means of transportation, and the right to the use of all facilities, including power lines and overhead works, on the tracks of the Local Lines or upon the Streets; on Victoria Avenue from Bridge Street to such point on Victoria Avenue, South of McDougall Avenue, as will enable the Railway's cars to reach the Private Right of Way referred to in Section I, Definition 15, Paragraph (c), Sub-paragraph (1) hereof and on such other street or streets as may from time to time be agreed upon by the Corporation and the Railway, or in default of agreement ordered by the Railway Board and upon the tracks of all other Local Lines for excursions or other traffic and for connecting with the Railway of the International Railway Company or other Railway, all upon a car mileage basis both as to maintenance and power as provided by Section XXXIX hereof.

If any dispute shall arise as to the said Running Rights, or the amount to be appropriated or credited to the Local Lines operation upon the said basis, the same shall be heard and determined by the Railway Board.

The Corporation also hereby grants to the Railway the right to maintain its tracks upon and to cross with its cars, or other means of transportation used in its Interurban service, all streets intersected by the Local Lines upon which the Railway has running rights or intersected by the Private Right of Way of the Railway.

After the termination of this franchise by the purchase by the Corporation of the Local Lines Works or otherwise the Railway may continue thereafter to operate its Interurban Cars or service over the established lines upon the car mileage basis mentioned in Section XXXIX hereof; but at the expiration of any five-year period thereafter either the Railway or the Corporation may apply to the Railway Board for a readjustment of the terms upon which the Interurban cars or service may thereafter be operated and thereafter they shall be operated upon such terms as the Railway Board orders.

Section LVI—Abandonment by Railway

If the Gross Receipts, under the most favourable conditions then existing and provided for in this Agreement, shall be insufficient to provide for Operating Expenses, the Return and the Reserves, for any period in excess of three years, after the 1st day of January, 1925, the Railway shall have the right to abandon this Agreement upon three months' notice to the Corporation. At the expiration of three months after Notice of Abandonment, if the Corporation does not purchase under the provisions hereof in that behalf, this Agreement shall thereupon cease, determine and be utterly void, except that the Railway may at its option continue to use the tracks then in use for Interurban Service upon such terms as the Railway Board may fix and, in case the Corporation does not purchase as aforesaid, may sell or remove any of the Railway works.

The permission of the Corporation to use for Interurban cars any Local Line other than that on Victoria Avenue from Bridge Street to the point south of McDougall Avenue mentioned in Section LV, shall not be construed so as to make such Local Line a line or the tracks thereon tracks "then in use for Interurban service" within the meaning of the above paragraph of this Section.

If not removed within one year after the expiration of the three months after notice of abandonment, all the right, title and interest of the Railway of, in and to the Local Lines Works shall, except as aforesaid, pass to and become the property of the Corporation.

Section LVII—Modern Equipment and Appliances

The Railway shall adopt and use suitable modern equipment and appliances. The adoption and use of any equipment or appliance approved by the Railway Board shall be taken to be a compliance with the provisions of this Section. In any event the Railway shall use for open track construction rails weighing not less than 85 pounds per yard and for tracks in pavement rails weighing not less than 103 pounds per yard. Rails in pavement shall have properly welded joints.

Section LVIII—Rails to Conform to Grade

1. The Rails of the Railway shall conform to the grade of the highway.
2. Where the Rails are laid upon the graded or travelled portion of a highway, or on any part thereof, they shall be laid, as nearly as practicable, flush with the highway and so as to cause the least possible impediment to the ordinary traffic and shall be so kept and maintained by the Railway.

Section LIX—Busses and Trackless Trolleys

It is contemplated by this Agreement that busses or trackless trolleys or some other means of transportation may be adopted and used either in substitution for or in addition to the Local Lines herein specifically mentioned or parts thereof and in that event should any question arise as to whether a bus line should be established and operated or other means of transportation should be adopted the matter shall, in default of agreement between the parties in respect thereto, be referred to the Railway Board for hearing and determination and the decision of the Railway Board thereon shall be final.

It is agreed that the Railway shall not be required to establish or operate any Bus Line or other addition to the Local Lines as herein specifically mentioned, unless and until it is made to appear that the operation thereof will yield sufficient additional Revenue to pay the operating expenses thereof, the Return at the Rates in this Agreement hereinbefore mentioned and a proportionate part of the Reserves hereinbefore provided for and shall not be a burden on the rest of the system.

Section LX—Transportation in Case of Strikes, etc.

Notwithstanding anything herein contained, should the Railway by reason of strikes, riots, act of God, or the public enemies, or from any other cause, fail to operate any portion of its Local Lines, the Corporation may grant or permit to be granted to some person, partnership, company or corporation the right to operate busses, jitneys, or other vehicles for the transportation of passengers over such portion as long as such failure continues.

Section LXI—Rate of Interurban Fare to City Limit and Terminal

The Railway hereby agrees that on its Interurban line it will from time to time establish a rate of fare to and from the City Limit, which shall be less than the rate of fare to and from the new Terminal, which it is contemplated shall be established at or near the Upper Arch Bridge, by the amount of the cash Fare of the item of the Fares Schedule from time to time in force.

Until such time as the Local Line on Stanley Street is in operation to the City Limit at intersection of the Railway's present Interurban right of way with Stanley Street, the City Limit shall be considered to be the corner of Queen Street and Victoria Avenue, and until such time and as a temporary measure, the Interurban cars shall carry local passengers from Stanley Street or Fourth Avenue to the Local Lines and upon payment of fare at the item of the Fares Schedule in force, the passenger shall be entitled to a transfer to any Local Line and there shall be furnished to any passenger paying his fare on a Local Line upon request a transfer which shall entitle such passenger to ride to Stanley Street or Fourth Avenue on the Interurban cars.

In respect of this temporary arrangement the fares and tickets collected on the Interurban cars shall form part of the Gross Receipts of the Interurban Lines and the fares and tickets collected on the Local Lines shall form part of the Gross Receipts of the Local Lines, and the Local Lines shall redeem in cash all Local Line tickets collected on Interurban cars.

Section LXII—Local Lines in Case Stamford Does Not Agree

Should the Railway fail to reach an agreement with the Council of the Municipal Corporation of the Township of Stamford, or should the Muni-

cial Electors of said Township refuse to assent to a by-law of such Township authorizing the execution of such Agreement as may be made for the construction, reconstruction and operation of those parts of the Local Lines within said Township, the Local Lines hereunder shall, until the coming into effect of an agreement between the Railway and the Corporation of said Township, be those Local Lines only situate wholly within the City.

Section LXIII—Subject to Appropriation

This Agreement is made subject to the appropriation by the Parliament of Canada of the moneys required for the capital expenditures herein agreed to be made by the Railway.

IN WITNESS WHEREOF the parties hereto have hereunto affixed their seals, attested by the proper officers in that behalf.

BILL

An Act to enable the Town of Brampton to
withdraw from the jurisdiction of the
County Council of the County
of Peel.

WHEREAS the municipal corporation of the town of Preamble.
Brampton has by its petition represented that the said
town of Brampton has for many years formed a part of the
county of Peel, and that the said town is adjacent to a pros-
perous agricultural district; and whereas the said town con-
tains a number of important industries, and by reason of its
location, and by reason of its important manufacturing
industries, its municipal requirements are entirely distinct
from those of all other municipalities in the said county of
Peel; and whereas there are no other incorporated towns in
the said county of Peel; and whereas the said town has
notified the county council of the county of Peel of its inten-
tion to apply for withdrawal of the said town of Brampton
from the jurisdiction of the county council of the county of
Peel; and whereas the said corporation has by its petition
prayed that an Act may be passed to have the town with-
drawn from the jurisdiction of the county council of the
county of Peel; and whereas, from the conditions herein-
before recited as well as from other considerations, it is
expedient to grant the prayer of the said petition;

Therefore, His Majesty, by and with the advice and con-
sent of the Legislative Assembly of the Province of Ontario,
enacts as follows:—

the share or portion of same to be paid by the town and county respectively shall be in proportion to the respective populations of the town and county as returned and shown in the last census of the Dominion of Canada; and the said arbitrators shall apportion their respective proportions of charges and expenses as between the town and the county on the basis of their respective populations as shown by the last census taken and returned by the Dominion of Canada.

Town not to be represented in county council.

10. In the month of May, before the lapse of five years from the time of the said agreement or award and quinquennially thereafter, a new agreement or award may be made to ascertain the amount to be paid by the town to the county in common with the county hereof, and in ascertaining such amount, the same shall be based on the population of town and county as shown in the last preceding census of the Dominion of Canada, which shall be for all time the basis of adjustment for town and county. New agreement after lapse of five years.

Provision
for reunion
with county.
1922, c. 72.

11. The council of the town, after the expiration of five years from the withdrawal, may pass a by-law to be assented to by the electors in the manner provided for by *The Consolidated Municipal Act, 1922*, in respect of by-laws for creating debts to reunite the said county. An Act respecting The Ontario Asphalt Block Company, Limited.

WHEREAS The Ontario Asphalt Block Company, Preamble.
Limited, a company incorporated under the laws of the Province of Ontario has, by petition, represented that it was incorporated for the purpose of manufacturing and selling asphalt paving blocks, that for the purpose of its undertaking it leased from one, Luke Montreuil, now deceased, he representing himself to be the owner thereof, the northwesterly portion of lot ninety-seven (97) adjoining the town of Walkerville and lying between the Channel Bank of the Detroit River and Sandwich Street, which included the water lot in front; that the said lease contained an option to sell the property to the company at the end of ten years, the term of the said lease; that the company spent very large sums of money upon the said lands in the erection of a plant and docks necessary for its undertaking; that at the end of the said term the company desired to exercise the said option to buy the said property; that the lessor refused to convey any portion of the said lands on the ground that he was only a tenant for life thereof; that in an action upon the covenant to sell, contained in the said lease the court decreed specific performance thereof in so far only as the water lot was concerned; that the severance of the land lot from the water lot deprived the company of any access to a highway; that the remaindermen, children of the lessor refused to join to make good the covenant for title of the lessor or to sell or grant any right of way to the company over the severed lands, although they had done so in connection with other sales of land, having the defects as to title made by the said lessor; that without access to a highway the water lot and dock built thereon are seriously affected as to use and value; that the said water lot and docks with proper highway access would be very valuable; in consequence whereof the said company has prayed that an Act may be passed making provision for such access; and whereas it is expedient to grant the prayer of the said petition;

Therefore, His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

Power to
expropriate
right-of-way.

1. The Ontario Asphalt Block Company, Limited, may acquire by purchase, lease or otherwise, or may expropriate a right-of-way in fee in and over the following lands, to wit:— All that part of farm lot number ninety-seven (97) formerly in the township of Sandwich East, but now in the town of Ford City, commencing at a point on the northerly side of Sandwich Street at its intersection with the easterly limit of the town of Walkerville, thence easterly along the northerly limit of Sandwich Street a distance of twenty (20) feet, thence northerly parallel with the easterly limit of the town of Walkerville to the southerly limit of the water lot in front thereof, thence westerly along the southerly limit of the said water lot a distance of twenty (20) feet more or less to the said easterly limit of the town of Walkerville, thence southerly along the said easterly limit of the town of Walkerville to the northerly limit of Sandwich Street, the place of beginning, upon paying to the owners thereof, or persons interested therein, such compensation as may be agreed upon, or in default of agreement, as may be determined by arbitration under the provisions of *The Ontario Railway Act*, and for that purpose only the company shall be deemed to be a railway company.

An Act respecting the Black Eagle Gold Mining Company, Limited.

WHEREAS the Black Eagle Gold Mining Company Preamble. Limited has by Petition represented that it is carrying on the business of mining with head office at the city of Toronto, in the county of York, and has entered into an arrangement to purchase from Hugh Corbett, William Rivet-Carnac and Cyril Theodore Anstruther Wilkinson, on behalf of the debenture holders of the Black Eagle Gold Mining Company Limited, certain mining properties hereinafter referred to, in the district of Kenora, in the Province of Ontario; that the petitioner is a body corporate and politic carrying on the business of mining with head office at the city of Toronto, in the county of York, and has entered into an arrangement to purchase from Hugh Corbett, William Rivet-Carnac and Cyril Theodore Anstruther Wilkinson, on behalf of the debenture holders of the Black Eagle Gold Mining Company Limited, certain mining properties hereinafter referred to in the district of Kenora in the Province of Ontario; that the said mining properties are known as parcel 3101 in the Land Titles Office at Kenora for the district of Kenora, and being composed of mining location D. 234 and parcel 938 in the Land Titles Office at Kenora for the district of Kenora and being composed of mining locations P. 566 and P. 567; that all of the said parcels or mining locations were patented by General Sir Henry Clement Wilkinson, who with his personal associates in England carried on mining operations thereon, a company having been incorporated under the name of the Black Eagle Gold Mining Company Limited, under the laws of the United Kingdom, to which said Company was granted on or about the 6th day of September, 1901, a license to carry on business in the Province of Ontario; that under transfer registered at the said Land Titles Office as No. 5302, the said Black Eagle Gold Mining Company Limited became the owner in fee simple with an absolute title of the said parcel No. 938, being mining locations 566 P. containing thirty-five acres and 567 P. containing forty-two and one-half acres in the said mining division, and under transfer No. 5303 the said Black

Eagle Gold Mining Company Limited became the owner in fee simple with an absolute title of the said parcel 3101, being mining location D. 234 in the said mining division, in both cases subject to the usual reservations of five per cent. for roads and subject to the usual reservations, provisoes and conditions contained in *The Mines Act* and in the original patent from the Crown; that under and by virtue of charge No. 8303 dated the 19th day of December, 1904, and registered the 16th day of June, 1905, the said lands were mortgaged or charged in favour of Sir Henry Clement Wilkinson and James Carfrae Alston for the payment of £12,500 Sterling; the said charge is still in existence; that the said James Carfrae Alston, by notice in writing dated the 9th day of November, 1906, duly retired as trustee, leaving the said Sir Henry Clement Wilkinson the sole trustee; that default having been made by the Company pursuant to the provisions of the said charge, the said Sir Henry Clement Wilkinson, trustee, by notice in writing under his hand dated the 11th day of November, 1906, required the Company, within one month after receipt of that notice, to pay the interest then in arrears and that in default the property would be sold; that the Company made default in payment as required by such notice and thereupon the Trust for Sale declared by the said charge arose; that in pursuance of the powers in him vested as such trustee, the said Sir Henry Clement Wilkinson, by his agent, John Taylor, took possession of the mortgaged premises hereinbefore referred to on the 11th day of December, 1907, and he so continued in possession until his death, and his successors hereinafter referred to have ever since been in continuous possession and are in possession at the present time; that the said Sir Henry Clement Wilkinson died on the 23rd day of November, 1908, having duly made his will, dated the 25th day of March, 1908, whereby he appointed Ellen Maria Phoebe Corbett, William Rivet-Carnac and Cyril Theodore Anstruther Wilkinson his executors and trustees, and his will was proved in His Majesty's Surrogate Court of the District of Rainy River, now Kenora, by all the executors on the 30th day of April, 1909, and they thereupon became the trustees under the Trust Deed and became entitled to all the rights possessed by the said Sir Henry Clement Wilkinson by virtue of the said charge; that the said Black Eagle Gold Mining Company Limited has wholly failed to carry out its obligations under the Trust Deed and has never paid any sum in respect of the monies so secured and the time for payment thereunder has long since expired; that the said Ellen Maria Phoebe Corbett died in 1919, leaving her son, Hugh Corbett, her sole executor; that the said original notice given by the said James Carfrae Alston of his retirement as such trustee and the said notice to the said Company cannot now be located; that the said Hugh Corbett, William Rivet-Carnac

and Cyril Theodore Anstruther Wilkinson are the persons entitled by law to sell the said property and receive the said purchase money; that the said Hugh Corbett, William Rivet-Carnac and Cyril Theodore Anstruther Wilkinson have had no dealings with the said property save to grant to one, Harold Arthur Clement Machin, an option dated the 25th day of October, 1922, to purchase the said lands, which option has been acquired by your petitioners; that owing to the provisions of *The Land Titles Act* and of other Statutes in that behalf, proceedings in the Supreme Court of Ontario would be necessary in order to permit registration of a transfer signed by the said Hugh Corbett, William Rivet-Carnac and Cyril Theodore Anstruther Wilkinson in order to prove the devolution, and that the said persons are entitled by law to sell the aforesaid lands; that such proceedings, whether under *The Quieting Titles Act* or by other procedure, would be lengthy and would greatly prejudice your applicants who are desirous of immediately consummating the aforesaid purchase and proceeding with the development of the said property and the production of minerals thereon; and whereas the said petitioner has by petition prayed that an Act may be passed, authorizing and directing the Master of Titles at Kenora, to register a transfer of the said lands to the petitioner, signed by Hugh Corbett, William Rivet-Carnac and Cyril Theodore Anstruther Wilkinson, and to issue to the petitioner a certificate of title covering the said lands; and whereas it has been deemed expedient to grant the prayer of the said petition;

Therefore, His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. The Master of Titles at the Land Titles Office for the district of Kenora, at Kenora, Ontario, is authorized and directed to register a transfer to Regina Reef Gold Mines Limited (No Personal Liability), executed by Hugh Corbett, William Rivet-Carnac and Cyril Theodore Anstruther Wilkinson, trustees for the debenture holders of Black Eagle Gold Mining Company Limited, of parcel 3101 in the Land Titles Office at Kenora for the district of Kenora, and being composed of mining location D. 234 and parcel 938, in the said Land Titles Office at Kenora, for the district of Kenora, being composed of mining locations P. 566 and P. 567; and forthwith thereafter to issue to Regina Reef Gold Mines Limited (No Personal Liability) a certificate of title to and for the said parcels.

BILL

An Act for the settlement of certain questions
between the Governments of Canada and
Ontario respecting Indian Reserve
Lands.

HIS MAJESTY, by and with the advice and consent of
the Legislative Assembly of the Province of Ontario,
enacts as follows:—

1. This Act may be cited as *The Indian Lands Act, 1924.* Short title.

2. The agreement between the Dominion of Canada and the Province of Ontario, in the terms set out in the schedule hereto, shall be as binding on the Province of Ontario as if the provisions thereof had been set forth in an Act of this Legislature, and the Lieutenant-Governor in Council is hereby authorized to carry out the provisions of the said agreement.

Agreement
with Dom-
inion as to
minerals in
Indian lands.

SCHEDULE "A".

Memorandum of Agreement made this _____ day
, 1924.

Between:

THE GOVERNMENT OF THE DOMINION OF CANADA,
acting herein by the Honourable Charles Stewart,
Superintendent General of Indian Affairs, _____ of the first part;

—and—

THE GOVERNMENT OF THE PROVINCE OF ONTARIO,
acting herein by the Honourable James Lyons, Minister
of Lands and Forests, and the Honourable Charles
McCrea, Minister of Mines, _____ of the second part.

Whereas from time to time treaties have been made with the Indians for the surrender for various considerations of their personal and usufructuary rights to territories now included in the Province of Ontario, such considerations including the setting apart for the exclusive use of the Indians of certain defined areas of land known as Indian Reserves;

And whereas, except as to such Reserves, the said territories were by the said treaties freed, for the ultimate benefit of the Province of Ontario, of the burden of the Indian rights, and became subject to be administered by the Government of the said Province for the sole benefit thereof;

And whereas the surrender of the whole or some portion of a Reserve by the band of Indians to whom the same was allotted has, in respect of certain Reserves in the Provinces of Ontario and Quebec, been under consideration in certain appeals to the Judicial Committee of the Privy Council, and the respective rights of the Dominion of Canada and the Province of Ontario, upon such surrenders being made, depend upon the law as declared by the Judicial Committee of the Privy Council and otherwise affecting the Reserve in question, and upon the circumstances under which it was set off;

And whereas on the 7th day of July, 1902, before the determination of the last two of the said appeals, it had been agreed between counsel for the Governments of the Dominion of Canada and the Province of Ontario, respectively, that, as a matter of policy and convenience, and without thereby affecting the constitutional or legal rights of either of the said Governments, the Government of the Dominion of Canada should have full power and authority to sell, lease and convey title in fee simple or for any less estate to any lands forming part of any Reserve thereafter surrendered by the Indians, and that any such sales, leases or other conveyances as had theretofore been made by the said Government should be confirmed by the Province of Ontario, the Dominion of Canada, however, holding the proceeds of any lands so sold, leased or conveyed subject, upon the extinction of the Indian interest therein and so far as such proceeds had been converted into money, to such rights of the Province of Ontario as might exist by law;

And whereas by the said agreement it was further provided that, as to the Reserves set aside for the Indians under a certain treaty made in 1873 and recited in the Schedule to the Dominion Statute, 54-55 Victoria, chapter 5, and the Statute of the Province of Ontario, 54 Victoria, chapter 3, the precious metals should be considered to form part thereof and might be disposed of by the Dominion of Canada in the same way and subject to the same conditions as the land in which they existed, and that the question whether the precious metals in the lands included in Reserves set aside under other treaties were to be considered as forming part thereof or not, should be expressly left for decision in accordance with the circumstances and the law governing each.

Now this agreement witnesseth that the parties hereto, in order to settle all outstanding questions relating to Indian Reserves in the Province of Ontario, have mutually agreed, subject to the approval of the Parliament of Canada and the Legislature of the Province of Ontario, as follows:—

1. All Indian Reserves in the Province of Ontario heretofore or hereafter set aside, shall be administered by the Dominion of Canada for the benefit of the band or bands of Indians to which each may be or may have been allotted; portions thereof may, upon their surrender for the purpose by the said band or bands, be sold, leased or otherwise disposed of by letters patent under the Great Seal of Canada, or otherwise under the direction of the Government of Canada, and the proceeds of such sale, lease or other disposition applied for the benefit of such band or bands, provided, however, that in the event of the band or bands to which any such Reserve has been allotted becoming extinct, or if, for any other reason, such Reserve, or such portion thereof as remains undisposed of, is declared by the Superintendent General of Indian Affairs to be no longer required for the benefit of the said band or bands, the same shall thereafter be administered by, and for the benefit of, the Province of Ontario, and any balance of the proceeds of the sale or other disposition of any portion thereof then remaining under the control of the Dominion of Canada shall, so far as the same is not still required to be applied for the benefit of the said band or bands of Indians, be paid to the Province of Ontario, together with accrued unexpended simple interest thereon.

2. Any sale, lease or other disposition made pursuant to the provisions of the last preceding paragraph may include or may be limited to the minerals (including the precious metals) contained in or under the lands sold, leased or otherwise disposed of.

3. Any person authorized under the laws of the Province of Ontario to enter upon land for the purpose of prospecting for minerals thereupon shall be permitted to prospect for minerals in any Indian Reserve upon obtaining permission so to do from the Indian Agent for such Reserve and upon complying with such conditions as may be attached to such permission, and may stake out a mining claim or claims on such Reserve.

4. No person not so authorized under the laws of the Province of Ontario shall be given permission to prospect for minerals upon any Indian Reserve.

5. The rules governing the mode of staking and the size and number of mining claims in force from time to time in the Province of Ontario or in the part thereof within which any Indian Reserve lies shall apply to the staking of mining claims on any such Reserve, but the staking of a mining claim upon any Indian Reserve shall confer no rights upon the person by whom such claim is staked except such as may be attached to such staking by The Indian Act or other law relating to the disposition of Indian Lands.

6. Except as provided in the next following paragraph, one-half of the consideration payable, whether by way of purchase, money, rent, royalty or otherwise, in respect of any sale, lease or other disposition of a mining claim staked as aforesaid, and, if in any other sale, lease or other disposition hereafter made of Indian Reserve lands in the Province of Ontario, any minerals are included, and the consideration for such sale, lease or other disposition was to the knowledge of the Department of Indian Affairs affected by the existence or supposed existence in the said lands of such minerals, one-half of the consideration payable in respect of any such other sale, lease or other disposition, shall forthwith upon its receipt from time to time, be paid to the Province of Ontario; the other half only shall be dealt with by the Dominion of Canada as provided in the paragraph of this agreement numbered 1.

7. The last preceding paragraph shall not apply to the sale, lease or other disposition of any mining claim or minerals on or in any of the lands set apart as Indian Reserves pursuant to the hereinbefore recited treaty made in 1873, and nothing in this agreement shall be deemed to

detract from the rights of the Dominion of Canada touching any lands or minerals granted or conveyed by His Majesty for the use and benefit of Indians by letters patent under the Great Seal of the Province of Upper Canada, of the Province of Canada or of the Province of Ontario, or in any minerals vested for such use and benefit by the operation upon any such letters patent of any statute of the Province of Ontario.

8. Every grant, lease or other disposition heretofore made under the Great Seal of Canada or otherwise under the direction of the Government of Canada of lands which were at the time of such grant, lease or other disposition included in any Indian Reserve in the Province of Ontario, is hereby confirmed, whether or not such grant, lease or other disposition included the precious metals, and the consideration received in respect of any such grant, lease or other disposition shall be and continue to be dealt with by the Dominion of Canada in accordance with the provisions of the paragraph of this agreement numbered 1, and the consideration received in respect of any grant, lease or other disposition heretofore made under the Great Seal of the Province of Ontario, or under the direction of the Government of the said Province, of any lands which at any time formed part of any Indian Reserve, shall remain under the exclusive control and at the disposition of the Province of Ontario.

Nothing herein contained shall affect the interpretation which would, apart from this agreement, be put upon the words of any letters patent heretofore or hereafter issued under the Great Seal of Canada or the Great Seal of the Province of Ontario, or of any lease or other conveyance, or of any contract heretofore or hereafter made under the direction of the Government of Canada or of the Province of Ontario.

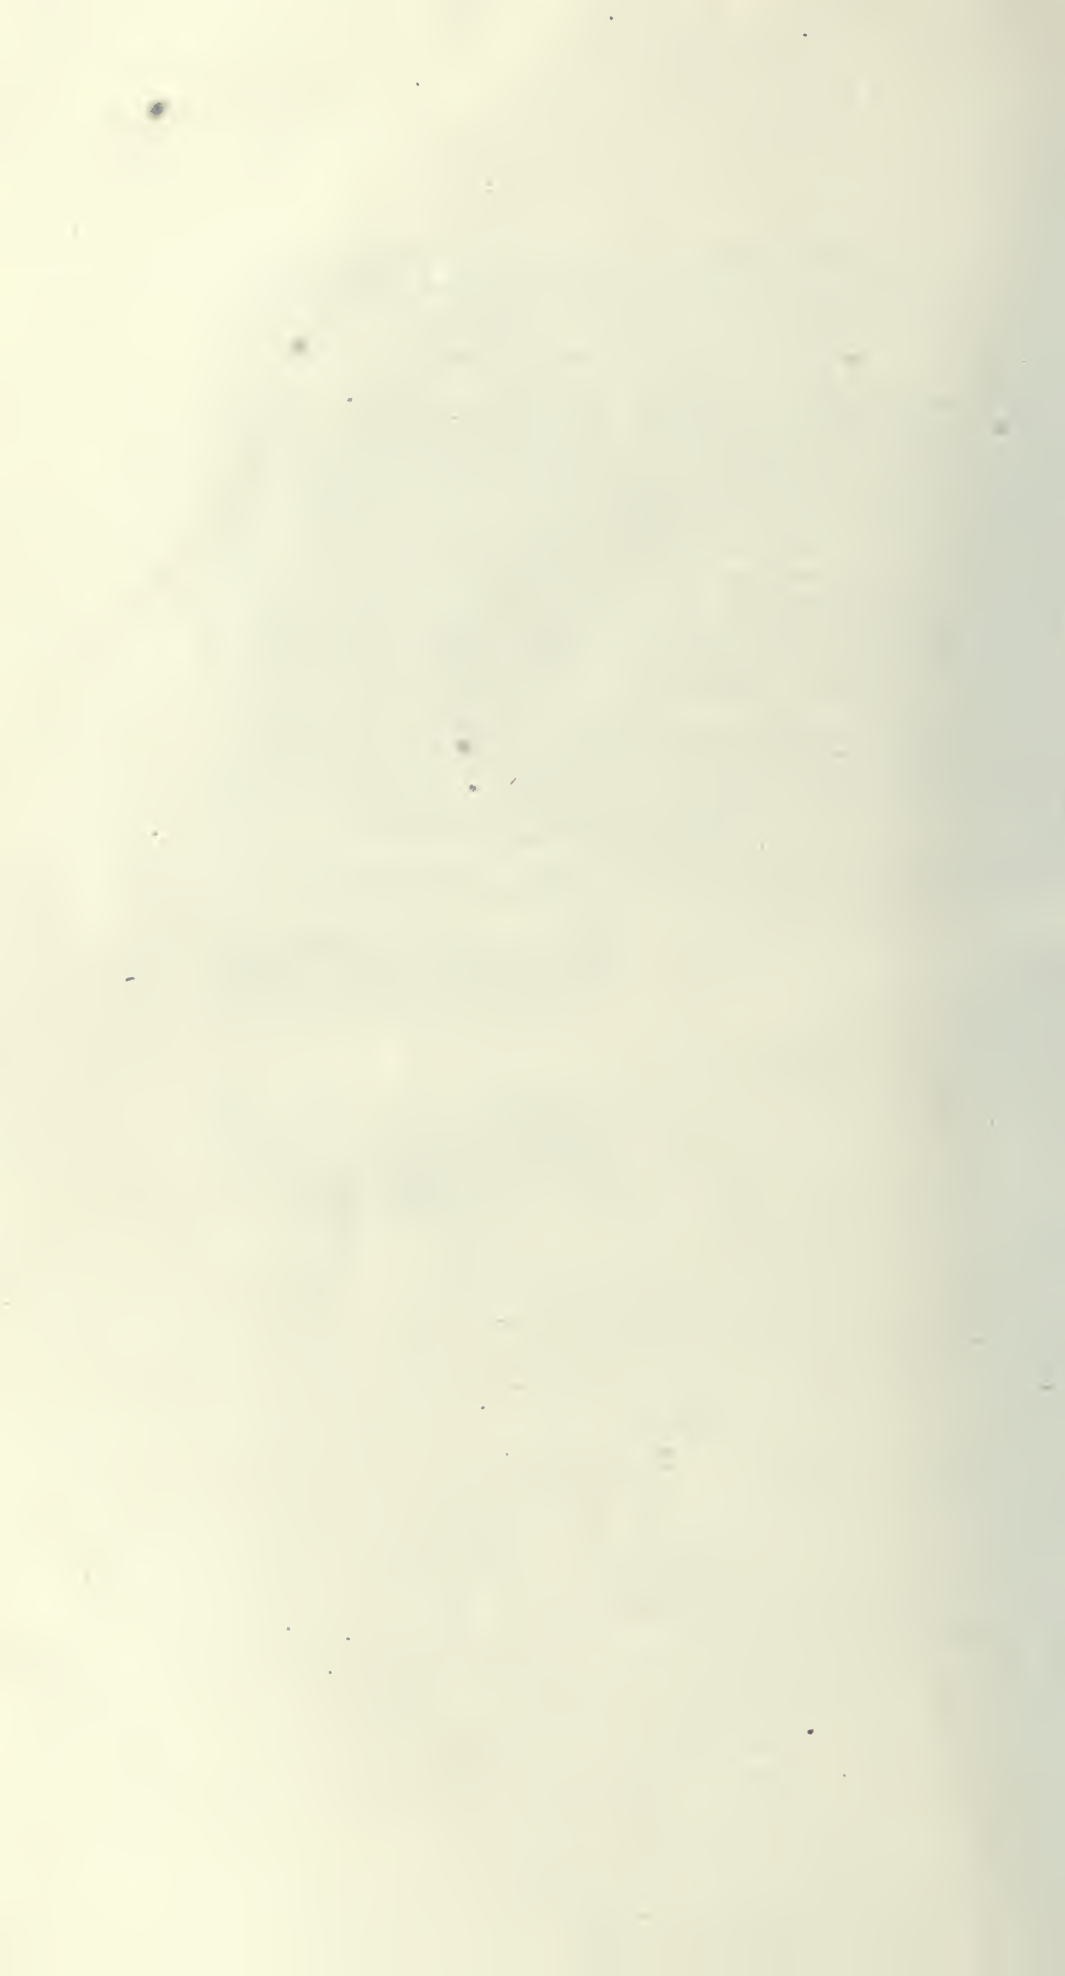

In witness whereof these presents have been signed by the parties thereto the day and year above written.

Stewart, Superintendent General of
Indian Affairs, in the presence of:

BILL

An Act respecting the City of Galt.

WHEREAS the municipal corporation of the city of Galt has by petition represented that it has constructed an asphaltic concrete pavement, twenty feet in width, on the southerly portion of Dundas Street from its intersection with Water Street north to the northerly limit of the corporation at a cost of thirty thousand dollars; that said pavement is wholly within the city of Galt, but throughout its entire length it adjoins the southerly limit of the township of North Dumfries; that said Dundas Street is a portion of the highway between the city of Hamilton and the city of Kitchener and the traffic thereon is very heavy; that such pavements in the city of Galt are constructed as local improvements and the cost assessed upon the lots abutting on the work as provided by *The Local Improvement Act*; that before undertaking the work, the said corporation passed a construction by-law providing for the construction thereof and the work was done under the supervision of the city engineer, who also estimated the cost thereof; that if the land abutting on said pavement on its northerly side was within the city of Galt, one-half the cost of the construction of such pavement would be assessed against such land and one-half of such cost against the land on the southerly side of such pavement; that it is inequitable to assess the entire cost of such pavement upon the lots abutting thereon on the south side of such pavement; and whereas the said corporation has prayed that an Act be passed providing that one-half the cost of the construction of such pavement be specially assessed upon the lots abutting directly on the southerly side thereof and the balance of such cost borne by the corporation at large; and whereas it is expedient to grant the prayer of said petition; Preamble.

Therefore, His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. This Act may be cited as *The City of Galt Act, 1924*. Short title.

SCHEDULE "A".

BY-LAW No. 31 OF THE ESSEX BORDER UTILITIES COMMISSION.

A By-law to raise the sum of Twenty-two Thousand Nine Hundred Dollars (\$22,900.00) by the issue of debentures for the purpose of purchasing a site for a General Hospital.

Whereas the Consolidated Essex Border Utilities Commission Act provides that the Essex Border Utilities Commission may establish a General Hospital, and it is necessary to acquire a site therefor.

And whereas pursuant to the provisions of the said Act, the Essex Border Utilities Commission did employ J. Clark Keith to make the preliminary examinations and survey of the proposed work and to make a report, estimate and apportionment of the cost thereof, and accordingly the said J. Clark Keith did on the 5th day of May, 1922, make his report, estimate and apportionment of the cost.

And whereas the Essex Border Utilities Commission did adopt the said report and did file the same with each of the Essex Border Municipalities who would become liable for the whole or any part of the said cost, on the 22nd day of July, 1922, except the Township of Sandwich West, and did file the same with the said Township on the 23rd day of July, 1922.

And whereas the said report showed the estimated cost of the said site for the General Hospital to be the sum of Twenty-two Thousand Nine Hundred Dollars (\$22,900.00).

And whereas upon appeal from the said report to the Ontario Railway and Municipal Board pursuant to the provisions of the Consolidated Essex Border Utilities Act, the proportions charged upon each of the Essex Border Municipalities liable under the said report were confirmed as appears by the Order of the said Board, dated the 12th of October, 1922.

	<hr/>
	\$22,900.00

And whereas pursuant to the said Act the purchasing of a site for a General Hospital was submitted to the electors of the Essex Border Municipalities entitled to vote on money by-laws for their approval and was so approved by the said electors, on the day set out opposite each Municipality respectively, that is to say:—

City of Windsor.....	3rd day of December, 1923
Town of Walkerville.....	11th day of December, 1922
Town of Sandwich.....	7th day of January, 1924

Township of Sandwich West.....	1st day of January, 1923

and was approved by the majority of the Council of the Town of Ojibway on the 14th day of January, 1924.

And whereas the Essex Border Utilities Commission deems it expedient to proceed with the purchasing of a site for a General Hospital and to authorize the payment of the cost thereof by the issue of debentures.

And whereas it is therefore desirable to raise the said sum of Twenty-two Thousand Nine Hundred Dollars (\$22,900.00) being the amount of the debt intended to be created by this by-law by the issue of debentures which should be spread over a period of thirty years and be payable in thirty annual instalments during the said period, the said instalments respectively to be of such amounts that the amount payable for principal and interest in any year shall be equal as nearly as may be to that required in any other year.

And whereas it will require the sum of One Thousand Six Hundred and Nineteen Dollars and Forty-one cents (\$1,619.41) to be raised annually during the said period of thirty years by special rates sufficient therefor over and above and in addition to all other rates upon all the rateable property of each of the municipalities which approved of the purchasing of a site for a General Hospital, namely, City of Windsor, Towns of Walkerville, Sandwich, Ford City, Riverside and Ojibway, and that portion of the Township of Sandwich West described in Schedule "A" of the Consolidated Essex Border Utilities Act for the payment of the debt so to be created and the interest thereon annually at the rate of five and three-quarters per cent. per annum.

An Act for the settlement of certain questions
between the Governments of Canada and
Ontario respecting Indian Reserve
Lands.

HIS MAJESTY, by and with the advice and consent of
the Legislative Assembly of the Province of Ontario,
enacts as follows:—

1. This Act may be cited as *The Indian Lands Act, 1924*. Short title.

2. The agreement between the Dominion of Canada and the Province of Ontario, in the terms set out in Schedule "A" hereto, shall be as binding on the Province of Ontario as if the provisions thereof had been set forth in an Act of this Legislature, and the Lieutenant-Governor in Council is hereby authorized to carry out the provisions of the said agreement.

Agreement with Dominion as to minerals in Indian lands.

SCHEDULE "A".

Memorandum of Agreement made in triplicate this 24th day of March, 1924.

Between:

THE GOVERNMENT OF THE DOMINION OF CANADA,
acting herein by the Honourable Charles Stewart,
Superintendent General of Indian Affairs,

of the first part,

—and—

THE GOVERNMENT OF THE PROVINCE OF ONTARIO,
acting herein by the Honourable James Lyons, Minister
of Lands and Forests, and the Honourable Charles
McCrear, Minister of Mines,

of the second part.

Whereas from time to time treaties have been made with the Indians for the surrender for various considerations of their personal and usufructuary rights to territories now included in the Province of Ontario, such considerations including the setting apart for the exclusive use of the Indians of certain defined areas of land known as Indian Reserves;

And whereas, except as to such Reserves, the said territories were by the said treaties freed, for the ultimate benefit of the Province of Ontario, of the burden of the Indian rights, and became subject to be administered by the Government of the said Province for the sole benefit thereof;

And whereas the surrender of the whole or some portion of a Reserve by the band of Indians to whom the same was allotted has, in respect of certain Reserves in the Provinces of Ontario and Quebec, been under consideration in certain appeals to the Judicial Committee of the Privy Council, and the respective rights of the Dominion of Canada and the Province of Ontario, upon such surrenders being made, depend upon the law as declared by the Judicial Committee of the Privy Council and otherwise affecting the Reserve in question, and upon the circumstances under which it was set off;

And whereas on the 7th day of July, 1902, before the determination of the last two of the said appeals, it had been agreed between counsel for the Governments of the Dominion of Canada and the Province of Ontario, respectively, that, as a matter of policy and convenience, and without thereby affecting the constitutional or legal rights of either of the said Governments, the Government of the Dominion of Canada should have full power and authority to sell, lease and convey title in fee simple or for any less estate to any lands forming part of any Reserve thereafter surrendered by the Indians, and that any such sales, leases or other conveyances as had theretofore been made by the said Government should be confirmed by the Province of Ontario, the Dominion of Canada, however, holding the proceeds of any lands so sold, leased or conveyed subject, upon the extinction of the Indian interest therein and so far as such proceeds had been converted into money, to such rights of the Province of Ontario as might exist by law;

And whereas by the said agreement it was further provided that, as to the Reserves set aside for the Indians under a certain treaty made in 1873 and recited in the Schedule to the Dominion Statute, 54-55 Victoria, chapter 5, and the Statute of the Province of Ontario, 54 Victoria, chapter 3, the precious metals should be considered to form part thereof and might be disposed of by the Dominion of Canada in the same way and subject to the same conditions as the land in which they existed, and that the question whether the precious metals in the lands included in Reserves set aside under other treaties were to be considered as forming part thereof or not, should be expressly left for decision in accordance with the circumstances and the law governing each.

Now this agreement witnesseth that the parties hereto, in order to settle all outstanding questions relating to Indian Reserves in the Province of Ontario, have mutually agreed, subject to the approval of the Parliament of Canada and the Legislature of the Province of Ontario, as follows:—

1. All Indian Reserves in the Province of Ontario heretofore or hereafter set aside, shall be administered by the Dominion of Canada for the benefit of the band or bands of Indians to which each may have been or may be allotted; portions thereof may, upon their surrender for the purpose by the said band or bands, be sold, leased or otherwise disposed of by letters patent under the Great Seal of Canada, or otherwise under the direction of the Government of Canada, and the proceeds of such sale, lease or other disposition applied for the benefit of such band or bands, provided, however, that in the event of the band or bands to which any such Reserve has been allotted becoming extinct, or if, for any other reason, such Reserve, or any portion thereof, is declared by the Superintendent General of Indian Affairs to be no longer required for the benefit of the said band or bands, the same shall thereafter be administered by, and for the benefit of, the Province of Ontario, and any balance of the proceeds of the sale or other disposition of any portion thereof then remaining under the control of the Dominion of Canada shall, so far as the same is not still required to be applied for the benefit of the said band or bands of Indians, be paid to the Province of Ontario, together with accrued unexpended simple interest thereon.

2. Any sale, lease or other disposition made pursuant to the provisions of the last preceding paragraph may include or may be limited to the minerals (including the precious metals) contained in or under the lands sold, leased or otherwise disposed of, but every grant shall be subject to the provisions of the Statute of the Province of Ontario entitled, "The Bed of Navigable Waters Act," Revised Statutes of Ontario, 1914, Chapter 31.

3. Any person authorized under the laws of the Province of Ontario to enter upon land for the purpose of prospecting for minerals thereupon shall be permitted to prospect for minerals in any Indian Reserve upon obtaining permission so to do from the Indian Agent for such Reserve and upon complying with such conditions as may be attached to such permission, and may stake out a mining claim or claims on such Reserve.

4. No person not so authorized under the laws of the Province of Ontario shall be given permission to prospect for minerals upon any Indian Reserve.

5. The rules governing the mode of staking and the size and number of mining claims in force from time to time in the Province of Ontario or in the part thereof within which any Indian Reserve lies shall apply to the staking of mining claims on any such Reserve, but the staking of a mining claim upon any Indian Reserve shall confer no rights upon the person by whom such claim is staked except such as may be attached to such staking by The Indian Act or other law relating to the disposition of Indian Lands.

6.
